A BIT SARCASTIC WE THINK

(COMMUNICATED)

Dear Editor:

I have been watching the school situation in Kent County with much interest, and have been especially interested in the Chestertown High School.

From observation, the matter seems to hinge around these two points:

1. Chestertown High School, built to care for approximately 150 pupils, is trying to accomodate 300. In so doing it is only by super-human effort that the teachers can keep the place functioning in a mediocre fashion, to say nothing of the menace to health and safety. Classrooms have wallboard partitions in them with the quota for a full room in each half. To get to one half of a room one must pass through the other half. The same toilet facilities must care for the abnormal enrollment. Conditions are next to impossible.

2. The County Commissioners and a portion of the County School Board feel it unwise to attempt to raise money at this time to remedy conditions by making the school building larger.

Why should we spend any money anyhow? There are at least three ways of remedying the situation and saving the taxpayers money at the same time.

1. Throw off the chaff, and permit those coming to high school, to study and learn, to remain. I am sure half would leave, were this done.

2. Eliminate grades ten and eleven. Put grade seven in the high school building and offer only Junior High School work in the grades 7, 8, 9.

3. Cut out high school entirely. (Many of our smartest men never went to high school.) If the children want high school work let their parents pay to send them to prep school. Why should the Taxpayers money be wasted for this.

Trusting that I have offered a real solution, I am,

Very truly yours,
Self Made Man.

THE ONLY NATIONAL BANK IN KENT COUNTY

Service Never Gets to be an "Old Story" With Us

We have often been asked whether banking, with its fixed rules, regular routine, and sameness of detail every day, does not become monotonous to us, and therefore, make it hard for us to serve with enthusiasm. Our answer to this is, that the real test of a bank director, officer or of a bank employee lies in his ability to keep a fresh "opening day" attitude toward his work.

Where there is so much human interest, as in banking, we do not see how there can be any lack of interest. So far as the officers of this bank are concerned, if we ever find that we have reached a point where we have lost interest in meeting and serving the home folks and old and new acquaintances who come in every day, we shall know that we are collectively in need of a vacation, a doctor—or both.

We are sincere in saying that we like banking. We like being called upon for service. It is not monotonous to us. It is not a "bother" to talk over with you at any time any matters that you may wish to talk over with us. If you came in yesterday, come in again tomorrow. We are always glad to see you. We enjoy the privilege of serving you—for it is a privilege—and we hope that we may continue to do it—just a little better each day and each month.
