A BILL OF interest to every tax payer in Kent County was introduced in the Maryland Legislature this week by Senator Sasscer. This bill would mean a reduction in the Kent County tax rate of approximately 43 cents in Kent's road expenditures. Although the County Commissioners Association objected to some of the details of the bill, the proposed tax reduction will be welcomed by the taxpayers. The bill is a temporary relief measure and is for a two year period with the thought of enacting it into a permanent measure of it proves a success. Objections have been expressed to this detail with the thought that it should be made a permanent measure now.

My dear Editor:

Farmers are queer "beasties," are they not? They strenuously object at times to information as given by our County Agent, Mr. McVean, to us as farm owners who realize that we must be kept up-to-the minute, if we want to accomplish anything.

But none of them are against doing the things WE do, after Mr. McVean has advised that they should be done.

In other words, the good points in production or grading are contagious. The things we are advised to do if we do them, are soon done by all in the neighborhood. What is done on the farm or one man, is copied by ten or more, whether they believe in the Government helping the "underprivileged" or not.

So the words of the loquacious brothers in the tax meeting must not be taken too seriously, for farmers WILL do as their neighbors do, sometimes without asking why. The things seem sensible and are followed by those who disapprove of asking for information, from the man paid by the government to get it for us.

And as it was clearly proven that the turkey money of the women is paying taxes, was it not unfair to allow the men to vote on the question of additional help for the women in their work?

Voter.

To the Editor:

If the Eighteenth Amendment is to be repealed what is to take its place that is better?

Many wets favor the Canadian government control plan. Before we adopt it, let us see how it works.

Dr. Jimmie Smillie, chairman of the Liquor Investigating Committee, of Canada says: "Under the system of government control of liquor in Canada drinking among women is on the increase because of accessibility of liquor in the home. This not only debauches womanhood, but endangers the lives and destroys the morals of the children. There is no greater danger to a nation that drinking among its woman.

The Montreal Star says that under government control in Canada "drunkenness among women has increased 53 per cent."

The Dominion government at Ottowa state: "Arrests fo drunken driving increased 1,300 per cent. in six years: alcoholic deaths doubled."

The Alberta Liquor Board report shows increased drinking, "60,000 permits issued the first year, 144,000 two years later."

"In 1920 when Canada was partially dry "there were four distilleries and 57 breweries. In 1931, 27 distilleries, 86 breweries all privately owned and operated," independently of government plants.

The Saskatchewan Liquor Board, reported an increase of 117 per cent in bootlegging the first year.

The British Columbia Liquor Board reported. "As much liquor is sold by bootleggers as it sold in the government stores."

The Minneapolis Journal says editorially: "The mayor of Winnipeg finds conditions there a thousand time worse than under prohibition."

"Character is What You Really Are. Reputation is What Other People Think You Are"

Character is the Most Important Thing to Acquire, and the One Thing That Each Person Must Get for Himself

You cannot get character any other way than by winning it. No substitute can procure for you the capital prize in the game of life. Your parents cannot give you character. It is every man for himself. Heredity is overvalued. One may inherit characteristics—but not character. Your conditions, your temperment, your family, your abilities, your weaknesses are the elements out of which you must form that supreme thing—character.

It is not things that matter; it is all in the way you look at things—your attitude of mind.
