TO THE DEMOCRATIC VOTERS OF KENT COUNTY

My son-in-law, Robert E. Lee, has announced his candidacy for Sheriff of Kent County and in order to clear up a misunderstanding of my position, I wish to state that I will remove from the jail December 1st, 1930, and will not be a Deputy Sheriff. Robert E. Lee if nominated and elected will be Sheriff and I shall have nothing to do with the office.

J. THOMAS HADAWAY, Sheriff.

HOME DEMONSTRATION NOTES

4-H CLUB GIRLS CAN

Margaret and Arabel Robinson and Miriam Blackiston of the Sassafras Girls Club, and Emily Sutton of the Flatland Girls' Club canned this week to exhibit at Timonium Fair.

The exhibits consisted of fruits, vegetables and meats, and were done by the Cold Pack Method.

Vegetables are rather scarce, but it saves time and money to have the pantry shelves filled with canned goods in the winter.

HOME NURSING COURSE
FAIRLEE 4-H CLUB GIRLS

The Fairlee 4-H Club Girls planned their home nursing course on Monday, August 25th, under the supervision of Miss Margaret White, County Health Nurse.

The first lesson will be given on September 15th, (fifteenth) at the Fairlee school house, after school. The course will last fifteen weeks, with a lesson every Monday and Thursday.

Any girls desirng to take ths course, see Miss Louise Travers, Elizabeth Elliott or Virginia Miller and plan to be at the first meeting.

FLATLAND WOMEN'S CLUB

The regular meeting of the Flatland Women's Club will be held on Thursday, September 4th, at 2 p. m. at Mrs. Roland Kernan's Meal planning is the demonstration.

LOCAL LEADER MEETING

There was a meeting for local leaders for 4-H Girls' Clubs at the Court House at 2 p. m. on Friday, September 5th.

September 8th—Cliff Girls Club, Monday afternoon after school at school house. Mrs. Nelson Watson, local leader.

September 9th—Betterton Woman's Club at school house at 2 p .m., Meal planning. Mrs. Eadie Wheeler, President.

September 10th—Galena Women's Club at school house at 2 p. m. Meal planning.

September 11th—Rock Hall Women's Club at Star Life Insurance Office, all day, meeting 11 a. m. to 3 p. m. Meal Planning.

September 12th—Flatland Women's Club entertain Boys an dGirls 4-H Club at Mrs. L. A. Sutton's 8 p. m.

CANOE TO RACE BUGEYE

A race between two types of typical Chesapeake sailing craft of the old days has been planned for Saturday, September 13th at the Severn River Regatta, when the log canoe Mary Rider with race the bugeye Nettie B. Greenwell for a cash prize of $200. The race will be sailed over a 10 1-2 triangular course at the mouth of the Severn River.

The Mary Rider is one of the smallest sailing canoes on the bay, being 27 feet long, but has won the Governor's cup for that type of boat three times at the Miles River Regatta.

The Nettie B. Greenwell, a Chesapeake Bay bugeye easily walked away with the honors at the workboat races in June winning over the bugeye's and skipjacks.

Arrangements have been made so that the Majic, a much larger canoe, will take the place of the Mary Rider if the wind is too strong for the little 27 footer.

O.C. BLADES ACTING PRINCIPAL

Announcement was made yesterday at the office of the Superintendent of Schools for Kent County that Mr. Owen C. Blades will occupy the position of acting principal of the Chestertown High School when school opens Monday.

The appointment of Mr. W. J. Stenger as principal last June by the School Board was not confirmed by the County Superintendent which leaves this school without a pricipal.

The appointment of Mr. Stenger by the School Board, following a study of his eligibility and quallifications was well received by aa large majority of the patrons of the school and the tax payers of Chestertown.

—Mr. Frank B. Hines, Jr., who was operated on for appendicitis at Easton hospital on Monday, is getting along nicely. This operation will keep young Hines off the foot-ball squad at the University of Maryland this fall. He made good on the Freshman team last fall and is considered good material for the varsity squad.

LEGAL HOLIDAY

FRIDAY, SEPTEMBER 12TH being DEFENDERS DAY and a legal holiday the Third National Bank will be closed that day.

All notes maturing on September 12 may be attended to the day following.

W. R. HUEY, Cashier.

NOW AND THEN

A PRAYER FOR RAIN

BY ALICE MATHEWS

Dear Lord. to Thee we come again—
And this time 'tis a prayer for rain.
For through our garden sorrow spreads
And drooping low all flower heads
Seem almost dying to command
Refreshing rain from Your High Hand:
Our trees, our vegetables and grass
Are scorched by heat, alas, alas,
And August out look seems so bare
Of fragrant freshness rich and fair.

