THE COMMUNITTY FESTIVAL of the Chestertown Volunteer Fire Company started last night and will continue for ten days. The patronage of the public is solicited as the proceeds of the annual festival is the sole means of support of the fire company. The cost of purchasing equipment and maintaining an efficient fire company is large and it is a necessary expense so that the company will be ready at all time to protect the community from fire hazards.

THE SECOND ANNUAL regatta of the Chester River Yacht and Country Club was a success as far as anything, over which the regatta committee had any control, was concerned. The weather was as disagreeable as August days could produce and kept a large number of entries and visiting yachtsmen from crossing the bay. It proved that those who competed were not fair weather sailors and that yachtsmen, as a class, are good sports. Any criticism for not postponing the bay race is unjustified, as a race in the open waters of the bay can be faced with almost any kind of weather. The race was started officially and the winner sailed the course. Mr. Raskob sailed his own boat in the face of a strong north east gale and the local club is fortunate in having the Raskob family take the interest they have in the regattas.

THE CHESAPEAKE BAY LEAGUE

Although rain kept four of the teams in the Chesapeake Bay League on the bench, Cecilton and Millington played a seven inning game at Cecilton, the former winning 6 to 3, before the game was called by umpire Horsey on account of rain.

Millington started the scoring with 3 runs in the first inning but were unable to score again while Cecilton scored six runs in the seven innings. Cecilton's 6 runs were made with 2 hits while Millington scored only 3 runs with 15 hits. Stack and Lockwood lead the hitting for Millington.

The lineup and sumary follows:

LIKING AND HAVING

College Man: "What would you like, dear?"

Co-ed: "Well, I'd like some fruit cocktail, some caviar, an order of frog's legs, some fruit salad, a sirloin steak smothered in mushrooms, a pie a la mode."

College Man: "That is all very well, But, now, what will you have?"

LIGHTENING STRIKES BARN

Lightening struck and set fire to the barn on the Hynson farm on Swan Point, tenanted by Mr. Harvey Coleman, on Thursday afternoon of this week.

The Rock Hall Fire Company responded to the call during a heavy downpour of rain but was handicapped in getting to the creek due to the wet ground. The fire truck became mired in the lawn and firemen were several hours getting back to the fire house.

The barn was totally destroyed including a quantity of hay, a mule was badly burned.

THE ONLY NATIONAL BANK IN KENT COUNTY

"The Bank Where You Feel At Home"

Important Facts Every Checking Depositor Should Know

We want you association with this bank to be on the basis of Mutual Friendship and understanding. Therefore, the less mystery there is about our banking operations and the more knowledge you have of the ways in which we are trying to serve you, the better you can cooperate to your advantage.. The facts are submitted to you with this purpose in view. Please read them carefully.

FIRST, A bank is a business which must be conducted on business principles because the bank does not deal directly in goods over the counter, people often lose sight of the fact that banking is, nevertheless, fundamentally a business of buying and selling, which must be conducted like any sound business.—For profit as well as for service.

SECOND, A fair profit is essential to both good management and good service the commodities the bank deals in are money, credit, and service. It accepts and safeguards deposits, provides valuable facilities, and renders a great variety of helpful services. In return, it asks the temporary privilege of loaning part of these deposits in safe ways that will return enough money for the bank to pay for its service, with a little added profit besides.

THIRD, The bank that makes money is the safest place to deposit money, a well-managed bank, like a properly conducted business, should make money. If it does not make money it will not be a strong bank, and if it is not a strong bank it cannot be a safe place for a depositor's money. This fact should not be overlooked.

FOURTH, Good checking balances help to make a bank strong, every checking depositor should try at all times a keep a balance in his checking account large enough so that after all current checks are paid there will still be left on deposit, a sum that the bank can use profitably for the expense of rendering service. Intelligent co-operation of this character offers the best possible proof of individual ability and good management.

FIFTH, How the bank and its checking depositors may co-operate to mutual advantage, —service, in a bank, travels in a circle it is not something that passes from the bank to its depositors, never to return. The circuit must be completed. The depositor receives service and gives his co-operation in return. The ideal condition exists where both understand each other and work together closely for mutual benefit.

SIXTH, Every depositor, therefore, who maintains a fair checking balance in his account, is helping himself and at the same time making it easier for the bank to give him its best service at all times.
