WHILE THE BANKING situation seems to be clearing up there is no definate promise as to when the banks will open. Local bankers are meeting daily to keep in touch with the situation and are in daily contact with State and National officials. Confidence in these men that they will assist in every way to bring about a solution of the present problem is the best advice that we can give. Nothing can be done by the individual and confidence in those who are in a position to act will at least give peace of mind and relieve anxiety.

"Character is What You Really Are. Reputation is What Other People Think You Are"

Character is the Most Important Thing to Acquire, and the One Thing That Each Person Must Get for Himself

You cannot get character any other way than by winning it. No substitute can procure for you the capital prize in the game of life. Your parents cannot give you character. It is every man for himself. Heredity is overvalued. One may inherit characteristics—but not character. Your conditions, your temperment, your family, your abilities, your weaknesses are the elements out of which you must form that supreme thing —character.

It is not things that matter; it is all in the way you look at things—your attitude of mind.

Yes, indeed, eyestrain is a "bad actor." The *only* way to make certain that you are not suffering from eyestrain is to visit a competent Optometrist for an examination.
