NO SHORT ENDS

to crumble and come out in your mouth. That's unusual in a five-cent cigar. But immense production and modern methods enable Bayuk Havana Ribbon to be made of ripe, long-filler leaves that are delightfully mild and chock-full of true-tasting flavor. Never before has a nickel bought such smoke!

County Health Nurse Reports

Five Births Registered In October

The population of Kent was increased by five births during the month of October, of these, four were white babies and one, colored.

Eight Women's Clubs throughout the county are taking a short course in Home Hygiene conducted by the county nurse, Miss White. These meetings are well attended and are very practical for the farm and town home-maker.

Five new cases of tuberculosis were reported for the month. At the regular monthly clinic, Mr. J. M. Nicklas examined eight white patients and one colored. One application was made to Henryton for a county patient.

Fourteen white children were examined in the pre-school age clinic conducted by Dr. Goodson at Skinner's Neck. At the clinic held for the colored at the Sharptown School five children were found to have scabies. The nurse has been making visits to the home of these parents since the cases were discovered and instruction for the care and prevention has been given.

A survey of colored midwives was made which enabled the State nurse to locate several of the non-registered children found in September's preschool age clinics.

At the eye clinic held at the Health Center by Dr. Holden five colored patients were examined and glasses were prescribed for four.

The Kent County Hospital took care of three white children and one colored who were operated on for tonsils and adenoids. All children were discharged in excellent condition.

Three adults and two children, all colored, were admitted to the Provident Hospital in Baltimore and one child was returned from there.

Miss White, County Nurse, accompanied a patient to the Easton hospital and an infant was taken to Dr. Leech's heart clinic at the Harriett Lane Dispensary.

The present hospital is in great need of blankets for the winter months. Donations of blankets and other bedding will be gladly received. While waiting for the new hospital, the small temporary one is making a valiant struggle to carry on. Contributions from the public would help relieve the situation for the Health Association which has been running the four-room institution on the proverbial shoe-string.

A membership drive is on for the Health Association. Regular membership is one dollar a year with a second type of five dollars.

GALENA

Mr. Irving Vansant, of Wilmington, is spending several days this week with Mr. and Mrs. L. R. Vansant.

Mr. Rodger Davis and Mr. Franklin Maslin, of Wilmington, spent the week end with friends in town.

Messrs. Bernard Cochran and John Quinn, of Philadelphia, were in town over Saturday and Sunday.

The craze for slenderness among men and women alike is responsible for a marked slump in lard and fatty meat sales, said a recent convention of German butchers of the province of Brandenburg, Germany. Letters from proprietors of Berlin restaurants stated that the consumption of pork, soups and pastries had diminished 50 per cent. since prewar days.

A SUPERIOR Drill means *bigger crops*

TODAY, farmers everywhere acknowledge the SUPERIOR to be the best drill made. Their fathers said the same thing. So did their grandfathers. The SUPERIOR has *always* been a *better* drill. Every worthwhile grain drill improvement in the last fifty years has been a SUPERIOR improvement. And now the SUPERIOR is even better than before.

Note these SUPERIOR Features

No other grain drill combines these — and many more — outstanding improvements: Double-run force feed insures precision feeding—perfect timing—even spacing. No seeds cracked or wasted. No skipping or bunching. Made in both plain grain and fertilizer grain models. For team or tractor. Single disc, double disc, or hoe furrow openers. Special design for every type of soil. Hyatt roller bearings and Alemite lubrication prevent wear on moving parts—make drill last longer—provide lighter draft—make it easier to operate.

Come In and See It

These are some of the reasons why the SUPERIOR Drill means bigger crops—why it pays for itself in the extra bushels of grain you get at threshing time. Come in and see the improved SUPERIOR Drill. Do this before you sow your next crop.
