Makes Life Sweeter

Too much to eat—too rich a diet—or too much smoking. Lots of things cause sour stomach, but one thing can correct it quickly. Phillips Milk of Magnesia will alkalinize the acid. Take a spoonful of this pleasant preparation, and the system is soon sweetened.

Phillips is always ready to relieve distress from over-eating; to check all acidity; or neutralize nicotine. Remember this for your own comfort; for the sake of those around you. Endorsed by physicians, but they always say *Phillips*. Don't buy something else and expect the same results!

COOLIDGE FOR SENATOR.
NEWSREEL THEATRES.
A NEW STANDARD LADY.
THE MAN WITHOUT A CAR.

Washington reports that "the Administration," which means President Hoover, is anxious to have Calvin Coolidge elected Senator from Massachusetts.

Mr. Coolidge would render distinguished service in the Senate. It would be hard for any Senator to talk more than two hours before that cold blue New England eye, and hard for any senators to spend millions recklessly.

But Senator Coolidge, like the young gentleman in "Excelsior," doesn't believe in turning back.

He and Mrs. Coolidge fixed the White House all over, cedar closets and everything. When President Hoover is through with it, Mr. Coolidge, it is said, would like to return to the "old home."

Since men have existed, their main business has been to collect information and convey it from their own minds to the minds of other men, and this process has gradually brought about civilization.

Very ancient gentlemen wrote what they had to say on bricks, in strange characters, and baked the bricks.

The Egyptians made hieroglyphics on monuments, with strange, angular men and birds and other animals. They would have been horrified by the typewriter, "so unartistic" and hasty.

The Phoenicians invented our short alphabet. The Chinese cling to their alphabet of 5,000 characters and more.

Then shortland came, and the telephone, and radio, that pours information, through the ether, into every ear.

Now comes, most interesting of all, the newsreel theatre, on Broadway, New York, where pictures, moving and talking, show the news of the day.

The Newsreel Theatre, crowded before 12 o'clock in the morning, many standing in the rear, showed recently young soldiers of Switzerland drilling with wonderful precision. Knowing that every man in Switzerland has military training, taught to command as well as to obey, you realize why other nations let the Swiss alone.

There will be such newsreel theatres in every city soon.

From hieroglyphics in stone to pictures of yesterday's events moving and talking before your eyes, is one of the longest steps that civilization and science have ever taken.

The United States Bureau of Standards says the ideal woman is now the "perfect 34," not the "perfect 36" of days before the "boyish figure."

If your bust is 36, your waist should measure 31 inches, hips 39 inches.

Thirty-four bust, 28-inch waist, 37-inch hips, is the "standard lady," according to the Bureau, which, however, knows nothing about it.

Abraham Lincoln's mother wasn't a "standard 34," nor was "Bertha. With the Big Feet," mother of Charlemagne.

For a cloak model the "perfect 34" is ideal, perhaps.

For an efficient mother, which is what counts, bigger busts, bigger waists, bigger hips

Germany's Lufthansa, ablest commercial flying organization in the world, is pushing its lines into Asia and South America.

And intelligently Germany lends Lufthansa $1,500,000 to help.

If Germany after the war, compelled every year to pay hundreds of millions in gold to the Allies, can afford $1,500,000 to support one commercial aviation undertaking, what could the rich United States do, if it had the intelligence to do it? ?

Somebody, supposed to be an expert, says the United States will manufacture in 1930 one million fewer automobiles than in 1929.

That prediction, prabably mistaken, is not creditable to the people's intelligence.

Many things a family can do without, but no family is properly organized without a good automobile.

When one is worn out it should be replaced. When a better automobile appears, and a family can afford a better one, it should be got.

Automobiles mean saving time, consequently longer real life. A man who can 'get along without an automobile" is one whose time and life are not worth much.

Bids for the presidential yacht Mayflower are all rejected, because too low, including a bid from New York. That city felt it could afford to run the Mayflower, receiving distinguished guests, getting up little water parties, etc., even if Uncle Sam could not afford it.

Mayor Walker, if elected President, is a young gentleman who would probably say, if he felt that way, "Fix me up a yacht. Mr. Hoover thought it cost too much. But I don't agree with him, and I'm President now." Stranger things have happened.

ROAD SIDE TREE LAW

The State Department of Forestry wishes to call attention to the Roadside Tree Law which provides that no trees growing within the right-of-way of any public road, or between the curb line and property line of any incorporated town should be trimmed or cut without a permit from the said Department, and that any person or persons who shall cut down, trim, or in any manner mutilate or injure any roadside tree without a permit shall be guilty of a misdemeanor and shall be punishable by a fine of not less than $5 or more than $50 for each offense.

Permits for the removal or trimming of trees are good only for the current year and expire on December 31st of said year. Anyone having a permit and not completing the work during the year should apply for a renewal of the permit. The work of all pole line companies or other corporations is supervised by three wardens with proper badges and authority. Any individual traveling the highways and seeing anyone trimming or removing trees has the right to stop and ask to see the permit for the work.

In connection with the Roadside Tree Law there is also a section providing for the elimination of signs within the right-of-way. Th cooperation of all the citizens of Maryland in helpful to keep our highways beautiful is urged.

BIG CATCH OF FISH AT WILLIS WHARF, VA.

One of the best fish catches of the season from a money point of view and the best catch ever reported for so late in the season was made at Willis Wharf, Va., by Walker Bros., and Ballard Bros., Co., Monday, December 2. That morning Walker Bros., brought in 800 barrels of fish worth more than $16,000 and Ballard Bros. Co., had 400 barrels worth more than $8,000.00.

At Chincoteague the same day J. Leonard Company caught more than 200 boxes of butter fish which were worth $3,500 and the Whealton Oyster Company caught 70 boxes, mostly trout worth $800. 100 Boxes of the Leonard catch on Monday were caught at Black Fish Hump.

Wachapreague fishermen on Monday caught about 200 barrels of fish which sold for about $5,000 of which George F. Nock had the best catch, 60 boxes of trout sold for $11 a box or about $650. The catch at Wachapreague on Tuesday was about the same as on Monday. Since Tuesday the catch has been very light at Chincoteague, Willis Wharf and Wachapreague.
