The Curbstone Diplomat

BY WILLIAM S. COLLINS

Well the news certainly spread Wednesday, that Mrs. Franklin Delano Roosevelt was among the guests at Mrs. Hubbard's home. The rumor spread and soon it was stated as positive fact that Mrs. Roosevelt was in town. Somebody called up Mrs. Whaland to ask her if the report was true and Mrs. Whaland communicated with Mrs. Hubbard and soon the official news came through that Mrs. Roosevelt was not present. Just another false rumor.

Somebody complained the women at the reception all had republican chauffeurs.

Two weeks ago in "The Broadcast" we mentioned that an old oak at St. Paul's had been cut down and that people interested should go down and get a chip from the trunk for a souvenir. Well they did go and another paper last week mentioned the fact also and more went. When the owners went down this week there was not a stray chip to be found. One souvenir hunter paid the sexton of the church 50 cents to saw off a little piece. The sexton offered this to the owners. Anyone else wishing to pay for the souvenirs; bills will not be sent until the end of the month.

As rumor has it there was somewhat of a battle this week in the appointment of Judge Knotts. Mr. Owen Knotts, of Caroline, and Mr. Richard Evans, of Elkton, were outstanding contenders for the appointment after Mr. Beck refused.

With things nip and tuck between them Mr. Knotts received the appointment. The leader of Kent and the leader of Talbot struggled and Talbot won Mr. Knotts of Caroline fills the unexpired term of Judge Wickes and will run for election in less than two years. At the same time a chief judge will also be elected. The leader of Talbot, an able lawyer will probably be a candidate and have the solid backing of the two lower counties and a strong backing in Queen Annes. It is reported that he will have an opponent for the nomination.

When the fight starts about a candidate for the nomination of U. S. Senator a man close to some but not from Kent will be in the fight.

Judge Knotts is an able lawyer and should make an excellent judge. It is hard work and Judge Wickes has been overworked for sometime.

Chestertown lawyers will not have it so convenient now. It used to be slip around the street and see Judge Wickes. Now it will be go down to Centreville, and the lawyers from Cecil instead of coming 37 miles to Chestertown will not tack on 16 miles more which will be a round trip of 106 miles.

They say Cecil is very anxious to have a judge.

And now another rumor. At the Chestertown High School, the question is being discussed as what to wear for graduation. It has been the custom for the boys to get a new suit and the girls to get a new dress. This has been somewhat of an expense and due to the times a move is on to have a depression graduation.

One idea was to rent caps and gowns for the occassion which are not so expensive. SThis met an obstacle in the fact that the High School holds its commencement at the college, and it would not look right to wear caps and gowns as that is more or less college ways.

Thenthe suggestion came to have a real depression graduation and for the girls to wear calico and for the boys to wear overalls. Several debates on the apparel have been held and the last mentioned won by one vote. Just what will be done has not been decided.

One remark has been made that the boys would have to buy overalls anyhow as none of them had done enough rough work, so that they had never had to buy any.

If the customary dress for graduation is not used it will be hard on the merchants.

Now the pleasure boats have to pay a two cent a gallon gas tax. It is wondered just what the state does for a pleasure boat or some of the work boats. This money goes toward the road fund. There is one way the state could help the boats though and that is seeing that they get good draw service on the bridges.

Draw service at Kent Island Narrows has been improved a lot since the state built a new bridge and took it over. When Queen Anne's County had the bridge. It was even worse than the draw service the draw service was rotten; at the Narrows at the present time and that is plenty bad. Of course the state has nothing to do with railroad bridges.

The Power Squadron class at the Country Club went ot Havre de Grcae last Friday night to take their examination for membership in the U. S. Power Squadron Class. Six took the examination and it is thought that all passed. Simon Westcott has to hold both hands to his head when he boxes the compass backwards. This is the second class from Chestertown to take the examination as thirteen from here are already members. Plans are going forward for a party to be held in the near future.

Trucks vs. railroads is a fight that is being staged in most every state. It looks to me like in the end the railroads must win. I didn't own any stock either but so many influential insurance companies have and also the government has loaned them so much money it looks like protective laws must be passed to save them. Motorist associations are against Mr. Truck but their influence is not very great.

APPLY FOR CROP LOAN

The Kent County Crop Production Loan Committee reports there is considerable interest being shown in securing Federal aid, in order that they may secure seed, or fertilizer, spray material, feed for work stock, gas and oil for tractor, repair parts for farm machinery, etc.

Seven applications have been forwarded. Most of the loans are for relatively small amounts. No one is encouraged to borrow who can avoid it. These loans, however, will prove a God send to certain individuals. The period during which applications may be made ends April 30th. It is therefore suggested that any who realize they must have help, make application promptly in order that they may have the money for immediate use.

The County Agent is Secretary to the County Loan Committee and will offer any assistance possible in making the applications. The forms are at his office. During Court week the office will be upset due to its use by the Court. It is therefore suggested that applicants phone the County Agent at his residence No. 369 for appointments for filling out application blanks.
