Plenty of tobacco

NOT a skimpy, loose-wrapped cigar . . . but a man's-size cigar well packed with thoroughly cured, ripe, long-filler tobacco that's delightfully mild and laden with true-tasting flavor. Immense production does it — more really fine tobacco than you ever before bought in a five-cent cigar!

-It's Ripe Tobacco!

A WAVE OF HYSTERIA.
STARVATION IN WAR.
WE MAKE GOOD RUGS.
WOMEN'S COLLEGES STARVED

In October this country sold to other countries merchandise amounting to five hundred and thirty million dollars, a record for the year, and for eight years, excepting two months in 1928.

In October we bought from foreigners three hundred and ninety-two millions worth of goods.

Business is good, money is cheap. Then, what is the matter with us? Two things—a period of reckless gambling and a wave of hysteria.

President Hoover suggests that war should be made more humane, that the blockade, which uses starvation as a weapon in war, striking at women and children, be stopped.

The League of Nations dislikes this idea. It says that if you stop blockading and starving you take away the league's most valuable weapon.

The big idea was to boycott and blockade any nation that went to war without permission.

Other countries are puzzled by extraordinary accumulations of gold in the Bank of France. The French have more gold than any country in the world except this country and are rapidly approaching us in gold reserves.

There is nothing puzzling about it. The French are marvelously thrifty. Their government is intelligent and determined. What they want they mean to have, and they usually get it.

Venizelos, Prime Minister and ablest man in Greece, knows what airplanes will mean when war comes.

He will establish a separate Air Ministry, and run it himself.

President Hoover, able engineer, ought to have a separate Air Ministry, as one of three branches of a national defense system, and be his own Air Minister. Nobody could do the work better. A subsecretary could look after details.

Just now, as you know, the Red Cross is making a drive for more members and more money. The President urges all to join.

Some busy gentlemen in Wall Street felt uneasy recently when a huge Red Cross flag was seen floating over the Stock Exchange. It recalled, painfully, battle, war, sudden death.

However, prices went up, so the flag was a good omen.

The governments of Turkey and Persia protest against "misrepresentations by American rug and carpet manufacturers, marketing products under Oriental names."

No American merchant of consequence misrepresents goods.

Americans are manufacturing rugs and carpets, superb in color and wearing qualities, that will take the place of Oriental rugs in time.

Ask James Simpson of Chicago for details.

Once, the Romans drank only Greek wines, thinking their own inferior.

Later, French aristocrats accepted only Italian wines, although their own were admirable.

This country's wealthy would drink only French claret and champagne, although we made good wines here, until prohibition came along and went the country back to the whiskey of Jefferson's day, only worse.

Before long, Americans will realize that their own rugs and carpets are as good as any in the world.

Charles E. Hughes made a good speech recently, demanding more generous endowment of womeen's education.

Seven leading women's colleges have not one tenth the endowment of the seven leading men's colleges.

That is extremely foolish, the mothers of the human race are at least ten times as important as the fathers.

What women learn, they remember, and tell to their children. What men learn, they forget in business, and don't tell anybody.

The Senate, refusing to adjourn on November 23, by a vote of fifty-one to thirty-four, will go on working at the tariff.

European countries, afraid of higher duties, had rejoiced to hear of the adjournment, and a more or less feeble move to boycott Uncle Sam was abandoned.

It may be taken up again.

For the first time in twenty years, savings bank deposits have dropped. During the past year savings have diminished by $195,305,000, and the number of depositors by 524,221.

Those who drew their money to buy automobiles, radio sets, vacuum cleaners, electric washing machines are wise. They got something better than their dollars.

Those who drew out money safely placed to speculate in stocks know now that it is unwise to gamble.
