FAVORS BRIDGE PROJECT

ADVOCATE CONSTRUCTION IN LETTERS TO GOV. RITCHIE

The following letters were sent to Governor Ritchie this week advocating the immediate construction of the Chesapeake Bay Bridge:

November 9th, 1933

Governor Albert C. Ritchie,
State House,
Annapolis, Md.
Dear Governor Ritchie:

We are very much alarmed at the attitude you have taken in opposition to the Chesapeake Bay Bridge. If you were familiar with the amount of business on the Eastern Shore that is now going to northern points due to the inadequate transportation facilities between the Eastern Shore of Maryland and Baltimore, you would, most certainly, realize what the Chesapeake Bay Bridge would mean to the State of Maryland.

We are not satisfied with the ferry boat system, as they tell us when we can go to Baltimore and when we can come back by setting up schedules suitable to themselves. We are, furthermore, dissatisfied with the State subsidy that is paid to these ferry lines and feel that this money could be diverted and used in construction of the Chesapeake Bay Bridge, as there is no other line of business in Maryland that is subsidized and why should the ferry system have the subsidy.

In addition to the unquestionable value of the Chesapeake Bay Bridge to the State of Maryland, you have overlooked the fact of what the Chesapeake Bay Bridge would mean towards the unemployment situation in it's construction. This is another very important factor to be considered and there is no reason why the Chesapeake Bay Bridge loan should not be granted from the Public Works Administration.

I am very frank to tell you that the people in Kent County are very much up in arms on the stand you have taken in opposition to the Chesapeake Bay Bridge.

Very truly yours,
AST:ELM. A. S. TURNER & SONS

EXECUTIVE DEPARTMENT
Annapolis, Md.
November 10, 1933

Messrs. A. S. Turner and Sons,
Chestertown, Maryland.
Gentlemen:

I received your favor of November 9th. I am not questioning in any degree the desirability of the proposed bridge across the Chesapeake Bay or what its construction might do to help the unemployment situation. The one and only point I have made is that it is very problematical whether the tolls will be sufficient to pay interest and sinking fund on the bonds, and I do not feel justified in the present financial situation of having this project undertaken, built and owned by the State Government and having the Federal Government sell the bonds representing their loan to the general public with the result that the State would be under the moral obligation of making the bonds good in case the traffic was not sufficient. I have in the past made every offer I possibly could to help this bridge through State aid, but I have not felt justified in making it a State project. I feel that my first duty is to look out for the credit of the State, and the statement I published the other day made that very clear. I presume you read a full copy, but if not I will gladly send you one. I understand that it is not at all impossible that the objections I pointed out may be overcome. If the people of Kent County who you say "are up in arms" would take the trouble to read and understand what my position is, then I think they would realize that I am simply doing my obvious duty to look out for the security of the State's credit and not subject the State to the risk of what might be a financial loss.

Very ruly yours,
ALBERT C. RITCHIE.

November 14, 1933

Hon. Albert C. Ritchie
Governor of Maryland
Annapolis, Maryland
Dear Governor Ritchie:

At a meeting of the Chestertown Rotary Club last night I was directed to convey to you by letter the following facts:

We are unanimously of the opinion.

1. That the Chesapeake Bay Bridge is the most desirable and beneficial project that has ever been proposed for the State of Maryland.

2. That its construction at the present time would not only benefit the whole State but would provide employment to a large number of men who sorely need work.

3. That the Bridge is merely a part of the State Road System and a very important link, uniting as it would the two Shores of the State.

4. That the State is already committed to build the approaches, maintain, operate and insure the structure.

5. That the proposition made by the Public Works Administration is acceptable in every way except the question of credit of the State as raised by you.

6. That in view of the importance of this matter at the present time preceding the Extra Session of the Legislature, we desire to express the hope, in the strongest possible manner, that you will use your great influence with the Public Works Administration to the end that the formal contract shall be so drawn that no later objection can be raised and the much desire project can be brought to a happy consummation.

Very truly yours,
EVERETT S. LAMBDEN, Secretary to the Chestertown Rotary Club.
