CHESAPEAKE BAY LEAGUE

The Rock Hall-Church Hill game last Saturday ended in the middle of the ninth inning when Umpire Horsey awarded the contest to Church Hill following a protest by Rock Hall fans as to the umpires decision. With the Rock Hall team at bat, one out and Joe Williams on 2nd base, score 18 to 17, Williams attempted to steal to third. Umpire Horsey called him out but his decision did not meet the approval of the Rock Hall fans and they swarmed on the field protesting the decision. Umpire Horsey allowed ten minutes for the fans to clear the field and at the end of that time, following League custome, called the game off in favor of Church Hill 9 to 0. The line up and summary up to the time the game was called off, was as follows:

SHORT STORY

A pretty young lady was being shown over a battleship by a junior officer. He was delighted with her. He thought he had never known such wit, such charm, and such intelligence embodied in one girl. And then she said, "I suppose when the tide rises you close the portholes?"

Too Much ACID

MANY people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief.

Get genuine Phillips Milk of Magnesia, the kind that physicians have prescribed for over 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

There's Power Aplenty *in the* McCormick-Deering 10-20

THE McCormick-Deering 10-20 Tractor provides power in abundance for general farm work. It pulls two plows under all reasonable conditions and travels at good speed while plowing deep. For its size, the 10-20 has a great capacity for work—you can apply its power three ways—by drawbar, belt, or power take-off—to operate a variety of equipment throughout the year.

The surprising strength of the 10-20 is due to the rigid one-piece main frame, in and on which are mounted the 4-cylinder engine, clutch, and transmission and differential assemblies. All important wearing parts are completely enclosed, protected from dust and grit, and run in a bath of oil. Handholes provide quick accessibility to all enclosed parts.

Ask us how this remarkable, sturdy, powerful tractor can make power farming a reality on the moderate-size farm. We also have the economical McCormick-Deering 15-30 and the all-purpose Farmall.

*Consider your Adam's Apple!!**

Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

Now! Please!—Actually put your finger on your Adam's Apple. Touch it—your Adam's Apple—Do you know you are actually touching your larynx?—This is your voice box—it contains your vocal chords. When you consider your Adam's Apple, you are considering your throat—your vocal chords. Don't rasp your throat with harsh irritants—Reach for a LUCKY instead—Remember, LUCKY STRIKE is the only cigarette in America that through its exclusive "TOASTING" process expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE, and so we say "Consider your Adam's Apple."
