The Ninth Annual Banquet of the Kent Boys' 4-H Clubs, which was held Friday, February 26th, at the new Chestertown Armory, was a big success. Over two Hundred club members and parents and others interested in Club Work sat around the tables and enjoyed the turkey dinner which was prepared and served by the Mothers of club members. Some of the Girl Club Members helped serve. Each Club furnished certain portions of the menu, giving all a chance to help. The speaking program was led off by Wilbur H. Morris, President of the Council, who introduced Frank O. Suiton the Toastmaster of the evening. The Toastmaster was full of good, clean jokes and used them freely in introducing the speakers. Gilson Rowlinson of the Millington 4-H Club was the first speaker and spoke of his first trip to Club Week. PENINSULA NEWS

Customs officials and the Federal prohibition unit of the Eastern Shore have picked up remnants of what they believe was a recent large liquor-smuggling operation.

Garland Ennis was arrested last Friday after the officers said they found in his home at Crisfield a quantity of imported liquor. He was arrested on charges of violation of the Tariff act and held by Louder T. Hearne, United States Commissioner, in $2,000 bond for action of the Federal grand jury.

Irving Windsor, in charge of the prohibition unit, explained the tariff violation implied smuggling of liquor.

At Ennis' home Agents Windsor, Callahan and Thompson, and Customs Inspector James W. Edmondston and Sheriff Luther Daugherty found they reported, fifteen sacks and eight bottles of whisky and champagne, bearing foreign labels, and also thirty-three gallons of home brew.

A week ago Coast Guards at Assateague gave chase to a suspicious looking small boat that is said to have dumped its liquor cargo overboard. The officers, a few hours later, fished up sixteen cases of imported liquors, they reported.

On Wednesday a farmer living north of that point informed officers a moving van had been loaded with liquor brought into Sinepuxent Bay, south of Ocean City.

Under the protection of the State Game Department, white-tailed Virginia deer which were releasd along the Atlantic Ocean beach front of the State several years ago have increased until it is now estimated by E. Lee LeCompte, State Game Warden, that there are between fifteen and twenty heard of the animals roaming the marshlands there.

Another enterprise of former days has yielded to the pressure put upon it by the motor driven vehicle, and according to reports the Baltimore and Virginia Steamboat Company will cease operations on Monday, so said C. R. Seeley, supervising agent.

On Tuesday last, the Company was decreed bankrupt after the filing of a voluntary petition in bankruptcy in the United States District Court.

The concern, which operates five vessels from Pier 3, Light street, Baltimore, to Norfolk, Washington, Fredericksburg, Va.; Cambridge and Crisfield, Md., was founded in 1923, after the foreclosure of the Maryland, Delaware and Virginia Railroad Company.

After months of preparation the Maryland Paperboard Company, at Childs, Cecil county, formerly the Marley Mills, turned out its first finished product on Thursday afternoon of last week.

One paper machine has been put in service after being completely remodeled. About 20 tons of chipboard or 225 feet per minute is the capacity of the overhauled machine. Another machine will be made ready for operation within the next ten days, was announced by one of the officials of the Company. The first finished product over the new mill was a nine point chipboard of fine texture and good color. With the combined operation of the two machines the output of the mill will run about 50 tons per day.