Dear Lord, from Whom all blessings flow
Relief from heat on us bestow
And still for us this suffering strain
Dear Father send I pray You rain!
Broadcast this day is public woe
Drought stricken is our land we know.
Catastrophe we would not view
And so we pray this hour to You.

Dear Lord, O danger stressed is grain
In mercy haste and send us rain.
We're sweltering truly day by day,
For cooling rain we earnest pray.
From castle ,cottage, tent, refrain
Goes up this hour again, again
That blessed rain, a mighty yield
May deluge every furrowed field.

Then lastly Lord our thanks we send
For such a Master, and a Friend—
Who even now doth hear our prayer
And understands our charge of care.
I know, in truth, there soon shall be
A cooling rain, happily we'll see.
For God is good, honored is prayer
It carries answer, unaware.

September 1, Labor Day brought in the beginning of Autumn though summer is still lingering her lap. In all the history of the weather bureau it has been the hottest and dryest season. Million of dollars have been lost by the failure of crops. Let us hope that this calamity of the farmers may result in a real farm relief, that the heads in Washington, may realize that something must be done and that the trusts may not profit by the need of the consumer.

How things do change

A page advertisement in a German magazine bears across the top in large type these words, "Visit Belgium." Below there are pictures of famous Belgian cathedralls, museums, art palaces, and the international exposition at Antwerp celebrating 100 years of Belgium's independence. Another line in large type reads, "Excellent travel connections with all of Germany—entry free." And only sixteen years ago the Germans marched into little Belgium, killing and plundering as they went. Today, Belgium is inviting Germans into its country.

The gas man had just finished a very effective speech on the great benefits that gas has brought to mankind and ended it by saying "Honor the Light Brigade, but a voice in the audience spoiled the effect by adding "Oh, what a charge they made!"

After seventeen years' work on restoration, the internationally famous St. Paul's Cathedral of London is again open. Unless excavations are made in the immediate vicinity of the cathedral, it is the opinion of engineers that the present ,work of restoration will insure safety for centuries to come. The restoration work has cost approximately $2,000,000, all of it in the nature of subscriptions, and some of it from American sources.

New Yorker (incredulously)—And you mean to say that in California you have 365 days of sunshine a year?

Man from Los Angeles—Exactly so, sir, and that's a mighty conservative estimate.

"Blessed be he that overcometh" is told us in the bible and we are apt to admire those who. though hampered by physical handicaps, have learned to use them to their advantage. We know of a young girl born without hands who became a musician by playing with her toes. Today we read:

Born without hands or arms, Joan Whisnant, aged 6, of Sand Springs, Okla., is able to do with her feet what other children do with their hands. She can write legibly. eat from her own plate with her own knife and fork, drink from her own cup or glass, turn the pages of her own books, cut out paper dolls, play with her toys, wash dishes, comb her hair and embroider very nicely with a needle and thread.

"Oysters! Oysters! Oysters!" we heard the sound this morning. What does it bring to our thoughts? School, storing coal, pickles and catsup and a multitude of duties which have been laid aside for the summer season. So now it is time to say, "Goodby summer, goodby."

Subscription to the Transcript $1.50 per annum.

HEALTH NOTES.

IMPORTANCE OF BOILING MILK FOR INFANTS

The statistical returns from the counties of the State for July indicate a marked increase in the number of infant deaths under one year, 167 as compared to 73 in June and 112 in July, 1929.

68 of these deaths of last month were attributed to diarrhoeal diseases.

There is reason to believe that many of these deaths and many more cases of illness from the same conditions could have been prevented if the milk used in feeding infants had been boiled for at least three minutes before feeding the baby.

It is urgently advised that this practice be followed.

There has been no corrsponding increase in the number of deaths of infants in July in Baltimore City where all the milk is pasteurized or boiled before using.

A VEST POCKET ESSAY ON DIETING

D'ya ever go on a diet? It is undoubtedly a more intriguing pastime than even thumbnail golf. That is, for the dietician. Give one of these stomach mechanics the slightest excuse and he will take the joy out of eating forever after. If the circumference of the waist line of a happy-go-lucky fellow becomes so large he begins to look like a barrel, then he must go on a limited diet. If a person is so thin that his protruding bones look like a cobble stone pavement, then again it is determined that only a limited diet will make a Sampson of him. If it is discovered that the blood pressure of an unsuspecting mortal is reaching dizzy heights then the calories are doled out as carefully as a miser lets go of his gold. Or, on the other hand, if it is found that the blood pressure of a luckless guy is so low that it resembles the stock market after a panic then again it is decreed that nothing but taking the pleasure out of eating will make him a candidate for health honors. It is apparent that dieting menus are framed with almost diabolical intent. First, an effort is made to find out what kind of food the patient enjoys and care is used to see there is nothing he likes on the list. After a menu is made of all the edibles that any self-respecting stomach would rebel at, the menus for three daily banquets are accordingly framed from it. Once there was a member of the profession of breadbasket teasers who frequently forgot to list prunes on the a la carte bill of fare provided for unfortunate dieters, but he was sent to a hospital for mental observation and never heard of again.

