Release the Pressure

A simple mechanical operation, that, and that alone will give to the imprisoned impulses free flow to the dis-eased (not ease) part of the human body and restore health to the parts. The human mechanic, the

Chiropractor

is trained by three years of intensive training to find these occluded nerves along the spinal cord, and to adjust the misaligned vertebrae back into their normal positions. This is the secret of health. If you are sick have the pressure released along the spinal column and get well and happy.

KENT COUNTY ABSORBED IN ESTATES

The recent sales of large tracts of real estate are attracting much notice from people outside of this state. Here is an editorial comment from the Wilmington Every Evening.

"Kent County, Md., is rapidly being absorbed by wealthy "outlanders" attracted by the beautiful terrain and the charming water vistas of the Chesapeake Bay and its tributaries. Chestertown announces the purchase of eight farms a day or two ago by Geo. B. Muth, of Philadelphia. They include 2,300 acres of water front on Worton Point on the big bay and the purchase price is said to be $250,000. The farms will be brought into one unit—an estate—and will be improved with a large mansion and the usual groups of buildings that are a part of such extensive holdings. The acreage exceeds that of the Catlin or Clothier estate, and makes Mr. Muth the biggest owner of land in Kent County.

"More pertinent, perhaps than the individual transfer of the properties is the fact that the farms of that charmed section of Del-Mar-Va are attracting the attention of men of wealth, who find the Chesapeake and its rivers the prettiest of water scapes in our country. There too are wild fowl in great abundance, and fish and bivalves for the shooting and catching. Down there also grows pretty nearly all of the plants of the field, vegetables of the garden and fruits of the orchard.

"Those who foresee the beauty and the possibilities of the superb tracts with their expansive water views are wise to possess them, for in a score of years these farms are likely to have given way to these large estates and all that section will be thickly dotted with splendid homes of people attracted from other States to spend part of each season in surroundings that please all the senses."

SHORE MAY SOON SEE ESTABLISHMENT OF CHAIN HOTELS

The organization of a corporation for the purpose of establishing a chain of hotels, restaurants and tea rooms on the Delmarva Peninsula, from Wilmington, Del., to Capt. Charles, Va., and embracing 14 counties in Delaware, Maryland and Virginia, has been announced by Miss Dorothy L. White, originator of the first Chantry House in Salisbury and manager of several branches recently set up in other Delmarva towns.

The organization will be known as Chantry House, Inc., it is said, and the board of directors and officers will be composed of hotel executives in New York, Philadelphia and other nearby cities, and prominent bankers and business men of the Delmarva Peninsula.

The Corporation, with capitalization of $1,000,000, holds a Delaware charter, it is said and Miss White will be president of the group and executive director of operations.

The corporation is the result of an intensive survey recently made of the entire territory involved with reference to the hotel situation and the tourist traffic in this section which for many years has had to depend a great deal on private homes.

It is believed the population of the peninsula will increase from 25 to 50 per cent. in the next five years, and a centrally managed hotel plan, with centralized buying, will, it is believed, do much to foster this natural development.

—Washington College debating team defeated University of Delaware on Wednesday evening of this week by a unanimous decision of the judges. The question was "Resolved that the United States withdraw from the Kellogg Peace Pact." The locals took the affirmative. St. Johns will debate here on the same subject April 4th.

—There are some fine pictures to be shown at the New Lyceum Theatre next week don't miss them.

PENINSULA NEWS

Approximately 3,722 carloads of strawberries moved, either by rail or truck, from the Eastern Shore during the season of 1929, according to a summary of the marketing season, complied by R. E. Keler, of the Federal and State Market News Service, received this week.

Increased freight transportation facilities for the Eastern Shore were indicated this week with the filing with the Public Service Commission by the Pennsylvania Railroad of an application asking permission to operate a fleet of trucks throughout the shore counties.

Mrs. Disharoon, of Wicomico county, mother of five, left her husband Sunday, after she had alleged, authorities learned, that he husband had failed to properly provide for her and had made life miserable, was fatally shot through the window of the home of her parents, Mr. and Mrs. James Marvel, near Double Mills, in the western part of the county, about 8.30 Tuesday night.

Sheriff Duffy and Deputy Elzy Briddell, after being called to the scene, after gaining evidence tending to fasten the crime on the husband, doubled back to the Disharoon home, on the Coulbourn Road, between there and Fruitland and about 15 miles from the Marvel home, finding the husband, shot through the breast in the vicinity of the heart, dying on a bed.

The Miracle House, Maryland's tuberculosis preventorium at Claiborne, will open for its twelfth season on Thursday, May 1, and increased provision for the care of undernourished and underweight women in industry will be an important part of the program for the coming year.

Miss Mollie Stewart, the postmistress who has served fifty-two years at Oxford, has been running down various rumors about her future. Senator Goldsborough has told her friends, she says, that an examination will be held for the office. Miss Mollie is going to take it. Her friends asked him about her reappointment, and he stated his wishes would be those of the State Central Committee. This committee is trying to dodge the issue, if all reports are true. Miss Mollie says Charles J. Butler, the chairman of the committee was seen, and he stated that he case was in the jurisdiction of Clayton Mullikin, of Trappe. When Mr. Mullikin was approached he said that he had promised four years ago to support George Dobson this time.

The oyster dredgers season has come to a close. Last Saturday was the final day for the dredgers. As a result of this the price of oysters advanced from 50 cents a bushel to 80 cents. Tongers are dropping off and preparing for the fishing season, making oysters a little scarce.

Never wait to see if a headache will "wear off." Why suffer when there's Bayer Aspirin? The many millions of men and women who use it in increasing quantities every year prove that it does relieve such pain. And as surely relieves that of neuralgia; neuritis; even rheumatism. Doctors declare *genuine* Aspirin (*with the Bayer Cross on every box and tablet*) does not affect the heart. Any drugstore.
