Armistice Day Program Held

The morning of Armistice Day was the occasion for a joint meeting of the History Clubs. Colonel Schwab was the guest speaker. The meeting was called to order by Marian Reinhart, president of the 10B Club. The assembled class sang the first verse of "The Star Spangled Banner." Elizabeth Westcott then recited the poem "On Flander's Fields." The Pilgrims," a war poem, was read by Robert Hoopes. Charles Wheatley repeated the poem, "The Lark." "Peace," read by Baynard Harper, concluded this part of the program. Carrie Schrieber then introduced Colonel Schwab. His talk on his experiences in the World War was exceedingly interesting and he showed some pictures captured from a German soldier which gave us an idea of the war from the German trenches. A belt buckle such as is worn by German privates was also passed around. The "Iron Cross," the famous German decoration, which was awarded to the German aviator who shot down Quentin Roosevelt during the war was displayed by Colonel Schwab. A rising vote of thanks was proposed by Janet MacVean, the 10A president. The program was concluded by singing the first and last verses of "America." Mr. Blades then made a few remarks in which he invited Colonel Schwab to address the school again. We all heartily hope that he will accept the invitation.

Bake, Play And Book

A bake is to be held by the Commercial Department on Saturday at the N. B. R. Garage. The proceeds will be used to buy medals and awards for speed in typing and shorthand.

The Dramatic Club will present a play called "The Importance of Being Earnest" sometime before Christmas.

A book, "The Girl Today—The Woman Tomorrow," has been presented to the Home Ec. Department.

Science Club Holds Meeting

The newly-organized Science Club held its first meeting on Wednesday at one o'clock. The meeting was called to order by the president, Alice Marian Sterling, and Mary Margaret Eliason, the secretary read the minutes of the preliminary meeting. The advisability of holding meetings once a month and the proposed names for the club were discussed, but the final decision was postponed until the next meeting. The program was of especial interest to the biology section. Alan Joiner gave a short talk on the purpose and aims of the Science Club. The necessity for biology was outlined by Marion Towner. Elizabeth Fontaine gave a talk and showed pictures about fossils and prehistoric animals. An article was read by Mary Margaret Eliason telling of meteorites. Some of his personal experiences with animals were related by William Magee. The ringing of the second bell adjourned the meeting.

School Active In Sports

The Junior Field-Ball Team won their second game with Millington at Millington on Tuesday. The score was 8-8 at the half and 14-20 when the final whistle blew. A practice game is to be played with Millington here on Tuesday.

The soccer team played a "town team" on Tuesday also. The final score was 3-0 in favor of the other team.

Thursday is to be the day of the "battle-royal" with Rock Hall. Come up and see the games.

We wish to show our appreciation of the fine spirit of the Millington team. A team that will cheerfully play with a substitute from their elementary school is one that we are proud to play. If their numbers were as large as their spirit, Millington would be a dangerous adversary.

SAFETY FIRST

THE PUBLIC should be prudent in seeking relief from pain. Take nothing which does not have the approval of the medical profession.

BAYER ASPIRIN will never do you any harm, and almost always brings the desired relief. But remember that the high medical endorsement given Bayer Aspirin does not apply to all tablets for relief of pain.

THE DOCTOR is careful to specify *Bayer* Aspirin for these important reasons:

It has no injurious ingredients. No coarse particles to irritate throat or stomach. Nothing to upset the system. Not even any disagreeable taste. The Bayer process insures a pure, uniform product.

INSIST on the tablet you know to be *safe*. And the one that has *speed*. Bayer tablets dissolve so quickly, you get immediate relief from your headache, neuralgia, or other pain.