There is one advantage in being a hog and that is these animals have sense enough, if given an opportunity, to balance their own ration without hiring some one to do it for them. If fed on the self-serve. free choice plan, that is with the various feeds put in a series of self-feeders, hogs have made faster and cheaper gains than when efforts were made to provide a balanced ration for them. But right is the cause of their downfall. It is very seldom that they are really permitted to choose their own feed and too often their owner appears to think that hogs were primarily intended as scavengers. In Maryland, where practically all outbreaks of hog cholera are investigated, it has been found that approximately 50 per cent. of all new outbreaks of the disease are caused, directly or in directly, by feeding garbage, table scraps, kitchen swill, etc., which contained infected pork or the water in which such pork has been washed. The season of the year is fast approaching when a great many meat houses will be as bare as pastures after this long drought. This will necessitate the purchase of meat, which in most instances will be pork, until killing time rolls around. When nine out of ten new outbreaks of cholera are caused by feeding bones. rinds or scraps of pork, it is plain that a little care on that score will prevent much of the disease this fall. It costs absolutely nothing to take such precautions but, if cholera strikes a man's herd, it will cost a pretty penny to fight the disease, and it is now evident that dollars for that purpose will not be very plentiful this fall.

NAMED ON DROUTH COMMITTEE

Senator S. Scott Beck, president of the Chestertown Bank of Maryland and Fred G. Usilton, president of the Kent County Savings Bank, have been named by Governor Ritchie to the committee of bankers and farmers to suggest relief masures for Maryland farmers who have suffered from the serious drought.

L. A. Sutton, E. Thomas Massey and County Agent J. D. McVean were also named to the committee from Kent county.

—The New Lyceum Theatre add is on page four of this issue.

GOVERNOR RITCHIE AT OCEAN CITY

Governor Albert C. Ritchie will be at Ocean City this week-end and will meet and talk with those who go to the beach at this time. He will be glad to see all those who wish to call on him. The Governor's many friends on the Eastern Shore are glad he is going to honor this section with his presence and no doubt there will be a large crowd gather at this popular Eastern Shore resort to welcome him there.

WILL OF VAN LEAR BLACK

The will of Van Lear Black who was drowned from his Yacht off the coast of New Jersey is interesting in many particulars.

His estate is estimated at $3.270,000 of which only $20,000 represents real estate.

He leaves his interest in the Baltimore Sun to his brother, Harry C. Black, whom he appointed his trustee, In conclusion the will says:

"I desire to be buried whereever I may happen to die, if that be elsewhere than in the United States. and if I die in the U. S. then that I may be buried at sea and that in any event there shall be no outward expression of mourning for me."

MINATURE GOLF COURSES HERE

With one miniature golf course practically finished and plans being made for three other courses in Chestertown. it looks as if miniature golf fans will have plenty of opportunity for amusement.

A course is nearing completion on North High Street and arrangements are being made for the construction of a course in the Voshel Hotel yard and a course on the lot of A. S. Turner & Sons on Maple Ave.

Chestertown Boy Builds Course

Robert D. Moore. Jr., is completing a nine hole course in the back yard of his father's home on High street. Robert and his school chums have been working on this course for several weeks and it includes sand traps, bunkers, water hazards, rough, shoots, etc.

ACCEPTS HIGH SCHOOL POSITION

Miss Geraldine Fietz, of Thurmont, Md., a graduate of Washington College in the Class of 1929, has been named teacher in the Commercial department of the Chestertown High School by the county Board of Education. Miss Fietz takes the place of H. B. Bauernfiend. who was appointed to the position two weeks ago but failed to execute contract.

Miss Grace Strickland, secretary to Superintendent L. C. Robinson, has been granted a year's leave of absence to pursue a course of study at Drexel Institute. Miss Catherine Smith, daughter of Dr. and Mrs. Frank W. Smith, of Fairlee, was named to fill the position during the absence of Miss Strickland.

The Board of Education voted to pass an order for liability insurance in the event of accidents to school children being transported in buses.

BOBBY WINS AGAIN

There are few names among the old town's inhabitants whose name is oftener in the paper than "Bobby" the twenty-one year old hunter, owned by Mr. Wilbur Ross Hubbard. He is winner of prizes at every horse show in which he takes part. Having carried off honors in the Kent county horse show he won three prizes in the Queen Anne's show.

He was the winner in the Open Hunter class, took second in the local hunter class. and paired with Van Hill Lodge won second honors in the pairs of hunters class.

Bobby had a birthday party given him on his twenty-first birthday by his appreciative master. at which many of his friends were invited.

