THE TRANSCRIPT

ALL EYES ARE turned on England at this time, hoping that all the nations will agree in regard to disarmament. Men with the horrors of the World's War fresh in their memory, should do all in their power to do away with such a disaster again.

We have only to look at poor China, the victim of a civil war, followed by a war with the Russians. Pestilence plague and famine are following in the wake of these; starving people calling for aid and there is none that can help them. The innocent are the ones that suffer most in time of war. Ambition and lust of possession are sometimes satisfied, but never do we find that the people, who have to fight, or send their sons to be food for cannon, profit by these wars. In history we find that long periods of peace bring prosperity and happiness to a country. It is promised, the "War shall cease in all the world:" Therefore the whole world is interested, hoping that the issue of the conference will bring about tolerance among nations, and arbitration in place of war.

The Backbone
—the Key to Health

To the degree that the vertebrae (spinal segments) of your backbone have become out of alignment, to that degree will you fail to realize the degree of health that is inherently yours. It behooves everyone who is not enjoying health to the fullest extent to have a master mechanic of the human body give you a thorough analysis of your spine. I will gladly do this for you at any time and give you my candid opinion of your condition.
