BICENTENNIAL FLOWER GARDENS

FLOWER GARDENS OF COLONIAL FLOWERS TO BE PLANTED

This is the time of year to think about planting flower gardens. Every back yard, every strip of fertile soil is a potential flower garden and may be made to bloom in honor of the Father of His Country in this Bicentennial year. Even as little as fifty cents worth of seeds will plant a garden anyone may be proud of and which will give joy to hundreds of passerby.

In a nation-wide broadcast at 1.30 p. m. Thursday, March 17th, the Secretary of Agriculture, Arthur M. Hyde, officially opened the Bicentennial flower garden campaign which is sponsored by the United State George Washington Bicentennial Commission. The United States Marine Band Orchestra played a program of appropriate music, and Congressman Sol Bloom, Associate Director of the Commission explained the proposed plan which is, to have every vacant space all over the country bloom with flowers this summer in honor of the Bicentennial year.

The Garden Clubs of America are coopearting in this plan as well as school garden clubs and other floral organizations. The Bicentennial Committee in each state is promoting interest in planting flowers in honor of this great celebration. The United State Department of Agriculture is cooperating also and horticultural experts attached to Agricultural Colleges in each state are doing effective work in promoting this activity, through the schools of each state.

In consequence, hundreds of amateur gardeners will plant Colonial flowers, annual and perennials, which were familiar in the time of George Washington and which will bloom each year as a permanent memorial to his memory.

The United States George Washington Bicentennial Commission has secured from the Department of Agriculture, a list of flowers which were familiar in Colonial Days which will be particularly adaptable to this kind of celebration.

For bright sunshine with plenty of fertility and moisture: Over 4 ft. high, castor bean, cosmos, sunflower, sorghum, feterita, milo, and Indian corn; over 3 feet, Josephs-coat, love-lies-bleeding, feather cockscomb, orange sunflower, princesfeather, spiderflower, and summer-cypress; 30 inches, cornflower, larkspur, scabiosa, scarlet sage, strawflower ,and zinnia; 24 inches, balsam, calliopsis, China-aster, summer chrysanthemum, cockscomb, coneflower, four-o'clock, gaillardia, Aztec marigold, platycodon, poppy, salpiglossis, snapdragon, and snow-on-the mountain; 18 inches, Jobs-tears, mignonette, and stock; 12 inches, calendula, California-poppy, calliopsis, candytuft, French marigold, petunia, Drummond phlox, pink, and Iceland poppy; under 12 inches, ageratum, cockscomb, lobelia, portulaca, sweet alyssum, and verbena.

Of easiest culture under ordinary garden conditions: Over 4 feet sunflower; about 3 feet, Josephs-coat, love-lies-bleeding, heliopsis, and Princesfeather; about 30 inches, cornflower, strawflower, and zinnia; about 24 inches, calliopsis, summer chrysanthemum, coneflower, gaillardia, poppy, and snow-on-the-mountain; about 18 inches, mignonette; about 12 inches, Cape-marigold, calendula, California-poppy, balsam, candytuft, petunia, Drummond phlox, pink, dwarf nasturtium, portulaca, and sweet alyssum.

On Light Fertile Soil: Gaillardia, marigold, Drummond phlox, and portulaca.

On Light Soil, Not Too Rich: Cockscomb and feather cockscomb.

On Poor Soil: Love-lies-bleeding, princesfeather, Josephs-coat, Cape marigold, godetia, dwarf nasturtium, portulaca, grass-pink, sweet alyssum, garden balsam, and calliopsis.

On Land Near The Seacoast: Plants from the three foregoing lists, depending on the fertility of the soil, together with the castor-bean, sunflower, heliopsis, spiderflower, cornflower, strawflower, zinnia, calliopsis, snow-on-the-mountain, four o'clock, stock, calendula, California-poppy, petunia, and sweet alyssum.

In Partial Shade: Basketflower, sweet-sultan, clarkia, platycodon, godetia, Drummond phlox, pansy sweet alyssum, lupine, and forget-me-not.

Especially Responding To Each Soil: Castor-bean, scarlet sage, balsam, and China-aster.

To Cut For Everlastings: Rose everlasting, feathered cockscomb, globe-amaranth, and strawflower.

Not Adapted To The South: except for late and early spring: Salpiglossis, pansy and forget-me-not.

Plants that can be started to advantage In Hotbeds And Coldframes for early flowering, whether they are to be used for bedding purposes or for cut flowers: Ageratum, China-aster, calliopsis, caster-bean, calendula, cosmos, cockscomb, chrysanthemum, godetia, lobelia, marigold, petunia, lobelia, marigold, petunia, grass-pink, scarlet sage, spideflower, and verbena.

Some plants that may be sown in Beds In The Open Ground and later transplanted to their permanent locations are ageratum, calendula, calliopsis, China-aster, Clarkia, cockscomb, dahlia, gaillardia, godetia, lobelia, mignonete, pansy, pink, snapdragon, spiderflower, stock, and zinnia. Most of these may be sown earlier in a hotbed or coldframe and thus be made to bloom earlier.
