PROVERB ON NAGGING WIVES QUOTED BY GEORGIA TRIBUNAL

Atlanta, Ga., Dec. 11—Nagging wives were reminded today by the Georgia Supreme Court "that it is better to dwell in the corner of the house top than with a brawling woman and in a wide house," in affirming the judgment of the Fulton Superor Court, granting a complete divorce to Edgar F. Ross from Mrs. Cora M. Ross.

Ross had complained that his wife's nagging caused him to live in a rear room of his home, doing his own cooking and making his own bed for two years.

In addition to citing the proverbs, the high judiciary quotd the folloiwng from a decision written by Justice Hill several years ago:

"From the days of Socrates men and women have known what is meant by nagging, although philology connot define it or legal chemistry resolve it into its elements. Humor cannot soften it or wit divert it. Prayers avail nothing and threats are idle. Soft words but increase its velocity and harsh ones its violence. Darkness has for it no terrors and long hours of night draw no drapery of the couch around it. The chamber where love and peace should dwell becomes an inferno driving the poor man to the saloon, the rich man to his club, and both into the arms of the harlot. It takes the sparkle out of the wine of life and turns at night into ashes the fruits of the labor of the day."

At one time we [illegible] out of golf balls and ordered sou[illegible] from a famous athletic house in N[illegible]w York city. We were sent tennis [illegible]alls. REPRIMAND 29,581 AUTO DRIVERS!!

BAUGHMAN LISTS YEAR'S ROADSIDE REBUKES BY STATE POLICE

The motor cycle policemen of the Maryland State Police force, in addition to the arrests made for violation of the motor vehicle laws, administered roadside reprimands to 29,581 motorists for minor infractions of the law during the fiscal year ending September 30, E. Austin Baughman, Commissioner of Motor Vehicles, reported this week to Goy. Albert C. Ritchie.

According to the report, additional reprimands were given to 985 drivers by the force of special deputy commissioners; 1,454 by George W. Mumford, legal examiner of the department, following hearings before him, and 7,200 more by him in the form of letters to offenders.

During the year the driving licenses of 1,220 operators convicted of violations of the laws were revoked by the orders of Mr. Baughman; 1,661 others were suspended for various lengths of time for less serious infringements of the laws and 2,161 applicants for driving permits were refused licenses for various reasons.

Hearings were held in the cases of 2,030 motorists who had been convicted in the two branches of the Traffic Court and in the magisterial courts in the counties during the year. Of this number, Mr. Munford revoked the licenses of 154, suspended those of 384 and dismissed the cases against 19 more.

The report stated that the license cards of 1,445 convicted drivers were called in by the department to be marked on the back for violation records.

To Identify *Genuine* Aspirin

The increasing use of Bayer Aspirin every year is proof that it has no ill effects. It is the accepted antidote for pain. It always helps; never harms; is safe to use freely as often as it is needed. Quick relief whenever you've a headache, or cold; or are suffering from neuralgia or neuritis. The distressing pains of rheumatism yield, too, if you'll only give these tablets a chance. But be sure to get genuine Aspirin. It has the Bayer Cross on every tablet. Look for the name Bayer on the box, and the word "genuine" printed in red. Proven directions inside.

BAYER ASPIRIN

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

As important as these activities are, they represent only a part of the health work carried on throughout the year by the Maryland Tuberculosis Association and its county branches. A brief outline of the activities of the Association follows:

Free Clinics Examined More Than 3500

Christmas Seals Helped To Finance 249 Chest Clinics

Thirty-five hundred and six examinations were made at the 249 free chest clinics, which were conducted in the counties this year by the Maryland Tuberculosis Association in co-operation with the State Health Department.

According to the report of the Medical Director of the Association, more than 700 practicing physicians either attended the clinics or referred cases for diagnosis.

Of the 3506 examinations made, 661 were manifest tuberculosis cases. Four hundred and ninety active cases disclosed, and arrangements made for their proper care.

The clinics are rendering a distinct service to the residents of Maryland, who are not able to pay for a consultant's examination. Known cases of tuberculosis, suspects and contacts are examined, when referred by physicians for corroboration of diagnosis, resulting in the recommendation of many early cases for sanatorium treatment.

Since the clinics were established six years ago, more than 15,000 Marylanders have received free examinations.

Christmas Seals help finance this work. Buy them abundantly.
