CHURCH NOTES

Christ Methodist Protestant Church
Rev. E. A. Sexsmith, D. D., Minister

The following services are announced to which you are cordially invited. Visitors in our community are given a special welcome.

Sunday School at 10:00 A. M., directed by Mr. W. R. Huey, Superintendent. Lesson subject, "The Meaning of the Passover." Exodus 12:21-28.

Morning Worship at 11:00 A. M. The address will be delivered by Mr. G. W. Crabbe, Superintendent of the Anti-Saloon League of Maryland.

Evening Worship at 7:30 P. M. Gospel song service and illustrated sermon by the pastor.

Prayer meeting Wednesday evening at 7:30 o'clock. A service of meditation, prayer and praise, a spiritual help to all. "They that wait upon the Lord shall renew their strength."

Lutheran Mission
West High Street
George Horn, Pastor

Sunday School and Service combined, begins at 2:30 p. m., on Sunday.

The Service will be omitted entirely on Sunday, July 24. This is to give the Pastor, members and friends an opportunity to attend the Mission Service of our sister-congregation at Preston. The Rev. L. Geiger is Pastor of this congregation. A German Mission Service will be held in the morning, at which Pastor Horn will preach, and an English service will be held in the afternoon, Pastor P. Amt of Cordova preaching the sermon. All are cordially invited to attend these services.

On Sunday afternoon the Pastor baptized James Arthur and Robert Usitlon, the twin sons of Mr. and Mrs. Charles Coleman. By this "washing of regeneration and renewing of the Holy Ghost" (Titus 3, 5) these children have been made the children of God and heirs of eternal salvation. We wish them and their mother the blessing of the Lord.

Kennedyville M. P. Church

J. McLain Brown, pastor. Sunday School at 10 a. m. under the direction of Mr. R. C. Young. Morning worship at eleven o'clock. C. E. Society at 7.30 p. m. leader, Miss Sarah Willis. Brief address by the pastor at 8 p. m.

Chestertown M. P. Church

Rev. Frank White, Pastor. Visitors to ou rtown are cordially invited to worship with us.

10 a. m. Sunday School in all departments under direction of J. S. Kreeger, Supt. 11 a. m. morning worship with sermon by the pastor. 7 p. m. evening praise service. One hour of joy in song and meditation with short sermon by the pastor. Young people are especially invited to this service.

Wednesday 7.30 p. m. Prayer Meeting.

Monday, July 25th, The Second Quarterly Conference will be held in the church.

Next Thursday, July 21, our Sunday School will picnic at Tolchester.

St. James M. P. Church

Rev. J. Lee Marker, minister. 10 a. m. Sunday School, George Carroll, superintendent. "The Passover" will be the lesson. All are welcome. 11 a. m. regular preaching service. Special music by the choir. 7.30 Christian Endeavor, subject, "How Far Do The Teachings of Jesus Affect Our Conduct?" Let us have a fine attendance. This service will do you good.

Lynch M. P. Church

2 p. m. Sunday School, lesson, "The Passover". All are welcome. 3 p. m. regular afternoon service. Preaching by the pastor. 7.30 p. m. Christian Endeavor led by Mrs. Edith Brice on the subject: "How Far Does the Teachings of Jesus Affect Our Conduct.

AGRICULTURAL NOTES

(BY COUNTY AGENT McVEAN)

MD. HORT. SOCIETY SUMMER MEETINGS JULY 22

Summer meetings of the Maryland Horticultural Socfety will be at three points rather than at one central meet. The program of speaking will be the same at each place. The principal topic of discussion will be present conditions in the fruit industry

The speakers are: J. A. Cohill, a prominent orchardist: Dr. E. N. Cory, Dr. T. B. Symons, Dr. J. H. Beaumont, W. Paul Walker, and A. P. Vierheller all of the University of Maryland.

The general plan for each meeting is. Asemble at a designated place, tour a few nearby orchards, lunch each grower furnishing his own, followed by a brief program of speaking and discussion of the following topics, "The General Market Situation," "Foreign Market Conditions," "Insect Damage as Affecting Marketing," "Banker and Fruit Grower Relationships," and "Comparisons of Fruit Growing with Other Types of Farming."

The hour of meeting in each case is 9.30 a. m. the gathering places and dates of meetings are, Smithsburg on Monday, July 18, at Bel Air on Wednesday, July 20th and at Easton on Friday, July 22nd. The latter is the Eastern Shore Meeting. Gather at the orchard of Otto Sanger near Easton at 9.30 a. m.: tour the Sanger and the Wilcox orchards—then to Orchard Knob, near Dover bridge, for lunch and program.

Mr. G. L. S. Carpenter, Hancock is president: G. R. Canby, Ashton is Secretary: A. F. Vierheller, College Park, is Asst. Secretary and Treasurer.

JAPANESE BEETLE HERE

The trapping of Japanese beetle in Chestertown causes alarm among those who realize the seriousness of the situation which will soon be upon us unless united effort is made to the beetle in subjection. The individual and the community may do much to retard the onrush of the beetle horde.

