PROTEST DUCKING LAW

UNIVERSAL PROTEST BY SPORTSMEN AGAINST SHORTENED SEASON

As the ducking season approaches, sportsmen from Delaware and Maryland are protesting to their representatives in Congress against the new Federal regulations which shortened the ducking season this year to one month. According to the Federal regulations the season is from November 15th to December 15th.

The following clipping shows the position taken by Delaware sportsmen:

If Senator John G. Townsend, Jr., of Delaware impresses his view on the Department of Agriculture's biological survey, Delaware sportsmen will be given a hearing on the announced decision of the survey to shorten the shooting season for ducks this year. At the instance of the Delaware Game and Fish Commission, voiced by State Game Warden Clarence S. Foster, the senator has requested the survey to grant an audience to the Delaware people.

Shortening of the season for ducks is provided in a proclamation issued recently by President Hoover, at the suggestion of the Department of Agriculture.

Investigations conducted in the Summer by the biological experts of this government and Canada convinced them that the breeding grounds had seriously felt the effects of drought conditions, and that in the interest of preservation of the game fowl it was necessary to curtail the shooting season.

Local sportsmen are also in a quandary as to the ducking season this year. The State of Maryland regulates shooting by designating the days in the week on which shooting is allowed. Certain sections of Chester River on the Kent side is restricted to ducking two days in the week which will leave only eight ducking days this year for these clubs.

The following questions are discussed by duckers:

Will the State enforce the restricted days duckng law?

Can the Federal government enforce the new Federal law so as to protect ducking shores from the law violator after December 15th or will it be another example of the Federal government encroaching on the rights of the States with laws which they are unable to enforce, thereby rendering a hardship on the law-abiding citizen and throwing things open to the law violator.

State game wardens do not have the authorty to make an arrest for violation of a Federal law but it is their duty to report the violation to Federal authorities. While it is the duty of every citizen to do the same, state game wardens cannot be considered enforcement agents of the Federal laws.

In the rivers of the Chesapeake Bay the best part of the ducking season does not start until December 15th while on the Susquehanna flats the season is about over when ice starts to form. This proves the injustice of universal ducking laws.

The suggeston made by Mr. LeCompt, State Game Warden, that the season not be shortened but ducking days restricted met the favor of sportsmen and would have been a happy solution of conservation.

EARL CARROLL "VANITIES"

TO BE AT FORD'S THEATRE, BALTIMORE, WEEK OF OCTOBER 5

The eighth edition of Earl Carroll "Vanities" with the original New York cast and production is coming to Ford's Theatre, Baltimore, for one week beginning Monday night, October 5th, with matinees Wednesday and Saturday. This is the show which was produced at the New Amsterdam Theatre, New York, last season and which continued at that house for more than seven months.

Special attention will be given to mail orders from out of town patrons and Ford's Theatre will insure the best choice of seats to all those who order by mail.

The scenic production is massive and the company numbers one hundred people.

Each season Earl Carroll produces a new edition of this annual revue and this is the first time this company and production have been seen in Baltimore. With utter disregard for expense he assembled twenty of the world's leading comedians too create laughs and a chorus of fifty-six girls to grace the "Vanities" with their fluffy presence, and some of them are among the most beautiful girls in the world. It is a revue not wanting in any department of amusement and it contains everything that is excellent in abundance. This brilliant potpourri is particularly rich in comedy.

There is plenty of sparkle to the settings, gay in spangles, color schemes and radiant beauty. It is guaranteed to keep the most weary business man awake. Staged in sixty scenes, the show moves through a fast succession of comedy scenes, dance ensembles and specialties, song numbers, gorgeous scenic spectaacles and brilliant and colorful light effects. In his three principal comedians Mr. Carroll has the material for royal good humor and he makes excellent use of Herb Williams, whose pathetic and uncertain maner is genuinely funny, Jack Benny, whose subtlety is usually on the side of humor and the diminutive Chaz Chase, whose spontaneous clowning is always superb.

All kinds of dancing from the super buck and wing to the most exquisite toe dancing alternates with the fast and picturesque ensemble dances.

THE ONLY NATIONAL BANK IN KENT COUNTY

"The Bank Where You Feel At Home"

Important Facts Every Checking Depositor Should Know

We want you association with this bank to be on the basis of Mutual Friendship and understanding. Therefore, the less mystery there is about our banking operations and the more knowledge you have of the ways in which we are trying to serve you, the better you can cooperate to your advantage.. The facts are submitted to you with this purpose in view. Please read them carefully.

FIRST, A bank is a business which must be conducted on business principles because the bank does not deal directly in goods over the counter, people often lose sight of the fact that banking is, nevertheless, fundamentally a business of buying and selling, which must be conducted like any sound business,—For profit as well as for service.

SECOND, A fair profit is essential to both good management and good service the commodities the bank deals in are money, credit, and service. It accepts and safeguards deposits, provides valuable facilities, and renders a great variety of helpful services. In return, it asks the temporary privilege of loaning part of these deposits in safe ways that will return enough money for the bank to pay for its service, with a little added profit besides.

THIRD, The bank that makes money is the safest place to deposit money, a well-managed bank, like a properly conducted business, should make money. If it does not make money it will not be a strong bank, and if it is not a strong bank it cannot be a safe place for a depositor's money. This fact should not be overlooked.

FOURTH, Good checking balances help to make a bank strong, every checking depositor should try at all times a keep a balance in his checking account large enough so that after all current checks are paid there will still be left on deposit, a sum that the bank can use profitably for the expense of rendering service. Intelligent co-operation of this character offers the best possible proof of individual ability and good management.

FIFTH, How the bank and its checking depositors may co-operate to mutual advantage, —service, in a bank, travels in a circle it is not something that passes from the bank to its depositors, never to return. The circuit must be completed. The depositor receives service and gives his co-operation in return. The ideal condition exists where both understand each other and work together closely for mutual benefit.

SIXTH, Every depositor, therefore, who maintains a fair checking balance in his account, is helping himself and at the same time making it easier for the bank to give him its best service at all times.
