ALTHOUGH MARYLANDERS were very much disappointed that Governor Albert C. Ritchie did not win the Democratic nomination last week at Chicago, they have the assurance of a very able team in Roosevelt and Gardner. These two men are outstanding Democrats and it is popular opinion that they will lead the Democrats to victory in November. The fact that Roosevelt had a large majority of the votes at the convention on the first ballot, proves his popularity in the various States of the Union. Garner's record as speaker of the House will materially strengthen the ticket and there is no reason why this ticket should not get a large majority in Maryland at the coming election.

THINKS ROSEVELT WILL WIN

GOLDSBOROUGH FAVORED RITCHIE'S NOMINATION

Washinpton, July 1—Representative T. Alan Goldsborouyh, First Maryland District, tonight sent the following congratulatory message to Franklin D. Roosevelt:

"My dear Governor Roosevelt:

Until the nomination for President was made by the Democratic Convention in Chicago I was supporting Governor Ritchie, the distinguished Chief Executive of my own State of Maryland, who is so justly popular throughout the country and who is probably the most prominent political figure the State of Maryland has ever produced.

Victory In Prospect

"Now that you have been nominated, it gives me great pleasure to say that in my judgment your leadership will carry the Democratic party to victory at the coming election and that your great qualities of mind and heart will, after March the fourth next, give to all the people of the United States an economical, wise and just administration of their public affairs.

"Poverty in the midst of plenty, want in a land with producing power sufficient to sustain all our people in comfort and reasonable luxury, is a dreadful anomaly, for which the party which has been in power for the sixty-seven years since the Civil War, (with the exception of sixteen years) and continuously since March 4, 1921, is directly responsible.

Offers Congratulations

"The problem of production in this country has been solved, the problem of distribution involves the spiritual conception of a cooperation which can utilize with justice our tremendous productive capacity. In the country's time of trial I believe that you will rise in full measure to the demands of the hour, and I congratulate you most heartily, most sincerely, and most deeply upon your nomination to the highest political office in the gift of the people of the world.

Very sincerely yours, etc.

AGRICULTURAL NOTES

(BY County Agent J. D. McVean)

FIND JAPANESE BEETLE HERE

Mr. Littlefield, in charge of Japanese Beetle traps, recently reports that eight beetles have been trapped to date in Chestertown. All have been found along Washington avenue. This number is greater than the catch in two months last year. It is to be hoped that all the beetles will find their way into the traps.

INSPECT KENT WHEAT FIELDS.

Professor F. W. Oldenburg, of the Extension Service, recently made an inspection of thirty-four unselected Kent wheat fields. The purpose of the visit was to determine the Smut situation and the prevalence of other diseases. He also examined fields for those who desire to sell high class wheat or barley.

The inspection reveals each year the importance of treating seed wheat or barley for the control of the Stinking smut or Bunt or Covered smut. This smut cuts eight or ten cents per bushel off the price of wheat. It therefore, is very importaant to control or prevent the smut especially when price per bushel is low.

When wheat, suitable for seed use, is properly treated with the Copper Carbonate Dust, it is very effective in controlling the smut. It is not safe to assume that seed wheat does not need treatment. Smut balls may be carried by threshing machines and thus infest clean wheat. Seed treatment of good seed is insudance.

SHOPPING JEFFERSON'S

Ho, Shoppers! Rally Round!

I've just had a perfectly world-shaking idea! Let the children wreck each other and the dinner burn for a minute or two while you gather round. If there be any among you who get a great kick out of discovering something—or of getting something for nothing, you'll be simply mad about this idea. Remember reading not long ago about the wealthy lady born of the very elect of New York and Newport Society who started a new fashion both here and abroad by cutting up a patchwork quilt to make a sport coat?

Well, here's your chance to start a fad. Of course you've read lots about how smart, Seersucker is this year, especially the kind called "Shir-o-Shakkar." Every woman and girl who can by hook or crook or honest means acquire a "Shir-o-Shakkar" dress has done so. There's one just come in at Jefferson's that is too absolutely swank for words.

But any kind of striped crepe weave is darn good this summer, and usually expensive. But hark! Here's how to beat the game. At Jefferson's there's a neat pile of cotton bedspreads in lovely soft colored and gorgeous stripes and crepey weave. They've been over-looked somehow. They're really charming. But take one of these crepey striped spreads, cut it up and make it into a sports dress, and shades of the French Designs! What a smart adorable dress you'd have—all for $.75!

These items also are worthy of thought—tho if you're nervous by now you might just rescue the dinner and spank the children. There are some new handbags of rough crepe, blue, white or natural for a dollar. Trick metal belts for cotton frocks, reduced to $.50. New hankies in cute polka dots or hand applique. Good underslips in white silk for $1.19. And those cool lattice woven sandals for $1.59.

There you are!

LYDIA LEE.
