THE TRANSCRIPT

THE RECOMMENDATION BY a special sub committee to the Maryland Legislature that a thorough study be made by the State Roads Commission of the proposed Chesapeake Bay bridge is the soundest Legislative action that has been taken since the bridge has been considered as a state project. The State Roads Commission is in a position to make a thorough study of traffic conditions estimates of construction costs and the most suitable location. We believe that a report from this Commission, will be made without favor to a particular county or individual and the engineering force of this body is capable of bringing in a report that should definitely determine as to the justificaton, from an engineering standpoint, of building a bridge connecting the two shores. This report, together with the social and business advantages of connecting the two shores should definitely solve the much talked of bridge question.

Dear Editors:

Once again, I would like to have you publish a letter on the school situation in Kent County.

Last week a meeting was called for the discussion of improving the High School building in Chestertown. From this meeting, I think I can see what some people are trying to put over on Kent County. Recommendations, I understand were made by some, to ask for a bond issue of $250,000 for a new building.

I think the people that want this amount, intend to have one high school in Kent County. Well, maybe such a bond issue would pass, but I do not think so.

We have enough school buildings in Kent County, to house all the pupils comfortably, and it is not necessary to carry them all to Chestertown.

I also think it would be a good plan to drop the consolidation of the small schools, planned for this year. I suppose if this consolidation went through, some people would be wanting a lot of new elementary schools.

This has been a very bad farming year and it is no time to talk about raising taxes.

Taxpayer.

Dear Editor:

The following taken from the Every Evening of March 10, is part of a letter of Mr. P. S. Du Pont to the Delaware State Board of Education regarding the building of schools.

When Kent County builds new schools this sound advce should be taken to heart.

"First, the architect secured to do the work should be well trained in school construction. The details of school work are too important to entrust to even an architect competent in house construction.

"Second, great care should be taken in the selection of men to supervise and check up the work of the contractors. The latter have opporunity and frequently, through making extremely low bids, have great urge to "cut corners." They cannot be too carefully watched in the interest of the State. It would be far better if the law did not oblige awarding of contracts to the lowest bidder. I know of your bitter experiences in this regard.

"Third, the State Board of Education should turn a deaf ear to economies in construction recommended from a first cost point of view without giving weight to the true economy that comes about only through building well to avoid heavy depreciation and repair charges in the future. The dollars and cents outlay involved does not represent the total loss. A building badly constructed can never be made right. It remains an eyesore and a bad example throughout its lifetime."

Sincerely,
Very Interested.

THE ONLY NATIONAL BANK IN KENT COUNTY

Service Never Gets to be an "Old Story" With Us

We have often been asked whether banking, with its fixed rules, regular routine, and sameness of detail every day, does not become monotonous to us, and therefore, make it hard for us to serve with enthusiasm. Our answer to this is, that the real test of a bank director, officer or of a bank employee lies in his ability to keep a fresh "opening day" attitude toward his work.

Where there is so much human interest, as in banking, we do not see how there can be any lack of interest. So far as the officers of this bank are concerned, if we ever find that we have reached a point where we have lost interest in meeting and serving the home folks and old and new acquaintances who come in every day, we shall know that we are collectively in need of a vacation, a doctor—or both.

We are sincere in saying that we like banking. We like being called upon for service. It is not monotonous to us. It is not a "bother" to talk over with you at anytime any matters that you may wish to talk over with us. If you came in yesterday, come in again tomorrow. We are always glad to see you. We enjoy the privilege of serving you—for it is a privilege—and we hope that we may continue to do it—just a little better each day and each month.
