HEART TO HEART TALK ABOUT WATER

Just at this time we are compelled to inform the water users of the Chestertown Water Department the TRUE situation. The water is colored near white. This is because the water is low in the wells. No rain, dry, no water. We have pumped 24 hours per day for 2 weeks, 14 days, with no relief in sight.

Therefore we request every water user to conserve the water. Don't waste. Do not use the HOSE. Better let the shrubbery burn than your HOME. We hope you will assist us, because your property is a part of the Water Department.

NOW AND THEN

"Little Jimmie"

There is a child—beautiful, fair,
Like to a rose so passing sweet.
I wonder if in verse I dare
To sing of him—can I repeat
His playful moods, his joyous ways,
His interest in all outdoor sport?—
Although my verse may sound his praise
Yet seems it but a weak report.

There is a child, a boy of grace,
Winsome of body, heart and soul;
Sun-tan, air sweetness in his face,
And love of human kind his role.
My breadth of vision far doth see,
The law of reasoning proves it so,
This splendid boy one day will be
A builder great the world shall know.

There is a child—a child just four;
A child of health, of strength, of power,
Who wins the hearts of those around
All at his ease the every hour.
I write the lines upon this page,
He is my inspiration true,
Would I could clearer now engage
To prove his future fame for you.

There is a child—rosy and fair,
With eyes of lovely hazel brown.
A merry heart, free from all care,
A forehead void one single frown.
A happy boy—with personal force
That shall well profit him in age
As indirect the years shall course
And place him on Time's public stage.

ALICE MATHEWS.
Philadelphia.

It is very evident that Senator Smoot, sponsor for the new tariff, and hailing from an arid state (meaning of course scarcity of rain) is no sportsman, or he would not have put on the tariff list, fly catchers, golf tees, feathers for beds, fish hooks for pleasure and beeswax. Is it a plot to keep the public from having a good time?

A good story is told of Dr. James McCosh, for a long time, president of Princeton and an outstanding figure. One of his favorite topics was correct speaking. On one occasion he learned that a group of boys was having a feast after hours, a thing forbidden in the college, so he went to the rooms and knocked loudly at the door, "Who is that," called out the boys. "It is me," answered, Dr. McCosh. "Who is me," they asked, "Dr. McCosh" he said. "You lie, they replied; "If it was Jimmie he would say, "It is I." Dr. McCosh tiptoed away, and it was not for several years after that he told the joke upon himself.

"Again we are as Rily says. "Knee deep in June." We can well say with Lowell.

"Oh what is so rare as a day in June,
If ever come perfect days."

The Georges of the House of Hanover were never popular in England. George the first, who was a German spent nearly all his life out of England; George the second never spoke English well, and he said often, when he saw how far above him in intellect his English ministers were, "Dere are do tings I hate, boetry and bainting;" George the third, by his obstinacy lost the rich fields of America. George the fourth was a pretty poor king, vain and immoral. Caring nothing for his people, but only for his own pleasures.

"George the First was always reckoned
Vile, but viler George the Second;
And what mortal ever heard
Any good of George the Third?
When from earth the Fourth descended,
God be praised! the Georges ended."

COAST ARTILLERY REGIMENT HERE

The 69th Division, Coast Artillery, anti-aircraft, under command of Colonel James B. Parker, spent part of this week at the Chestertown Air Port on a practise trip from Aberdeen.

The regiment, composed of 260 men with 55 pieces of equipment, arrived in Chestertown Wednesday afternoon and camped at the airport.

At 7 p. m. the regimental band gave a concert in the park in Chestertown and at 8 p. m. four powerful search lights picked up a plane flying at a focus on it for about a half hour while it cruised around trying to get out of focus of the light. The range of the most powerful light was 12,000 yards.

A practice drill on two large antcraft guns was staged in the park Thursday afternoon and another band concert was given.

The regiment left for Aberdeen at 4 a. m. Friday morning.

At the conclusion of the above program, Mr. W. B. Copper, president of the institution and an officer ever since the bank was started was presented with a handsome silver pitcher from the directors as a token of their esteem and appreciation of his valuable services. The presentation address was made by the Rev. S. S. Hepbourn who has known Mr. Copper during his entire life. He spoke in a most complimentary way of his character and his accomplishments.

Mr. Huey told of the necessity of banks to the business interests of a community and how hard it would be to do business these days without aid from these financial institutions.

Dr. Titsworth spoke of the relationships between banks and educational institutions and how impossible it would be for either to succeed without the other.

Hiram S. Brown, of New York and a native of this county, came all the way from New York to attend this fortieth anniversary of the Second-Third National Bank and after relating several interesting instances of his life took for his subject the "Present Day Amusements." He is president of the Radio-Keith-Orpheum Corporation of New York City. He told of how many of the pictures are made and of the fabulous sums of money spent in taking them. He said the Radio-Weith-Orpheum Corporation is endeavoring to create an greater interest in high-tone pictures and to curb to a large extent much of the lower class pictures, and to accomplish that end are spending millions of dollars. Mr. Browns' address was most interesting and full of valuable information for though to the movie goers.

Mr. Copper's talk was a review of the Second-Third National Bank from its birth to the present time and was full of interesting facts. This address will appear in full in our issue of next week.

Thomas Hadaway, who assisted in the investigation, that she was on the second floor of their home about 7.30 a. m. when she heard a shot. She called out of the window to a neighbor, Charles Atkinson, and before she could get down stairs or Atkinson in the house, a second shot was heard.
