Total	$ 1825.00

BUDGET

On January 1st, 1932, $25,000 in Bonds, were sold as provided by Act of Assembly in 1931. The Act authorizing these bonds requires the levying of the necessary tax to pay $2,000 of the bonds each year and the interest on them, the interest for this year being $1,250.00. To raise this amount would require an additional tax levy of 12½c per 100, which would make the rate for this year 87½ cents. The Council have given careful consideration to the subject and feel that they can provide for he payment of bonds and interest and all other obligations this year without an increase in the tax rate. We must have the co-operation of the public to do this. It will be necessary to curtail our improvements as we must keep within the limits of our budget, as provided by the Charter. The Council was of the unanimous opinion that there should be no increase in taxes this year, feeling that the tax-paying public are looking for tax relief rather than tax increases.

The Tax Rate for 1932 will be 75c.
