FARMERS,

LIST YOUR

Repair Needs.

It would be hard to find a farmer what at some time or another had not lost valuable time waiting for neces sary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not ordered as early as they should be.

There is no bet[illegible] time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to met every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

ANTS ARE FOOLISH—AND MEN.
A SMALL BIG ITEM.
GOING WEST.
THEY KILLED REILLY.

Flying offers a new field and a wide sky to courageous young women.

Elinor Smith, a small, young woman, with a big heart, went up in her monoplane, more than 30,000 feet. Fainting at that altitude, she fell with her plane several thousand feet. Then she came to, and landed safely, having set a new record. She went one mile higher than any woman had ever flown.

This small item of news interests managers and stockholders of railroad and steamship lines:

An airplane, driven by Diesel engine, flew from Detroit to Miami in 10 hours, 15 minutes without stopping, with Chief Engineer Willson of the Packard company and Walter Lees, pilot.

And the trip cost for fuel eight dollars and fifty cents.

When such flying is done on a big scale, airships, with power enough to defy all storms, will be able to take passengers from the Atlantic to the Pacific for five dollars each.

You will be able to travel three thousand miles for less than it costs to send your voice on the telephone wire today.

Dr. Ditmars, who studies animals from elephant and whale to ant and microbe, will broadcast, by greatly magnifying sound, noises made by ants in their colonies, working, celebrating, etc.

Strange is insect life. Among katydids there are twenty males for every female. This will interest women, for the katydid is one of the noisiest of insects. The males make all that racket.

"Ants," says Dr. Ditmars, "sometimes make fools of themselves."

Tiny mites and blind little defenceless beetles pat the ants with their feet and then the ants pat them.

Not so different from human beings that have money. Sycophants flatter them, "pat them" with compliments, then they feed the sycophants, and sometimes let them marry their daughters.

Somebody took Mrs. A. K. W. Gibbons' husband. She asked for $1,000,000 damages, the jury gave her $500,000.

Our prosperity problem would be solved if a million other wives could do as well. And many of them could congratulate themselves on making an excellent bargain.

Few second-hand husbands are worth $500,000.

Mr. J. P. Morgan's new yacht, costing $2,500,000, is the largest private craft ever built.

The world once might have envied Mr. Morgan. Now it is pleased to have him encourage the shipbuilding industry.

A modest cloak and suit buyer can travel to Europe on a boat free to anybody more comfortably than Mr. Morgan can go on his big private yacht "Corsair."

Mr. Morgan's $2,500,000 yacht is an inexpensive toy compared with such a ship as the Bremen, which would cost $50,000,000 in the United States.

We live in democratic almost "socialistic" days without realizing it.

The public park is finer than anybody's private estate. The fastest trains are for the general public, not for private cars, and the finest ships are for everybody.

The elder J. P. Morgan would be interested to hear about this handsome "Corsair," built by his son who so closely resembles him.

The original "Corsair" was a small boat by comparison, but the late J. P. Morgan enjoyed it.

On a Saturday he would go aboard, from a dock on the Manhattan side of the East River. And on Sunday morning, in the dining saloon he would play religious music, most dolefully, on a numerical machine—driven by foot-power.

Going through Colorado, New Mexico, Arizona, and on to the Pacific, for the hundredth time, is as interesting as on the first journey. You feel that you are in a big country.

Dante tried to describe heaven, but couldn't. In fact, his description is rather dull and doesn't compare with his description of hell. It is impossible to describe this Western country. The sky is different from other skies, as the ceiling of St. Peter's dome, in Rome, is different from the ceiling of a bungalow.

In the dining car, early, you look at the paper and read that, at about that hour, keepers and witnesses in San Quentin prison climbed two fights of stairs outside an old brick building, took Alphonse Reilly, twenty-two years old, from his death cell and hanged him in a room adjoining. He killed a man—the State killed him.

You see from the window of the car a high tableland, reaching for miles, without population, white clouds floating above it. And you believe that a better civilization in another age will find a way to eliminate crime, as disease germs are eliminated by sunshine.

Chiropractors

are the linemen of the human body. They locate unerringly the cause of your conditions and all by examining your backbone. The Chiropractor will gladly explain why this is so and will give you consultation and spinal analysis.

Stomach Trouble Overcome by DRECO

Dreco Particularly Recommended For Its Quick Action

Mrs. Geo. W. Price

"The Dreco treatment has overcome the obstinate conditions in my stomach which has kept me in poor health for a long time," stated Mrs. Geo. W. Price, of Star City, W. Va., in a recent statement given to one of the Dreco Experts:

"My troubles started in the stomach, from which they spread to other parts of my body causing me much misery and a tired worn out feeling all the time.

"The Dreco treatment soon corrected these troubles by it's quick action on the stomach. It is an excellent remedy and seldom fails to bring relief from stomach trouble and its associated ills."

YOU HAVE A DOCTOR'S WORD FOR THIS LAXATIVE

In 1875, an earnest young man began to practice medicine. As a family doctor, he saw the harm in harsh purgatives for constipation and began to search for something harmless to the sensitive bowels.

Out of his experience was born a famous prescription. He wrote it thousands of times. It proved an ideal laxative for old and young. As people saw how marvelously the most sluggish bowels are started and bad breath, headaches, feverishness, nausea, gas, poor appetite, and such disorders, are relieved by the prescription, it became necessary to put it up ready for use. Today, Dr. Caldwell's Syrup Pepsin, as it is called, is the world's most popular laxative. It never varies from Dr. Caldwell's original effective and harmless formula. All drugstores have it.
