APPLY FOR SEED LOANS

FOUR LOANS APPLIED FOR FROM KENT COUNTY

The Kent Drought Committee, handling the blanks pertaining to the procuring of Federal Loans for seed, fertilizer, spraying materials, feed for work stock, or gas and oil for tractors, reports considerable interest in the loans. Four applications for loans have been forwarded to the Seed Loan Office. Others plan to apply for loans in the very near future. Twenty people have inquired regarding the loans. There seems to be considerable misapprehension regarding the "red tape" governing the procuring of loans. The Committee suggests that there is no need to hesitate. The Secretary of the Committee (County Aent McVean) is ready at all times to explain the blanks and to fill out the papers ready for the signature of the borrower. The only expense to the applicant for a loan is one Notary Public fee for executing one of the blanks. Two facts should be clear regarding eligibility for loans. Only those who can get no further loans from their bank or other source of credit are eligible. First leins on 1931 crops are required and thus if leins have already been given the holder of such leins must sign a waiver giving the Government the first lein to the extent of the loan (usually a small proportion of the value of the crop.) Loans will not be granted to those not farming in 1930 and in distress as a result of crop failure. Loans (in general) will not be granted for acreage increases over those of 1930. Exceptions would be in the case of tenants now on larger farms than accupied last year with acreages for 1931 not in excess of that of 1930 on that farm.

If you need a loan apply for it. Don't trust to hear say get facts first hand.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! As harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant — as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.
