SCHOOL DAYS — By DWIG

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

The material for the "Dragon" was sent to the printers on Monday. Even the majority of pictures were acceptable, although one boy in a group picture appears to have small pox. Only a little more than $110 is now needed to complete the payment for the "Dragon."

On Friday, May 26, the History Clubs plan to hold a final joint meeting. It is expected to be a fitting close to a successful year.

The Science Club will meet on Wednesday. A talk by Dr. Dana will be the main attraction.

President Alice Marion Sterling reports that a Literary meeting will be held in the near future.

The enrollments for the tennis tournaments are progressing well. Last year's champions are still in the running and several other entrants promise a good battle for the championships. If you play singles, doubles or mixed doubles join the Tennis Club and enter the tournament.

A practice game in volley ball at Sudlersville resulted in two games with Sudlersville and one with Greensboro. We lost to Sudlersville the first time, but won the second game by a good margin. Then we were defeated by Greensboro. The girls who played showed steadiness and ability and we hope to send another C. H. S. team to Baltimore if the squad continues to improve.

Miss Amery, the State Supervisor of Home Economics, and Mr. Robinson spent last Wednesday afternoon at C. H. S. The three upper classes are sewing during school and after school. Spring clothes seem to be the main product of all this industry. The Freshmen are to finish the study and preparation of breakfasts this week. The 9C Home Ec. Club gave a short program last Friday, during which a play, written by two of the girls in the class, was produced.