Other winners at the Queen Anne's Horse Show were:

May. owned by Walter Parsons, of Chestertown, was first in the touch and out and Pet, also owned by Mr. Parsons was third in the same event.

ADVOCATES SELLING TURKEY CUTS

As a help in the solution for marketing turkeys, Mrs. H. M. Baker advocates the retailing of turkeys by cuts similar to the retailing of other meats instead of the present system of selling the whole bird.

She points out that a large turkey weighs more than some spring lambs and small pigs that are slaughtered and sold in parts.

The selling of one or two pounds of the various cuts from a twenty-pound turkey would attract the purchase of this favorite bird by small families throughout the year who live in apartments and are not able to cook or consume a whole bird.

CHURCH NOTES

Kennedyville M. P. Church

All services resumed next Lords Day. Sunday School 10 a. m. Men's Bible Class in School Auditorium same hour. Morning worship at eleven o'clock. Christian Endeavor Society at 7.15 p. m. —The Women's Foreign Missionary Society of the Meddiletown District will be entertained by the Still Pond Auxiliary, Friday, September 12. The morning session will begin at 10.30. Mrs. Foster Davis, of Baltimore, will be the speaker of the afternoon.

DROWNED AT TOLCHESTER

The body of Mr. Wm. Winkleman, of Baltimore, clad in a bathing suit was found on th shore of Mr. Page Gale on Monday following a search which was started when it was found that he had disappeared from a row boat off shore.

Mr. Winkleman rented a row boat at Tolchester on Sunday and rowed down the shore about a mile to go fishing and tied to a fishing stake off shore. He had apparently changed his clothes to go bathing in the shallow water, not being able to swim, and stepped into a hole.

The boat was found tied to a stake Monday morning and in it were found his clothing including an automobile drivers license through which identification was made.

Mr. Winkleman was secrtary of a fertilizer firm in Baltimore and is survived by a widow and three children.

NEWSPAPERS SUE FOR LIBEL

Suits for damages totaling $90,000 for the circulation of alleged libelous matter were filed Monday in the Circuit Court for Queen Anne's County against Christopher S. Thomas J. Grant Yates, Political Agent, and individual candidates of the Peoples Democratic Organization.

The suits were filed by the Centreville Record Publishing Company and the Centreville Observer Company and the Centreville Observer Publishing Company and followed the circulation by mail of alleged libelous matter Monday morning. Richard T. Earle, of Centreville, and W. Mason Shehan, of Easton, are representing the plaintiffs.

The damage suits are based on the statement, said to be published by authority of J. Grant Yates, political agent, that the Record and the Observer had each charged Queen Anne's county $500 for printing the county expenses and "that the Record or Observer will sell to any individual for advertising purposes the same page for fifty dollars."

The fight between the two factions of the Democratic party in Queen Anne's county is apparently very bitter and considerable activity is being shown in preparation for the Democratic primaries on Tuesday next.

YACHT BEACHED

A large yacht while passing through the Kent Island Narrows this week is said to have struck a stone pile and started a leak. The captain beached her near Love Point. Those aboard the launch at the time were the captain, his wife and a small child. We understand in dredging these narrows a quantity of large stones were removed from the bottom and placed along the edge of the channel in a dangerous position to navigation, thus causing the accident to this launch.

LOCAL GOLFERS AT REHOBOTH TODAY

The golf team of the Chester River Yacht and Country Club will journey to Rehoboth today to meet the Rehoboth team in the final match of the Peninsula Golf League season.

At the present time Salisbury is one game ahead of the locals and a win at Rehoboth will tie Salisbury and Chestertown. This will mean a playoff on a neutral course for the league championship.

PRODUCTS SHOW POSTPONED

The Kent County Products show, scheduled for September has been indefinitely postponed due to the drouth and lack of interest shown by the various organizations of the county.

The products show, which was being sponsored by County Agent J. D. McVean and the Kent County Chamber of Commerce, was to be a one day exhibit of Kent county agricultural and industrial products.

WEDDING NOTES

It has just been announced that Miss Charlotte A. Allender, daughter of Mr. and Mrs. Paul Allender, of 1821 Linden Avenue, Baltimore, and Mr. Robert R. Hatcherson were married on May 31st, 1930, by the Rev. George White Dawson at the Methodist Episcopal parsonage at Centreville, Maryland. The bridal couple were accompanied by Mr. and Mrs. Stewart Edwards, Jr., who themselves were married about a year before and the announcement withheld until a few weeks ago. Mr. Hatcherson is a son of Mr. and Mrs. George Hatcherson, living near Chestertown, and an employee of the Texaco Company in Chestertown. At present the young couple are guests of the bride's grandparents, Mr. and Mrs. J. B. Jacquette in Rock Hall where she has long been popular among the young people.
