U. S. DEPARTMENT OF AGRICULTURE

STOCKS OF WHEAT IN INTERIOR MILLS AND ELEVATORS MARCH 1, 1932

There were about 520,000 bushels of wheat held in interior mills and elevators of Maryland on March 1, says a report of the Maryland Crop Reporting service. At this time last year amounted to only about 400,000 bushels, but holdings were estimated at 530,000 bushels in 1930, 523,000 bushels in 1929 and 551,000 bushels in 1928.

Stocks of wheat on Maryland farms on March 1 this year were estimated at 2,036,000 bushels, compared with 1,659,000 bushels on the same date last year and the five-year average of 1,473-000 bushels.

United States Wheat Stocks Report

Stocks of wheat in interior mills and elevators on March 1, 1932, are estimated by the Crop Reporting Board to be 74,601,000 bushels. On March 1, 1931, stocks are estimated to have been 83,205,000 bushels (revised) and on March 1, 1930, 101,149,000 bushels (revised). This report is intended to include only wheat stocks in country elevators and the smaller interior mills which are not included either in the Department report on stocks of wheat in 39 markets or in the Bureau of the Census report on stocks of wheat in merchant mills and attached elevators.

The estimates are based upon reports received from 3,377 mills and elevators, representing roughly a fifth to a fourth of the elevator capacity in wheat producing and country milling regions.

Stocks of wheat in the four principal spring wheat states,—Minnesota, Montana and the Dakotas, were reported to be 12,675,000 bushels, compared with 21,200,000 bushels on March 1, 1931, and 34,740,000 bushels on March 1, 1930. In the states of Nebraska, Kansas, Oklahoma, Texas and Colorda, which include the principal hard red winter wheat area, stocks were reported to be 21,020,000 bushels on March 1, 1932, 14,250,000 bushels in 1931, and 14,758,000 bushels in 1930.

In the principal soft red winter wheat states of Pennsylvania, Ohio, Indiana, Illinois and Missouri, stocks were reported to be 12,420,000 bushels this year, compared with 7,105,000 bushels last year and 11,255,000 bushels two years ago.
