THE KENT COUNTY auditing committee's report, which will be found on pages 6 and 7 in this paper shows an exhaustive research made by the committee, and covers every detail of the county's receipts and expenditures.

THE DEMOCRATIC political activity nationally is attracting considerable attention throughout the United States with Gov. Ritchie, of Maryland and Gov. Roosevelt, of New York, as the leading candidates for the Democratic nomination, either of which would make a strong opponent for the Republican candidate whoever he may be. From the information received at our office and from what we can glean from the Daily Press it looks very encouraging for our Maryland Governor. Governor Roosevelt, it seems, has serious trouble with some of the very influential leaders in New York City, and should that difference continue it would undoubtedly militate against him. On the other hand Governor Ritchie has his State solidly behind him and is receiving much encouragement from some of the important states, who have larger representations and influence in national conventions. Governor Ritchie has a record that any man could be proud of having been four times elected Governor of Maryland and each of the four times having received increased majoities. He has proven himself to be an exceptional executive and if nominated and elected to the Presidency of the United States we believe will prove equal to the trust.

ORDER
A Text For Every One

What Comfort, what Strength, what Economy there is in Order—Material Order, Intellectual Order, Moral Order. To know where one is going and what one wishes—this is order: to keep one's word and one's engagements—again order; to have everything ready under one's hand, to be able to dispose of all one's forces and to have one's means of whatever kind under command—still order; to discipline one's habits, one's effort, one's wishes; to organize one's life; to distribute one's time, to take the measure of one's duties and make one's rights respected; to employ one's capital and resources, one's talent and one's chances profitably—all this belongs to and is included in the word order. Order means light and peace, inward liberty and free command over one's self; order is power. Order is man's greatest need and his true well-being. Order is the greatest need of business. It is the slogan and the inspiration of every progressive person, to establish it in one's life is to set the scene for assured success.
