THE TRANSCRIPT

IT IS WORTHY of note, that in the late Red Cross drive in this county, which went over the amount asked for by $112.57 that $75.00 of the sum of $1512.57 raised, was contributed by the school children of Kent county. This sum of $75.00 raised by the school children is to be used for the relief of children in the drouth stricken aries of this country. The amount asked for in Kent county was $1,400.00, the amount raised was $1512.57. Kent was the first county in the State to raise her quota.

THE NEW CHARTER Bill for Chestertown is now before the Maryland Senate for the second reading. The Charter will go through without a referendum. There will be a referendum, as to whether the Water-Board will be controlled by the City Council, or whether it will continue as it does now. The reason for the one referendum and not for the other is easy to explain.

The town council called a meeting for all the citizens of the town. Notice of this meeting was published in all the town papers. At this gathering a commitee was appointed to go to Baltimore and have Dr. Flack, who is an authority on writing charters, write one for Chestertown. This committee was to bring this Charter back and another public meeting was to be held for the discussion of it.

The second meeting was called and notice of it was published in the newspapers. At this meeting the new Charter was read and each point was thoroughly discussed.

Some parts of the Charter were opposed and changes were made in them. The whole of it was discussed, and when a vote was called for the citizens of the town, to ask Senator Beck to put the bill through the Maryland Legislature without a referendum, the vote was unanimous for it.

Later the charter committee suggested a seperate bill for the Water Board clause as there was considerable opposition to it. The cost of this referendum would be negligable but a referendum for the whole Charter would cost several hundred dollars.

THE ONLY NATIONAL BANK IN KENT COUNTY

Service Never Gets to be an "Old Story" With Us

We have often been asked whether banking, with its fixed rules, regular routine, and sameness of detail every day, does not become monotonous to us, and therefore, make it hard for us to serve with enthusiasm. Our answer to this is, that the real test of a bank director, officer or of a bank employee lies in his ability to keep a fresh "opening day" attitude toward his work.

Where there is so much human interest, as in banking, we do not see how there can be any lack of interest. So far as the officers of this bank are concerned, if we ever find that we have reached a point where we have lost interest in meeting and serving the home folks and old and new acquaintances who come in every day, we shall know that we are collectively in need of a vacation, a doctor—or both.

We are sincere in saying that we like banking. We like being called upon for service. It is not monotonous to us. It is not a "bother" to talk over with you at any time any matters that you may wish to talk over with us. If you came in yesterday, come in again tomorrow. We are always glad to see you. We enjoy the privilege of serving you—for it is a privilege—and we hope that we may continue to do it—just a little better each day and each month.

Why Doctors recommend Milk of Magnesia for invalids

Confined to the house for long periods, deprived of the necessary exercise, invalids are very likely to become constipated unless extra precautions are taken. Realizing this, doctors stress the importance of a mild, effective laxative that will keep the bowels functioning normally without weakening the system of the patient. Ask your doctor about Rexall Milk of Magnesia. He knows that this pleasant antacid and laxative meets the highest standards of purity and strength. Sold only at Rexall Drug Stores.
