TWO CHILDREN WERE hit by motorists in Kent county this week. From the report of witnesses both accidents were unavoidable. In one case the motorist stopped and gave all possible assistance and has the sympathy of the community for the sad affair. In the other accident, the motorist did not stop but used every possible means to escape and hide his identity. He is now in Kent county jail held under a number of serious charges as a hit and run driver. By simply obeying the laws of the State and humanity, as did the other motorist he would possibly be free of guilt in the eyes of the State and the people. Automobile laws are designed to protect both the motorist and pedestrain and a close observance is necessary if the rights of all are to be respected.

THE VARIOUS FIRE companies in Kent county have held or are planning to hold their annual carnivals to raise funds for the maintenance of their fire equipment. Other counties have abandoned the carnival idea this year due to the financial situation. In Kent county the carnivals have proved the only successful means of raising sufficent funds and the communities have given them hearty support. This support is necessary this year and it is entirely within the hands of the community as to whether the local companies are to be kept in the present high state of efficiency. Lack of funds may prove very costly and although money is scarce, an sufficient fire company is a very good investment.

SCIENTIFIC
because Fully Automatic

Kelvinator refrigeration is scientific, because it eliminates guess-work and hand-adjustment. The four zones of cold are constantly and automatically maintained.

(1) Food preservation temperature is constantly below 50°. (2) The Frost Chest, for meats, fish and game, is always below freezing. (3) Ice cube trays, constant, rapid freezing. (4) World's Record Fast Freezing Speed, for freezing desserts or ice cubes in a hurry—always.

Come in and let us explain how the *fully automatic* Kelvinator maintains these four distinct temperatures constantly; also how fully it covers the 16 requirements of the Standard Rating Scale.
