THE PRESENT Administration bills in the Maryland Legislature point to a large reduction in the tax rate of the various counties in the State. Our local representatives are keenly aware for the necessity of a large reduction in Kent County and are using their influence to secure for this county its share. The present prospects point to the lowest rate here that has been enjoyed for many years. The County Commissioners are considering every possible reduction in local expenses that can possibly be made.

Quality and Price

When purchasing merchandise the buyer takes into consideration two important factors — Quality and Price. Some buyers, rightly, place Quality first while others consider the Price of an article as paramount.

At Sterlings the two are combined: For QUALITY Drug Store merchandise our PRICES are as low, if not lower, than those at other stores.

"Character is What You Really Are. Reputation is What Other People Think You Are"

Character is the Most Important Thing to Acquire, and the One Thing That Each Person Must Get for Himself

You cannot get character any other way than by winning it. No substitute can procure for you the capital prize in the game of life. Your parents cannot give you character. It is every man for himself. Heredity is overvalued. One may inherit characteristics—but not character. Your conditions, your temperment, your family, your abilities, your weaknesses are the elements out of which you must form that supreme thing —character.

It is not things that matter; it is all in the way you look at things—your attitude of mind.
