AGRICULTURAL NOTES

BY COUNTY AGENT McVEAN

LOOK OUT FOR ARMY WORM

Army Worms may cause some trouble in this County this month. Some damage has already been done in Talbot and Queen Anne Counties. It is wise to be on the outlook for them and destroy them, else there will be several other generations to cause trouble throughout the summer. Trenching around infested areas to prevent their migration is a common means of control. The worms in the furrows or trenches can be mashed by dragging a post up and down the length of the furrow. Or, holes may be dug in the trenches into which the worms fall and there may be destroyed by the use of boiling water, coal oil or fire gun. The County Agent is ready to advise with any one bothered by this pest.

MEXICAN BEAN BEETLE

Peope growing beans of all most any variety should be on the lookout for the Mexican Bean Beetle. They are readily controlled by stomach poisons. The Copper Arsenic dusts are very effective but are not safe to use on string beans, due to the possibility of ome poison adhearing to the pods. If the pods are already formed when the Beetle attacks—a non-poisonous spray is recommended. Pyrethrum Sprays are safe. Red Arrow spray and Evergreen spray are Pyrethrum sprays.

What ever material is used care should be taken to get the dust or spray on the underside of the leaves, since this is where Beetles do most of their work.

SAVE BEST COCKERELS

Attention is called to a practice among poultrymen which may easily result in the keeping of the less vigorous and less desirable cockerels for breeders. All too commonly people sell off the early, vigorous, rapidly developing cockerels and save the undersized, slower maturing, less vigorous cockerels for the breeding flocks. These early vigorous active cockerels, as many as are necessary for the breeding flocks, should be saved by themselves, if the farmer desires to maintain and build up the vigor and vitality of the flock, both of which factors are important in the ability of the birds to resist disease.

RAM SALE—CENTREVILLE—JULY 28TH

The annual Eastern Shore Ram Sale, which has been the means of bringing into Kent County flocks a goodly number of high class Hampshire and Shropshire rams, will again be held at Centreville on July 28th. Due to the relatively low prices, now is an especially good time to secure high class rams needed for the improvement of most of Kent's flocks. Both quality and vigor are imparted by such rams, which means that the lambs will arrive early—will mature quickly, and will be popular because of their quality, all of which factors infuence selling price and profit. Kent, due to its nearness to large markets and due to time available for proper care, should cater to the early market, thus getting the best prices and at the same time saving the load on pastures and the opportunity of internal parasite infestation.

More details concerning the sale will appear in later issues. It is hoped that many Kent farmers will plan now to secure a high cass sire at this sale. Similar sales are to be held at La-Plata, Pocomoke, Boonsboro and Timonium.

There is abundant evidence which indicates that it costs a farmer far more to use a scrub or inferior ram than it does to buy a high class sire.

CONTROL STOMACH WORMS

The stomach worm is one of the internal parasites of sheep which respond quite readily to medicinal treatment but the treatment must be repeated frequently if the control is to be most effective.

The cheapest treatment is the familiar copper sulphate or blue stone solution. Directions for mixing can be obtained from the County Agent. If tape worms and other parasites are suspected a solution of Black Leaf 40 added to the copper sulphate solution will control such parasites. Commercial capsules are effective and possibly easier to administer but are more expensive than the Blue Stone treatment.

LAST CALL FOR THE 10 TON PER ACRE CONTEST

Any growers of tomatoes in Kent County who wish to stimulate their interest in tomato growing this year are invited to compete in the Ten Ton Per Acre Contest, fostered by the Extension Service and the Tri-State Packers Association. With the tomato market prospects no brighter than they are it would seem the only hope for profit in this year's crop comes from heavy yields per acre on the reduced acreage in the county. It is estimated that the present acreage is some where between 60 and 65 per cent. of that of 1930.

The last date for entries in this contest is July 1st. Therefore, any one desiring to enter this contest should ask the County Agent for the Entry Blank and the Rules governing the contest. Only approved practices are encouarged. No dues are levied but liberal prizes are offered to those in each county producing ten or more tons per acre on all their canning house crop. The friendly competition among growers is stimulating and interesting.

ENTER LITTERS IN PORK PRODUCTION CONTEST

The Litter Contest, fostered by the Maryland Stockmens Association and the Extension Service, is a means of stimulating economical pork production through the use of improved methods and using the idea of competition as a means of creating interest. The county prize is $25.00 to the winning Litter. There are also $100.00 State Prize and a $75.00 second State prize. These prizes plus the competition stimulates the use of best methods of producing pork economically. Any farmer with a good vigorous Litter which he is willing to feed well in an effort to have them reach marketable size at an early age, is invited to enter the Litter Contest. The effort is to cause the members of one Litter to weigh 1500 or more pounds on or before the 150 day after the pigs are born. The contest is known as "The 1500 pound—150 Day Litter Contest." Any Kent grower of pigs desiring to measure his skill against several who have all ready entered, is invited to notify the County Agent who will supply futrher details and attention to the proper entry of the various Litters of this contest. All entries must be in prior to July 15th. Act now!

KENNEDYVILLE

Mrs. Harry Lipscomb went to a Wilmington hospital on Tuesday for treatment.

Miss Emma Shafer returned from Philadelphia on Tuesday.

Mr. and Mrs. Charles Herzog, of Baltimore, and Mr. and Mrs. Vogt, of Trenton, spent the week end with relatives here.

Service as usual in the M. P. church service in Grace Presbyterian church next Sunday evening, at 7.30 p. m.

Mr. and Mrs. Umliff, of Wilmington, spent the week end with Mrs. Umliff's parents, Mr. and Mrs. ames Caldwell.

CHESAPEAKE BAY LEAGUE

(Continued in Page 1)

Rock Hall maintained its lead in the Chesapeake Bay League last Saturday by defeating Millington 10 to 4. Vodvarka, pitching for the latter team, was poorly supported by his team mates as the down the county team scored 10 runs with only 11 hits. Stack and Warner for Millington accounted for 5 of their team's 8 hits. Wright, who has taken the mound for Rock Hall since Carey left for the big racket, pitched an 8 hit game and secured 3 hits out of four trips to the bat. The hitting of Legates and Fitzgerald helped Rock Hall's scoring.

Umpire—Horsey.

Bill Loller, pitching for Church Hill, held Kennedyvile to 6 hits while his team mates totaled 23 safe hits in a one sided game ast Saturday, when the former team won 14 to 5. Church Hill took a substantial lead in the first part of the game and Kennedyville's rally of 4 runs in the seventh game interesting. C. Walls and Clough was not enough to even make the each accounted for a circuit clout.

Reduce the Acid

SICK stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are overstimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips Milk of Magnesia; one harmless, tasteless dose neutralizes many times its volume in acid. For 50 years the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Get the genuine Phillips Milk of Magnesia, the kind physicians have prescribed for 50 years.

©Maryland State Archives msa_sc3326_scm8226-0671