State Entomologist Dr. E. N. Cory makes the following as practices and precautions for consideration and use:

1. Cooperate with State and Federal Agencies.
2. Obey Quarantine regulations, see County Agent for details.
3. Trap, handpick and destroy beetles. Traps not needed until beetle is found on your premises.
4. Buy and plant only materials from uninfested areas or certified free of beetle. No Maryland nursery is known to be infested.
5. Watch your garden, flowers, and shrubs for beetles. Report suspicious beetles to County Agent, State Entomologist, or Japanese beetle man.
6. Cooperate with neighbors and civic organizations in controlling, collecting and destroying beetles.
7. Examine your car or truck before re-entering the county after trips in infested areas. Kill the beetles. They are apt to alight on car or truck between June 15 and September 15th.
8. Garden Club and Civic Organization leaders are urged to learn of the beetle, its habits, havoc etc., then make efort to enlist effort to control or repel the pest.

Prevention is better and cheaper than cure. In either case teamwork is necessary if satisfactory results are to be obtained. The beetle can be controlled through sprays, soil treatment and traps. Selection of trees, shrubs, and ornamentals (for present and future plantings) which are least subject to beetle attack is desirable. Sprays cost up to $10 per acre for trees varying with kind and size. Soil which prevents grub damage is expensive. Traps cost around $1.00 not including bait. Commercial control is not yet needed in this county but with heavy infestation within 15 miles of Kent's borders, we should all make an aggressive effort to repeal the impending invasion.

SCRUB BUCKS DESTROY SHEEP PROFITS

RAM SHOW AT CENTREVILLE JULY 26TH

Scrub bucks are costing Maryland farmers more money annually than their losses due to lightning, according to K. A. Clark, Animal Husbandman, University of Maryland Extension Service, College Park, Maryland. In a recent statement he says "Just as lightning does damage when it strikes a house or a telegraph pole or a mule, so does a scrub buck do damage when turned into a sheep flock. When lightning strikes, the news spreads all over the county by the next day, but if a scrub buck strikes off $50 or $100 from the lamb check, nobody thinks or does or says anything about it. The nature of the damage may be a little different, but in some ways the two are comparable. The scrub buck is an oportunist. He damages the quality of lambs he sires. His offspring yields an inferior wool of low value. He undermines the financial status and security of his owner. He helps to reduce the price of lambs in the fat lamb market which wants smooth, plump, prime lambs by compelling it to absorb his cheap, nondescript, scrub offspring. Whereas lightning is generally conceded the considerate behavior of never striking twice in the same place, the scrub buck keeps continuously and insidiously on the job to degrade his flock. It has been shown that lambs sired by a scrub buck are worth less in the market by about $2.00 per head than similar lambs sired by thick, lowest, purebred rams. When you apply this to whatever portion it affects of the 30,000 to 40,000 lambs raised in the Upper Shore counties every year, it is easy to calculate in dollars and cents the tremendous added income possible if every flock owner would use a good purebred ram. You can insure yourself against a loss if lightning should strike, but you are the loser if you let a scrub buck damae your lamb crop. Let a good purebred ram be yous insurance against such a loss."

Mr. Clark is manging the sixth Annual Purebred Ram Show and Sale which will be held in Centreville, Tuesday, July 26th, beginning at 1.00 p. m. Several Pennsylvania and Maryland Breeders are sending entries to this event. Sheepmen everywhere are invited to attend.

Price, cf,	4	0	1	4	0
Crawford, 1b,	4	1	0	7	0
Craig, p,	3	1	0	1	2
C. Webb, lf.	2	0	0	2	0
2McCoy, ss,	4	0	1	0	0
B. Boulden, c,	1	0	0	8	2
3O. Boulden	1	0	0	0	0
Total	34	3	5	27	8

1 Relieved C. Webb in 7th.
2 Relieved Alderson in 7th.
3 Batted for McCoy in 9th.

The score by innings:
Barclay ..... 0 0 1 0 0 0 6 0 0—7
Cecilton ..... 0 0 0 0 2 0 0 1 0—3

Batteries—Palmer and Thomas; Craig and Boulden.

CHURCH HILL 10—CHESTERTOWN 8

Chestertown failed to overtake Church Hill's lead when they scored three runs in the eighth inning. Up to that inning Church Hill was leading 8 to 4 plus two more made in the ninth Errors in the first part of the game gave Church Hill a 5 run lead in the first two innings.

The lineup and summary follows:

CHURCH HILL	AB	R	H	O	A
Berry, 2b,	6	4	4	5	2
Leverage, ss,	5	1	0	1	1
Powell, 3b,	5	2	2	1	0
Walls, c,	5	0	2	9	0
Heathers, 1b,	6	0	1	6	0

R. Wheat, p,	4	0	0	2	0
2Cornell, cf,	3	1	2	0	0
Total	38	8	8	27	12

1 Relieved LeCates in fifth.
2 Relieved Wright in fifth.

The score by innings:
Church Hill .. 2 3 0 3 0 0 0 0 2—10
Chestertown .. 0 0 1 0 0 3 0 3 1— 8

Batteries—Vodvarka and Walls; R. Wheat and E. Wheat.

