BY A WOMAN

MISS ALICE ROBINSON

There passed away last week, a very useful and progressive woman, Miss Alice Robinson. She was born in 1854 in the west what was then the Indian Territory, right among the Indians, and it was her chosen occupation to teach them and instruct them how to become useful citizens. When the Cherokee Indians sold their fertile lands to our government and they were opened for settlement many remember the mad rush that the settlers made to establish homes in the new territory and how soon it became a state. It is there in the State of Oklahoma that Alice Robinson made her home. In 1920 she was sent to congress by her admiring state and she did much legislation for the poor Indians around her, while she was there. We saw her come into the Senate chamber one day and were impressed how the Senators gathered around the rather plain white haired woman as she sat and listened to the debates.

But she last her seat, however, in the next congress and she settled down to enjoy her beautiful home where she had gathered a fine library and many art treasures. This home was always open to her friends and the Indians found a warm welcome there too. Unfortunately a fire destroyed the house and all her treasures and she was compelled to open her home to paying guests.

Not long after her friends found that she was really needy and they established a fund for her which kept her in moderate comfort to the end of her life. Last February she began to suffer terribly with her jaw, and it was soon discovered that she had cancer.

Although everything possible was done for her, she died last week at the age of seventy seven years. Years that were full of effort and work for others.

She was the second congresswoman of the United States, Janet Rankin being the first.

Housewives are so apt to complain of their special work, planning for meals care of children and the worry of servants, and yet house work after all, is very worthwhile, and the care of children is full of compensation. The head of a well ordered home is a much more important position than those who have to seek jobs and have to live in other peoples homes. She has much more individuality and there is room for both initative and talent. So gentle house wife learn to appreciate your job.

For Removing Fruit Stains

(U. S. Department of Agriculture.)

In treating unknown stains, hot water should be avoided until after other substances have been tried; but for fruit and certain other stains, prompt application of boiling water poured from a tea kettle held at a height of 3 or 4 feet above the stain, is very effective.

What is Worn

Deep Violet Is a Summer Favorite

Deep violet, a shade darker than the Parma variety, is a favorite summer style shade. Sports costumes and street suits are made of soft violet wool worn with pearl gray organdy blouses, while dinner gowns are designed of dark violet chiffon trimmed with mauve flowers or bandings.

Hats are causing a furore in fashion right now, with the forward tilt over one eye so strongly emphasized that the off-the-forehead model you acquired not so long ago already seems last season. Be gay, be dashing, be romantic, counsel the designers and they hurl upon your bowed head Scotch caps, Peter Ibbetson chapeaux, Robin Hoodish affairs, feminized derbies and rakish tricornes in dizzy succession.

The extreme models make no compromise with untidy coiffures. There are no two ways about it—the new hats demand that every hair be in its place and stay there. Particularly do they cal lfor some neat and definite arrangement at the back, for here many of the hats ride up with no concern for your possibly growing locks. If you are caught short, don't say you have not been warned. This upward tendency has been gaining ground for many months.

Consider your Adam's Apple!!★

Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

Adam and Eve in the Garden of Eden—A story we have all heard since childhood—Consider your Adam's Apple—the possession of each one of us, man or woman—your voice box—containing your vocal chords—your larynx—Don't rasp your throat with harsh irritants—Reach for a LUCKY instead—Be careful in your choice of cigarettes.

Remember, LUCKY STRIKE is the only cigarette in America that through its exclusive "TOASTING" Process expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. And so we say "Consider your Adam's Apple."
