THE TRANSCRIPT

Published Every Saturday Morning at Chestertown, Md.

Entered at the Postoffice at Chestertown, Md., as Second Class Matter.

LOCAL CITIZENS ARE interesting themselves in the construction of a curb and gutter around the East park on High Street. This is a much needed improvement as motorists are gradually encroaching on this park and unless some move is made to stop it this beauty spot will soon be destroyed.

JULY 3RD TO 9TH has been set aside in Maryland as motorists courtesy week. This idea of considering the other driver when parking and on the road instead of obeying the traffic laws for fear of arrest is an excellent idea. Courtesy on the road will do more to make motoring safe than all of the vehicle laws and will leave a lasting impression on visiting motorists.

GOVERNOR Albert C. Ritchie, Maryland's candidate for President, and the Maryland national delegation left Baltimore Thursday amidst the most elaborate demonstration ever witnessed in that city. S. Scott Beck, Esq., of his county, is one of the Maryland delegates and left with the crowd. Should Governor Ritchie be nominated at the Chicago convention next week, we believe will be our next president. Being from a small state like Maryland with only 16 national delegates makes it a little harder for the Governor to get the nomination than if he hailed from a larger state with a larger number of national delegates. Be that as it may, we believe Gov. Ritchie the most available man at this time to lead the Democrats to victory. His policies are the best suited to the present dilemm in which the country is today, and are the most popular and logical yet advanced.

WEDDING NOTES

Mr. and Mrs. Howard D. Knotts, Chestertown, Md., have issued invitations to the marriage of their daughter, Miss Dorothy A. Knotts, to Henry O. Gray, of Clayton, son of Mr. and Mrs. William Gray, of Cleveland, O. The cermony will take place at 4 o'clock this afternoon, Saturday, afternoon at the home of the bride's parents, and will be performed by the Rev. Frang White, pastor of the Methodist Episcopal Church. A reception will folow the ceremony at the home of the bride's parents.

The bride is a graduate of Washington College and at present is a member of the Smyrna High School faculty. The bridegroom is connected with the Pennsylvania Railroad Company in Clayton.

Announcement has been made of the marriage of Miss Maxine Leager, Sudlersville, Md., to Charles F. O'Neal, Clayton, which was solemnized Saturday evening, June 11, at the rectory of St. Dennis' R. C. Church Galena, Md., by Father Walsh. The attendants were Miss Catherine Williams and Eugene Massey, of Betterton, Md. A dinner and reception followed the ceremony at th home of Mr. and Mrs Joseph Short in Hillsboro.

AGRICULTURAL NOTES

PUREBRED RAM SALE AND SHOW

Announcement has just been made of the dates on which the Purebred Ram Sales and Shows will be held throughout the State.

The Centreville sale which has been the means of bringing many splendid rams to the Eastern Shore will be held on Tuesday, afternoon, July 26th. High quality rams will be available at very reasonable prices. This will undoubtedly be a buyers year. Those who bought last year admit that the money spent for the purebred ram was the best investment they ever made. Quality lambs always sell. The purebred ram is a very important factor in the production of such lambs. It is therefore thought Kent sheepmen will patronize this sale liberally as they have in years past.

Crops Damaged By Japanese Beetle

Japanese Beetle attack a large number of crops, fruit, shrubs, grasses, vines and ornamentals. The following types of damage emphasize the importance of retarding the appearance of the Japanese Beetle in Kent County.

1. Fruit. Defoliation of apple, peach and plum is common. The fruit of early varieties may be completely destroyed or badly marred. Small fruits such as blackberries, raspberries and blueberries are seriously injured by the feeding of the beetles on the berries. Grape is one of the preferred foods. Strawberries are occasionally attacked.

2. Truck and Canning crops. Beans, beets, okra are frequently damaged. Losses have even as high as 100 per cent. for sweet corn. Asparagus, cucumber, peas, and rhubarb are also attacked.

3. Field crop. Field corn, red clover, and soy beans frequently suffer injury. Loses have been as high as 66 per cent. for field corn.

4. Shade trees. Linden, horse chestnut, ornamental cherry and plum, elm, willow and European white birch are seriously injured. Sycamore. Norway maple, pink oak, chestnut, oak and lombardy poplar are frequently injuried. Larch and Baldcypress are sometimes injured.

5. Ornamental shrubs. The following are susceptible to attack. Rose, althea, hibiscus, buckeye, raspberry, ornamental cherry and plum, flowerinc quince, spirea and Hawthorne.

6. Ornamental vines as follows are seriously attacked: Virginia creeper and trumpet creeper. Honey suckle, English Ivy and clematis may be attacked.

Prevention is simpler and cheaper than combating after they have arrived in force. The beetle in most cases can be controlled but it is very difficult to protect blossoms and flowers. Timely applications of remedy are essential in all cases. Sprays, dusts, traps, treatment of soil and imported parasites are used in controlling the Japanese Beetle.

Data on the cost of control is available in the County Agent's office. Each of the types of control is listed. The charges are based on the work in New Jersey.

Methods Of Avoiding Injury By Proper Selection Of Trees And Shrubs

Assuming that the Japanese Beetle will eventually become a serious pest in Kent County, those who are to make plantings in the near future can avoid trouble or injury by selecting trees and shrubs not subject to attack or seldom attacked by the Japanese Beetle. The folowing trees, shrubs, and ornamentals are immune from or seldom attacked.

1. Shade trees. Ash, blackgum, sweetgum, magnolia, tulip tree, dogwood red oak, white oak, scarlet oak, and black oak most maples (except Norway) common locust satalpa, white popular.

