Dreco Cured All Her Ailments

Wife of a Prominent Farmer of Ridgely, W. Va., Tells of Her Experience With Dreco

Mrs. E. K. Blauch

"For those that are suffering like I did," declared Mrs. E. K. Blauch, of Ridgely, W.Va., to one of the Dreco Experts, "I want to tell of the Dreco treatments.

"I had dizzy spells, terrible headaches and I was always tired and in such a run-down condition that I was unable to do my housework.

"After taking the Dreco treatments I am cured of all these ailments, and now I am on the road to health. It has invigorated my system, and overcome that tired, weary, lazy feeling."

World Communication Nears Ultimate Goal

Oversea radio telephone service was extended north, south, east and west, to more remote countries during 1930, with the result that ninety-one per cent of the world's telephones can now be connected with any telephone in the Bell System, officials say.

During the past year telephone communication was extended to Italy, Finland, Poland and Lithuania in Europe, Argentina, Chile and Uruguay, South America and Australia, making thirty-one countries between which conversations may be carried on.

Cloud-Hidden Air Pilots Converse With Field Men

This pilot, flying in a closed passenger plane, is wearing a Western Electric radio-phonette receiver and is using a "muzzle mike" transmitter which cuts out the motor's roar and other extraneous sounds.

Aviation travel in the United States is increasing rapidly, the Air Commerce Bulletin of the Department of Commerce for December shows. In six months more than 1,133,157 people rode as passengers in airplanes. This was four times as many passengers as were carried in planes during a similar period in 1929. In the six months of 1930, scheduled airlines carried 3,761,376 pounds of mail and 1,245,477 pounds of express.

This increase in aviation passenger travel was brought about by safer methods of operation. Nothing has done more to bring this condition about than effective communication, aviation officials say. Leading air plane transportation lines have now equipped their planes with two-way telephone apparatus so that the pilots are constantly in touch with dispatchers at landing fields.

Planes today, according to the Western Electric Company, are winging their way over the country side, talking from the clouds and getting their answers from the ground. Unknown to passengers and unheard by them, crisp business-like conversations are going on up in front where the pilot holds the stick, conversations that spell out the welfare and security of that precious human cargo.

All Maryland Territory

The original District of Columbia, which was ten miles square, included a tract south of the Potomac ceded by Virginia. No public buildings were erected on that tract and in 1846, upon petition of the inhabitants, it was receded by congress to the parent state. The present District of Columbia, which comprises an area of about 70 square miles, was carved entirely out of Maryland territory.—Pathfinder Magazine.

No Cheers for Her

A wife and mother, engaged in any sort of business, industry or profession is neither envied nor pitied. She is taken for granted.—Woman's Home Companion.

Promise of Better Fare

Mother—Bobby, aren't you going to eat your lunch?

Bobby—You said we were going over to Grandmother's this afternoon.—Chicago Daily News.

Lost and Found

A man driving his car remarked to his wife, "One of my cylinders is missing."

"Well," she replied, "the car has been in the garage all day, with the door locked."

Exception

"This steak is tough, and it's not the first time that's happened here, either. Somebody must complain here every day of the week!"

"No, sir; we are closed Sundays."

PA DIDN'T LIKE IT

A minister was seated in his study in a small town when he heard a small boy crying in the street. He went out and found a boy standing alongside a hay wagon from which the load had upset. The hay was lying in a heap in the street.

"Don't cry, my lad," said the minister. "We'll see that your hay is all picked up. Have you had your dinner? No? Well, come inside and have some with me."

"Pa won't like it," said the boy.

"Oh, that will be all right," said the minister. "Your father will not mind if you have dinner with me. Come in."

Again the boy said, "Pa won't like it," but the minister insisted, so they went in and ate dinner.

"Have another piece of pie," said the minister, but the boy only replied, as before, "Pa won't like it."

Finally the minister took him out again, and said, "Now we'll go about getting the hay back on the wagon. I'll see that no harm comes to the hay, while you go and tell your pa to come here."

"Po's under the hay," said the boy.

PAINFUL CORNS

Loosen—Lift Out.

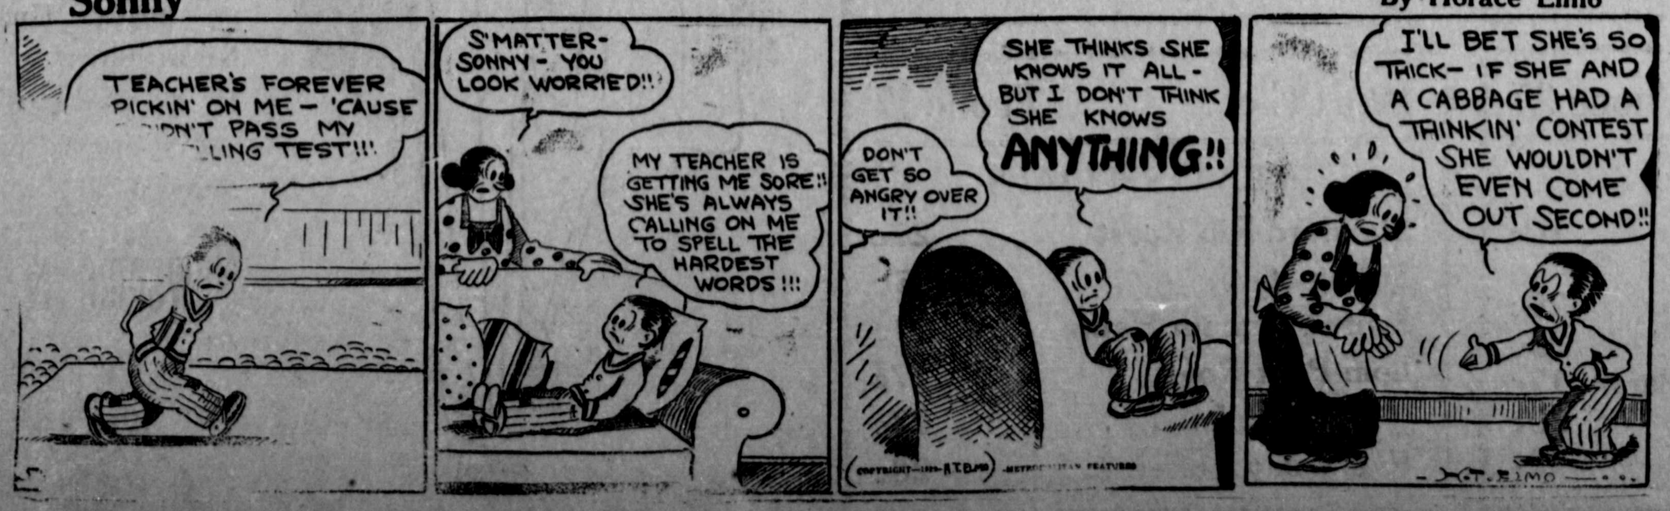

A little known Japanese herb, the discovery of an eminent German scientist (Dr. Stickel) instantly soothes the corn, callous or wart then loosens it so that shortly you can lift it right out. This new discovery called "Corn Fly" excites the white blood corpuscles to action and granulates the corn at its root so that it drops out and leaves no trace of scar or soreness.

You will also find "Corn Fly Foot Bath Powder" a boon for sore, tired or perspiring feet.

"Corn Fly" for corns, 35c, "Corn Fly Foot Bath Powder" 25c, and "Corn Fly Bunion Remedy" 50c, (all three—$1.10 value—for $1.00), are sold under a positive money-back guarantee at
