TO IMMUNIZE AGAINST DIPHTHERIA

HEALTH DEPARTMENT WILL IMMUNIZE AGAINST DIPHTHERIA

LOCAL HEALTH DEPARTMENT PLANS SCHEDULE FOR INNOCULATION

As a part of the program of the Health Department in combating the spread of diphtheria immunization will be offered to children of the pre-school and school age. During the past few years toxin-antitoxin has been the material used in this work. More recently a serum known as TOXOID has been developed which is universally used in immunizing children up to the age of eight against diphtheria. Toxoid is more desirable in that there is less reaction, there is a higher percentage of children who receive immunity, and it only required two injections a month apart.

Kent County has one of the largest percentages in the state of children both of the school and pre-school age who have availed themsleves of this protection.

There cotinues to be a number of cases of diphtheria each year and the disease is often more prevalent with the opening of school when children are brought together in large groups. This fall has seen a number of cases distributed over the county.

The Health Department will begin the immunization clinics on October 13th. The following schedule shows the date, hour, and place where the health office and nurse will be. Parents are urged to bring their children of the pre-school age to the school so that they may receive the protection against diphtheria.

Toxoid Clinic Schedule

The following schedule shows the time and place where the various clinics will be held, the hour of the clinics are the same for each of the two days in the various localities as follows:

DR. WILSON SUTTON

MAY BECOME RECTOR OF TRINITY PARISH, NEW YORK

The following article appeared in the New York Times this week:

"The vestry of Trinity Parish failed to elect a new rector for Trinity Protestant Episcopal Church, Broadway, at the head of Wall street, at a meeting ysterday afternoon. The rectorship has been vacant since the death on June 15 of the Rev. Dr. Caleb R. Stetson.

"The standing committee of the vestry was designated to nominate a rector, and George F. Crane, senior warden and controller of Trinity Corporations was made the chairman. The vestry was in session more than an hour, after which Mr. Crane reported "progress."

"Mr. Crane said that when a candidate is selected the whole vestry will be called to hear the report and vote. He added that no names of clergymen had been read at the meeting. Between forty and fifty names have been received.

"The president officer was the Rev. Dr. Joseph P. McComas, vicar of St. Paul's Chapel, Trinity Parish, Broadway and Fulton, who is the acting rector of Trinity Church.

"Besides Mr. Crane, the standing committee, all members of which were present, includes John A. Dix, junior warden; Colonel George W. Burleigh, Lawson Purdy, Frederick H. Moore, Archibald M. Shrady and Dr. John B. Walker. Other vestrymen who attended were John Erskine, Stephen F. Bayne, District Attorney Thomas C. T. Crain, George Q. Palmer, George B. Ogden, Frank R. Outerbridge C. Aubrey Nicklas, J. Rutherfurd Stewart, Woolsey A. Shepard, Frederic J. Haley and Thomas H. Willard.

"It is reported that of the several chapel vicars the one most likely to be elected is the Rev. Dr. J. Wilson Sutton, vicar of Trinity Chapel, Twenty-fifth Street, west of Broadway. The rectorship o Trinity Parish, with a salary of $20,000, is regarded as the second most coveted office in the Protestant Episcopal Church, the first being that of Bishop of New York.

Dr. Sutton is a graduate of Washington College and is a brother of Mr. John C., and George W. Sutton, of this county.

Where Does She Get Her "Pep?"

SHE doesn't *look* seventy. Nor *feel* that old. The woman who stimulates her organs can have energy that women half her age will envy!

At middle-age your vital organs begin to slow down. You may not be sick, simply sluggish. But why endure a condition of half-health when there's a stimulant that will stir a stagnant system to new life and energy in a week's time?

This remarkable stimulant is perfectly harmless. It is, in fact, a family doctor's prescription. So, if you're tired of trying every patent medicine that comes along, tell the druggist you want a bottle of Dr. Caldwell's syrup pepsin. Take a bit of this delicious syrup every day or so, until you know by the way you feel that your lazy liver is again active, and your bowels are poison-free.

Men, women, and children who are run-down, who tire easily, get bilious spells or have frequent headaches, are soon straightened out when they get this prescriptional preparation of pure pepsin, active senna, and fresh laxative herbs. (Syrup pepsin is all the help the bowels need, and you do not form the very bad habit of always taking cathartics.)

Keep a bottle of Dr. Caldwell's syrup pepsin in the house, and take a stimulating spoonful every now and then. It is all that a great many people ever take to keep strong and vigorous, and absolutely free from constipation.
