## The Road To Better Health

SCHOOL DAYS
BY DR. WILLIAM J. SCHOLES

The summer vacation is about over. The youngsters are glad of it and thrilled with the prospect of going back to school. Yes, they are—NOT!

In most homes this paper reaches there are children of school age. Some are little fellows, going to school for the first time. Others have finished the grades and will be "Freshies" in High School. Some are through with "High" and going to College.

**Value Of A College Education**

It is for the latter group this is being written, because they are leaving home and the care and counsel of their parents. They are entering a new world with new associations and ideas. Where they will do things that will make or mar them.

Fortunate, indeed, is the boy or girl who can go to college, for—as President Lowell of Harvard said at the recent meeting of the Associated Harvard Clubs—"The time has passed when a man can rise without an education. The demand of the public for trained men is too great. There will be an increasing demand for academic education as the country develops and the work of men becomes more and more specialized."

**The Student's Obligation**

Young people should bear in mind, however, that a college is capable of turning out a finished product that is no better than the raw material with which it works. "You cannot make a silk purse out of a sow's ear," as the saying goes.

The word "Education" means to "draw out," not to "pour in!" So that any student who thinks all he has to do is sit there and have the teacher inject an assortment of useful knowledge into his cranium has another guess coming.

The young man whose mind is a sponge will succeed—the one whose mind is a sieve will fail. The one who thinks of his work first and parties last will succeed; the one who regards the college simply as a useless app appendage of his frat will fail. . .o man can attain the allaround success that can the college man; no failure is so abject as the college man who goes down.

**The Imortance Of Health**

Health is an essential to a successful college career. The young men or women who dissipate their vital forces in late hours, drinking, and vice cannot be good students. And there's plenty of opportunity at college for indulging a vicious bent in those so disposed. Don't do it. Remember the old adage, "Mens sana in corpore sano" (A sound mind in a sound body.)

Get plenty of sleep—eight hours is none too much. Exercise sufficiently to keep in good physical trim. Get enough healthful recreation to keep from growing dull.

Keep your eye on the future—on the sweep of years that lie before you—during which you will build your life's structure on the foundation whose caissons are these college days. Then you will construct a lasting foundation and the superstructure of beauty and a joy forever."

## Hints for the Household

FOR AUGUST
BY BETTY WEBSTER

DO YOU KNOW THAT:

1. Half a cup of peach syrup added to one cup of boiled salad dressing and beaten makes a delicious fruit salad dressing?

2. A slice of lemon rubbed on the hands removes all fruit stains and the odor of onions, as well?

3. Tomatoes may be peeled easily if they are dropped for a minute into boiling hot water?

**RECIPE**
**Muffins**

2 eggs
1 cup of milk
1 1-3 cups of flour
1 teaspoonful of salt
2 heaping teaspoonfuls of baking powder.

Beat eggs until light; add milk and beat well; sift in flour, salt and baking powder, beating constantly. Pour into well greased muffin tins and bake in hot oven. This recipe will make ten to twelve muffins.

**Stuffed Baked Onions**

Dabs of leftover meat, a little extra macaroni, and odds and ends from the refrigerator can make a topnotch luncheon dish if put together knowingly. About 3-4 cup of cooked macaroni blended with the same amount of chopped meat, a strip or two of bacon pan fried till crisp, and a few stems of celery cut up makes a perfect stuffing for six hollowed out fat Bermuda onions. Dash the tops with buttered crumbs and bake in a greased casserole into which 1-2 cup water has been poured. You'll want a slow oven (300 degrees F.) and about an hour's baking.

**Spaghetti and Sausage En Casserole**

Sausages and spaghetti are another well mated pair. You can combine them in a casserole dish, putting cooked spagghetti in the bottom with the sausages assembled spoke fashion on top. Over it all pour a can of tomato soup and about 1-2 cup of water. About 20 minutes in a moderate oven will finish the job.

**Noodle-Raisin Pudding**

This calls for 1 package of noodles cooked tender and combined with 2 beaten eggs, 1 quart of milk, 1-2 cup sugar, 1-2 teaspoon salt, and 2 cups of seedless raisins. Flavor with dashes of cinnamon and nutmeg. Bake in a moderate oven (350 degrees F.) until set, and then serve up hot with cream.

NO GRILLER, PLEASE

The mistress was giving the new maid, fresh from the country, a list of the household requirements.

"There you are, Alice," she said, "and don't forget we shall want a new griller for the kitchen, too."

Alice stared vacantly.

"Don't you know what a griller is?" asked the other sharply.

"I should think I do," replied the maid. "It's a big hairy monkey the size of a man. And if you want one of those in your kitchen I'm leaving at once."—Montreal Herald.

Tommy—Pa, what does money do when it talks?

Pa—It says good-by.

GREASED PIG

"Dad, what is influence?"

"Influence, my son, is a thing you think you have until you try to use it."