ROCK HALL 5—SUDLERSVILLE 0

Rock Hall continued it winning streak by shutting Sudlersville out with a 5 to 0 score. Bill Loller's record of allowing only one safe hit while his team-mates were accounting for 11 made a sure victory for the winner of the first half of the series. Grant's and Loller's single followed by Archibald's double totaled two runs which was enough to assure victory.

ROCK HALL	AB	R	H	O	A
R. Grant, c	4	2	2	8	0
Loller, p,	5	2	2	1	2
Archibald, 1b,	5	0	4	13	0

Sudlersville	0	0	0	0	0	0	0	0	0

Errors—Jones, S. Smith, two base hits Archibald 2. Base on balls off Loller 2, Rawley 3. Struck out by Loller 7. Rawey 8. Left of base Rock Hall 7. Sudlersville 1. Double play J. Williams to F. Williams to Archibald, Jacob to F. F. Williams to Archibald, Betz to Johnson to Smith. Stolen bases Oliffe. Time of game 1 hour 30 minutes. Umpire Horsey.

ROCK HALL HITS 320

BASE BALL TEAM HAS TEAM HITTING AVERAGE OF .320

TWO GAMES AT ROCK HALL JULY 23

Rock Hall, Md.—Rock Hall base ball team will play two games on July 23rd. The first game will be with Chestertown at 1.30 p. m. The second game will be with the 12th Ward of Wilmington, Del., immediately after the game with Chestertown is over. The 12th Ward game was scheduled for July 4th but because of rain the game was postponed. There is no advance in admission and one admission is for both games.

Individual batting averages for the first half season of the Rock Hall team are as follows:

Roch Hall Base Ball Club

	AB	H	PCT
Legates	29	13	.448
Fitzgerald	32	14	.438
Loller	48	17	.354

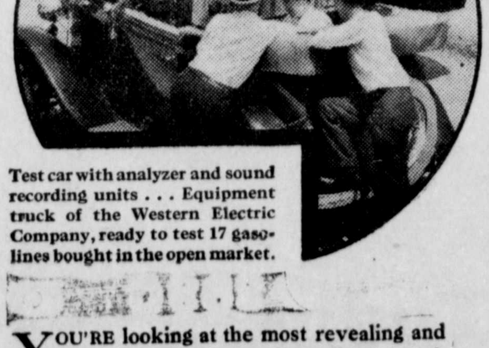

Electric Ear* picks anti-knock winner!

Proves new Tydol leads 17 gasolines in anti-knock quality

Electric Ear GIVES VERDICT

With amazing new sound-recording equipment, engineers triple-check *true* knock-rating of 17 gasolines *on the road* . . . New Anti-Knock TYDOL wins.

Test car with analyzer and sound recording units . . . Equipment truck of the Western Electric Company, ready to test 17 gasolines bought in the open market.

YOU'RE looking at the most revealing and accurate road-test ever made of anti-knock quality. It's the first test of its kind ever run.

It's a knock-test that's down to earth. Made on the road. Made on the hills where your own car knocks.

17 non-ethyl gasolines were bought at roadside stations. They were tested in the same car, under uniform conditions of speed, load and grade. And the new Sound Meter—the amazingly sensitive "Electric Ear"—listened in . . . caught the faintest ping and the loudest pound . . . And, for the first time, registered the facts about anti-knock quality under actual road conditions.

The New Anti-Knock TYDOL won its place at the head of the list. Because *actual* anti-knock quality has been built into it. Because its thrust of power has been smoothed and silenced at the refinery. Because millions have been spent to give it premium performance at no extra cost. Compare it today with any gasoline.

8 PREMIUM FEATURES AT NO EXTRA COST

1. Anti-Knock 2. More Power 3. More Miles
4. Quick Starting 5. Gum-Free 6. Acid-Free
7. Stall Proof 8. Always Uniform

DECIBEL KNOCK CHART

*"ELECTRIC EAR" is the popular name for the new and amazingly accurate instruments which record-sound in decibels. The "Electric Ear" was perfected by the Electrical Research Products, Inc. These same super-sensitive instruments were used by the Noise Abatement Commissions of America's leading cities.

This test conducted and computed by ELECTRICAL RESEARCH PRODUCTS, INC. Subsidiary of WESTERN ELECTRIC COMPANY

	DECIBELS
NEW TYDOL	2.8
GASOLINE J	3.2
GASOLINE O	3.5
GASOLINE L	3.7
GASOLINE R	3.7
GASOLINE X	4.5
GASOLINE P	4.6
GASOLINE I	4.6
GASOLINE M	4.7
GASOLINE D	4.9
GASOLINE G	5.0
GASOLINE Q	6.0
GASOLINE C	6.4
GASOLINE F	6.9
GASOLINE A	7.1
GASOLINE K	7.2
GASOLINE N	7.7

A DECIBEL is an engineering unit denoting volume and intensity of sound. In this test the lowest decibel rating (new Tydol) indicates the best anti-knock gasoline.

new ANTI-KNOCK **TYDOL** AT NO EXTRA COST
