The big theme of the conference was "Pioneering," and the fact was emphasized that what America will be in 20 years depends on what the youth of to-day does.

FARMERS SEEK CROP PRODUCTION LOANS

County Agent J. D. McVean who serves as Secretary to the Kent County Crop Production Loan Committee reports an active interest among Kent farmers in the Crop Production Loan Fund—set aside from the appropriation for the Reconstruction Finance Corporation.

To date (4|5|32) fifteen farmers have inquired relative to the conditions under which loans are granted. Seven applications have been filed. Last year, twenty-seven loans were secured. It is thought that the number of loans will be smaller this year; also only smaller loans are available. ($400 is the maximum loan.)

The Committee advises no one to incur further indebtedness unless the need is acute. There are those, however, to whom a small loan will be very profitable. Loans to secure seed and fertilizer for the production of food and feed crops fall in this class. Not everyone who could use a loan to advantage is able to secure it. The Government requires a first mortgage on the crops grown or to be grown during 1932. Landlords sign a waiver of their interest in the crop to be rown (to the extent of the amount of the loan) in order that the tenant may secure a loan. In case the landlord desires to secure a loan, then his tenant must sign a waiver before the landlord may secure the loan.

The Committee suggests that those who need a loan and who think they are eligible, get in touch with the members or the County Agent and learn the details. He will explain the matter and assist in making the application. (L. A. Sutton is chairman. He and E. Thomas Massey are the farmer members of the Committee. F. G. Usilton and S. Scott Beck are the banker members.

GOV. POLLRRD, OF VA., SIGNS SPONGE CRAB LAW

The crabbing industry of this State is seriously menaced by the new crab sponge law passed by the Va. legislature. This new law was proposed by the Virginia Conservation Commission in direct violation of the understanding with the Maryland Commission, so states the Maryland Conservation Department.

The measure, vigorously protested by Maryland Conservation authorities, was signed by Gov. Pollard Monday, making it lawful to catch sponge crabs in Virginia waters between April 1 and June 30 but giving the Fishery Dept., authority to close the season when he deems it necessary in the interest of conservation.

In announcing his approval of the crab bill, Governor Pollard said he was in full sympathy with all conservation measures and desired to cooperate with the Maryland authorities, but that the present law "operates unequally against Virginia because the sponge, or mother, crab is not found to any extent in Maryland waters and in certain seasons of the year a very large part of the crab catch in Virginia consists of sponge crabs, which have to be thrown back into the water."

The Governor pointed out that there was at present a large oversupply of crabs, and that the Virginia Commissioner of Fisheries did not believe it necessary to prohibit the catching of such crabs longer than the period set out in the new law.

He promised that when the new law goes into effect, Commissioner Armstrong would take up with the Maryland authorities questions of mutual interest in seafood conservation and would seek to cooperate with authorities of that State in establishing regulations of a broader character in the interest of conservation and friendly cooperation.

Snow said he saw great benefit in the strict hunting restrictions of the last few years and urged the committee to recommend their continuance. The committee is investigating waterfowl conservation with the view of preparing a bill.

Favors "Cent A Shell"

A preference for the "cent a shell" tax over the $1 Federal hunting license was expressed by Snow. Both have been proposed as a means of raising funds for game preserves and the feeding of ducks and geese. CHESAPEAKE BAY LEAGUE

GAMES STARTS ON MAY 7TH

SCHEDULE OF THE CHESAPEAKE BAY LEAGUE APPEARS ELSEWHERE IN THIS ISSUE

Rock Hall seems to have the edge on the other teams in the league, in the opinion of the baseball fans. The management at Rock Hall has been on the job and secured the best available material.

Most all of last years stars have been signed up and Lin Archibald and Bill Loller have also been added. These two should prove quite an asset. Rock Hall is also making efforts to get its club financed properly. A benefit supper was held Thursday night from which a good profit was made.

Sudlersville should have a good team as they have secured most of the stars of last years Galena and Millington teams, besides having added several other stars to their list.

Barclay seems to be the team the others are worrying about. According to reports, they have secured an ace hurler from Delaware and have many other players coming from the Blue Hen State, that promise to make trouble for the opposing teams.

Cecilton will have the same family team that they had last year and is not considered a very big threat for the leadership.

Church Hill which was always in the running last year is reported to be on a different course this year. They have lost their star Bill Loller who was largely responsible for the good showing they made. Besides that, they have lost several others

Chestertown, the big town in the little league, according to reports has no advantage over the other teams. They have listed some local players many of which will make their first appearance in the league this year.

Their is a possibility that the league might be a very one-sided affair.
