OLD DOCTOR'S IDEA IS BIG HELP TO ELDERLY PEOPLE

In 1885, Dr. Caldwell made a discovery for which elderly people the world over praise him today!

Years of practice convinced him that many people were endangering their health by a careless choice of laxatives. So he began a search for a harmless prescription which would be thoroughly effective, yet would neither gripe nor form any habit. At last he found it.

Over and over he wrote it, when he found people bilious, headachy, out of sorts, weak or feverish; with coated tongue, bad breath, no appetite or energy. It relieved the most obstinate cases, and yet was gentle with women, children and elderly people.

Today, this same famous, effective prescription, known as Dr. Caldwell's Syrup Pepsin, is the world's most popular laxative. It may be obtained from any drugstore.

Railroads' Police Forces

The Rock Island Magazine says that practically every railroad of any consequence maintains a special service, or police department, for the purpose of protecting its properties and its patrons against thefts, and the traveling public against the operations of pickpockets, confidence men, gamblers and other species of crooks. The larger trunk lines employ from 100 to 300 men in this department at an approximate cost of from $300,000 to $500,000 per year.
