PENINSULA NEWS

The State Roads Commission has advertised for bids on an eight and one-half mile stretch of highway between Salisbury and Princess Anne, the bids are to be opened at the offices of the Commission in Baltimore, August 4.

A second ferryboat, to augment its service between Norfolk and Cape Charles, has been purchased by the Peninsula Ferry Corporation and will be in operation by September 1.

Governor Albert C. Ritchie will soon be called upon to name two associate judges for the First Judical Circuit which is comprised of Wicomico, Worcester, Somerset and Dorchester counties.

The Pennsylvania Railroad Company will start shortly on an estimated 2,000,000 construction job in the town of Elkton The program includes the straightening of the sharp curve on North street, the building of a new depot about a quarter of a mile from the present one, the building of an overhead crossing, and the electrifying of the main line from Wilmington to Baltimore.

Following the petition, signed by 2967 voters of Cecil county, that the million dollar road and county jail bond issue which was passed at the last session of the Maryland Legislature with out a referendum, be referred to the vote of the residents of that county at the next general election, Attorney General Lane has ruled that as more than 10 per cent of the registered voters of that county signed the petition the referendum holds.

The Rev. D. J. Ford, pastor of the M. E. Church at Hebron, who for the second year is the pastor in charge of Hebron Camp, announced this week that the popular western Wicomico camp would open August 2nd, holding as usual over three Sundays.

Miss Florence Hastings, the alleged proprietress of the Mayflower, one of Ocean City's leading hotels, is involved in a suit for $50,000 brought by Mrs. Willmina Gunby, wife of Harry C. Gunby, formerly manager of the district branch office of the Eastern Shore Public Service Company at Ocean City. The suit is for damages as a result of alienation of affection.

The annual Smith's Island Camp meeting, in Somerset county opened on Sunday last.

For the second time within a quarter of a century, the Pennsylvania Railroad terminals and pier at Crisfield was destroyed by fire on Thursday morning, of last week entailing a loss, which is estimated at $150,000 by the company's agent at Crisfield, Mr. E. R. Richardson.

There is a striking resemblance between the fire of Thursday and that of twenty-five years ago, in that considerable mystery surrounds the origin of the blaze.. Following the blaze of a quarter of a century ago, the decapitated body of a watchman in the employ of the Railroad company was found in the ruins. The assumption at that time was that Collins, the watchman, had been murdered, and the buildings ignited in an effort to cover up the crime. . No one has ever been apprehended for the crime and it remains one of the mysteries of Somerset criminal records.

WHEN FOOD SOURS

ABOUT two hours after eating, many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips Milk of Magnesia, the kind physicians prescribe to correct excess acids. 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

NO FIGURING NECESSARY

Teacher: "If I gave you a big, red apple and you gave Robert seven-eighths of it, what would you home?

Tommp: "Some kind of disease in my brain."

INSPECTION WAS OK.

School Inspector (to pretty teacher): "Do you teach observation?"

"Yes."

Invents New Process

T. M. RECTOR, chemical engineer of General Foods Corporation, has been credited with the invention of the new vita-fresh process of packing coffee in an almost perfect vacuum. By excluding air from the can, the new process keeps coffee fresh for many months. The vita-fresh method has been termed "the most important advance in years in the coffee industry." Rector's home is in Rutherford, N. J.
