The Junior class held a meeting Thursday afternoon during which the class officers were elected. Mark Wood was chosen president; Baynard Harper, vice-president; Myrtle Hadaway, secretary; and Betty Capel, treasurer. A committee was appointed to petition Mr. Blades for a Junior-Senior picnic. It has been heard, however, that the petition was refused.

"Anne, What's Her Name" went off splendidly last Thursday evening. Grandma and the temperamental maid with nerves were the main comedy characters and were splendidly acted. "Chick" should also be able to recommend Bill McCullough as an expert "valley." Even Alan Joiner and Rebecca Groves aren't quite small enough to pass as one and two years old. Don't breathe it to him, but who'd ever dream Maynard Porter would look well with a mustache. "Chick" Rasin and Elizabeth Fontaine were most satisfactory as the hero and heroine. Mr. Blades and everyone in the cast and the staff of helpers is to be congratulated.

The Senior Class and the faculty will be the guests of Mr. Russell at the movies tonight. We appreciate highly Mr. Russell's interest in the High School.

WOMEN'S CONTRIBUTION TO THE MOTOR CAR

There is some doubt that people care to hear very much about what goes on under the hoods of their cars.

The driver knows that "driving qualities" are not accidental; they are put there. How the manufacturer creates or evolves those results may not interest him. He judges entirely by the results he gets in driving.

Well, it is not essential to talk "shop"; let us talk Results.

Smoothness. Drive the Ford V-8 and you will find that the engine runs with surpassing smoothness, due to its design and the extra precise methods of its manufacture.

Power. There it is, 75 horsepower (we could say 80) at the driveshaft for the driver's use. With less weight to pull around, the mettle of this car---its life-like response---is rather remarkable.

Economy. Our V-8 develops more power on a gallon of gasoline than any car we have made. Mileage is partly a matter of individual driving, but under average conditions the Ford V-8 does 17 to 20 miles a gallon. Of course, car economy is not only a matter of fuel. Ford V-8 has that too, but it is also economical in the complete sense---initial cost, operation, maintenance.

Appearance. This is woman's contribution. The motor car must not only be useful, but also good-looking. View the Ford V-8 and you will not need our comment on its fine appearance.

Comfort. This also is woman's concern. In 30 years she changed the motor car from a wagon to a coach. Comfort is a quality made up of numerous ingredients. There is no comfort without a quiet, smooth-running engine. We have all the other ingredients too,---color, good taste, quality, ease, safety, roominess and convenience.

Take another look at your Telephone, Mr. Businessman!

Do you know how much business it can bring you?

Do you know how many people there are at the other end of the line who are at this moment reading your advertisements?

Do you keep your telephone door always open? Do you invite your customers to enter by this door?

You can do this by keeping your telephone number constantly before them in your advertising. On your stationery. On your bills.

Tell your customers how welcome they are to come to your store by telephone. Tell them again and again. It will bring results that may surprise you.
