Editor of Transcript:
Chestertown.

Dear sir, Will you kindly publish the following open letter in the next issue of your paper:

A delegation of parents of school children conferred with the Kent County School Board on Tuesday the 12th of September requesting they open the school at Golt to accomodate twenty three scholars, after having been refused two petitions for the same purpose.

We received a letter from the Superintendant of schools on Friday the 15th acquainting us with the knowledge that the school board had refused our request.

We were requested to send our children to the Massey school by bus, bus leaving Golt at 7.50 a. m.

We were told by the board that their only reason for closing our school was for the purpose of placing the children in a larger school where they would have a much better advantage, and that we would therefore please send our children to the Massey school.

We were informed by the Superintendant of schools that when our enrollment was thrown in with the Massey school that Massey school would have ninety eight scholars for two teachers. No school board could convince any one that two teachers could do as they should for 98 pupils as well as one teacher could for 23.

The Superintendant of schools stated that there would not be an additional teacher placed in the Massey school.

The Superintendant of schools was asked the number of schools in the county with fewer scholars than Golt school. His answer was one.

We find in the last issue of the Transcript that there are nine schools with fewer pupils than Golt or as few.

We find that this was a direct evasion on the part of the Superintendant to mislead the members of our school board. His answer will be that he was making his answer on 1932 enrollment, but we had already shown him that we had 23 or more scholars to enroll this year.

We complained about the early hour he was requiring us to send our children by bus. In our last letter from the Superintendent of schools he tells us that we can send our pupils to the Sassafras school if we object to the long ride. Why are we allowed to send our children to a one room school, smaller enrollment then our own if, as the school board told us, their only reason for closing the school at our village was for the purpose of placing them in a larger school?

With twenty-three scholars and with every parent objecting, with the entire community opposed to closing the school we cannot understand the action of the school board in treating us so unjustly and we are anxious for the public to know that at the time of this writing more than twenty children have not started to school and we feel that the advantages they are being deprived of its directly the fault of the school board, and not the parents.

These children will not start to school until the Gold school is opened, or until our school board can show us that there is enough unjust law to force us to send them elsewhere.

Respectfully,
W. G. WHAOLON,
Golt, Md.