2. Ornamental shrubs. Evergreens (both conifers and broad leaved) mock orange, sumac, smoke tree, viburnim, hydrangea, sweet shrub, rock rose, lilac and forsythia. Incidental feeding may occur on these plants.

3. Vines. Honey suckle, English ivy and clematis are only incidently attacked.

4. Garden ornamentals. The following are practically immune: Beebalm carnation, Christmas fern, caleopsis, chrysanthemum, columbine, coreopsis, cosmos four-oclock, gaillardia, gladiolus, gysophila, helichrysum, iris, goldenlow, larkspur, lily, maidenhair fern, matiold, nasturtium, palms, pampas grass pansy, petunia, phlox, poppy, scabiosa, snapdragon, sweet pea, tulip, violet.

Ways In Which A Community Or Individual Can Help Control and Retard The Influx Of Beetles

1. Cooperate with State and Federal agencies in their attempt to control and prevent further introduction of the beetles.

2. Cooperate with State and Federal agencies by obeying quarantine regulations.

3. Trap, hand pick and destroy beetles where practical. Traps should not be used unless beetles are known to be present on ones premise. The unwise use of traps may tend to spread the beetles.

4. Buy and plant only materials that are certified as free from Japanese beetle or coming from uninfested premises. No Maryland nursery is known to be infested. Therefore, all Maryland nurseries are safe sources.

5. Watch your garden, flowers and shrubs for the presence of beetles, and if found notify your County Agent, State Entomologist, or Japanese beetle office.

6. Cooperate with your neighbors and all civic organizations in controlling, collecting and destroying beetles.

7. Examine your car or truck and kill any beetles found before entering Maryland. It is not uncommon for large numbers of beetles to collect in and on automobiles and trucks during the period of flight, June 15th to September 15th in heavily infested areas.

Where To Secure Information

The State Horticultural Department, Extension Service, University of Maryland, College Park, should be consulted in regard to policies, information and control projects. W. C. Cranston, Dover, Del., should be consulted with regard to local quarantine activities.

It will be recalled only Election District No. 4, Kent County is now under quarantine. See your County for applications.

SHOPPING JEFFERSON'S

Well, well, so you're going to make a new dress, are you? Three cheers and a hurrah! Maybe you got the idea from seeing the steady stream of customers going in to Jefferson's to look at the new Butterick patterns, and the airy new materials that have just come in. After all, it's so easy to do these days, and with those cunning Peter Pan Prints at only 29c a yard, to say nothing of crisp Flaxons at 25c and that Swanky new cotton mode to LOOK like linen without its defects,—and the lovely lacy meshes,—oh well any of them makes a grand dress at a total cost of about $1.50 including a pattern. By the way If you know how to crochet better get out the old needle and start. For the smartest trimmings for these cottons is hand crocheted lace, monograms and so on.

And to wear under these new dresses' you make, nothing could be nicer than Jefferson's new white crepe slips trimmed with lace for $2.95. And don't forget the new Vanity Fair undies of lacy knit as light and cool as a cobweb.

Of course there are bound to be some of us too lazy,—or is it politer to say too busy?—to make our own dresses—If so, here's a hint or two for them. A cotton voile dress hangs on the rack at Jefferson's that's a perfect hot weather dress for a woman taking a rather large size. It's in soft creamy brown, very flattering and comfortable to wear—and being brand new and fine quality, it's a find at $5.75. For somebody smaller and slimmer there's a darling yellow dress tucked away in a drawer. It's just TOO darn good looking. Get Margaret Jefferson to let you try it on. It will be right only, I warn you, on just that slim smart person who has a flair for THE last word in frocks.

And oh,—I say—Buttons! Every cable from Paris simply jitters about buttons. On things. And Mr. Jefferson's got a real collection. Kinds you won't see elsewhere. I can just see some big white pearl ones on that white-dotted navy blue material that's just come in—swell.

Assignee's Sale
—OF—
Small Farm
In Third Election District

Under and by virtue of the power of sale contained in a mortgage from George W. Johnson and Sarah E. Johnson, his wife, to Ella S. Crow, Executrix of Owen B. Crow, dated the 3rd day of June, 1920, and recorded among the Land Records of Kent County, Maryland, in Liber A. P. R. No. 6 Folio 574, and which mortgage was on the 31st day of May, 1932, assigned to Herbert E. Perkins for collection, the undersigned, as Assignee of said mortgage, will offer at public sale to the highest bidder in front of the Court House Door in Chestertown, Maryland, on

Tuesday, July 5, 1932

between the hours of 11.30 a. m. and 12.00 o'clock noon.

All That Lot of Land

situated in Third Election District of Kent County aforesaid, on the road leading from Betterton into Still Pond Neck, and public road leading from Coleman's Corner to Betteron, adjoining the lands of Mr. Hary Willis, and containing.

44 Acres

of land, more or less,

and now occupied by George W. Johnson and wife.

The improvements consist of a 2½ story frame dwelling with 6 rooms and attic, and with out-buildings of stable, wagon shed, meat house and hen house.

Fifty and Fit

A MAN is as old—or as young—as his organs.

At fifty, you can be *in your prime*.

Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?

There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin. It will make a most amazing difference *in many ways*.

This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pepsin. It starts its good work with the first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid the system of that slow poison that saps your strength. It's better than a tonic for tired bowels, and unlike habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can *avoid* those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older. Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation.

Tax on Bank Checks

The new Revenue Act of 1932 provides that on and after Tuesday, June 21st, 1932, a tax of two cents shall be collected on "checks, drafts, or orders for the payment of money, drawn upon any Bank, Banker or Trust Company; such tax to be paid by the maker or drawer."

Collection is required to be made by the Bank or Trust Company by charging the amount of the tax against the account of the maker.
