Water Supply Long a Worry

An occasional water shortage is nothing new in New York. Even as far back as 1786 it was a matter of concern, as indicated by a writer who said:

"A want of good water is a great inconvenience to the citizens, there being few wells in the city. Most of the people are supplied every day with fresh water, conveyed to their doors in casks, from a pump near the head of Queen (Pearl) street, which received it from a pond almost a mile from the city. Several proposals have been made by individuals to supply the citizens by pipes, but none have been accepted.—New York Sun.

Said to have been despondent due to continued ill health, Gordon Mears, Crisfield business man, committed suicide at his home in Crisfield early Saturday morning last.

If baby has COLIC

A CRY in the night. Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.
