COUNTY MERCHANTS REPORT A FAIR BUSINESS

With Federal funds pouring into the county the merchants report a fair Christmas business. All of the merchants report by far the best year since 1929. Some of the merchants report that they were unable to wait on their customers and it was as good a Christmas as they ever had. Many necessities were sold as usual but they report that many better quality things were bought.

The Mercantile Section of the Kent County Chamber of Commerce had Chestertown gaily lighted with colored lights and a free moving picture show was given at which a thousand children attended.

NOW AND THEN

LITTLE 34

Little New Year it is true:
We are glad to welcome you;
For we are through with Thirty-three;
And bid him goodby with alacrity.

Thirty-three you see, my dear,
Was not a very prosperous year;
Full of loss and care and strife:
Just a trouble all his life.

But we have such faith in you
All so fresh and nice and new:
All so innocent and pure,
You are different we are sure.

Dickens who is so full of humor and pathos is always quoted at this season of the year, for who ever wrote such delightful Christmas stories as he: As long as Christmas is kept, Scrooge and Marley and little Tim will be household words. And now that New Yark is on the way Mark Taply has a message for us, which, if we follow, will help us;

"What we've got to do is to keep up our spirits and be neighborly, we shall come out all right in the end, never fear."

Although everyone started out to have an ecomonical Christmas it ended in spending more than usual. The merchants report better sales, the post offices more mail, the motor dealers more cars. Is it because the nation is full of hope? that the new deal will being us prosperity We are embarking on a new voyage, it may be that the vessel is not very safe: that storms and pit falls are before us, but we are all willing to try: willing to do our part in the new deal.

Is it not a pity than when a friend remembers one with a gift that one feels that he should return it By doing so we are taking from the donor the delight of giving. Better it would be to accept the gift and let your friend feel that he is giving something, not an exchange of presents.

An Example Of Giving

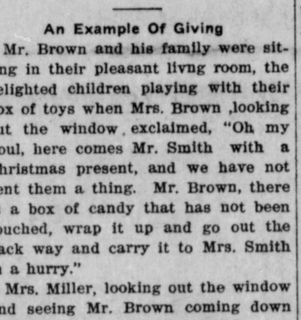

Mr. Brown and his family were sitting in their pleasant livng room, the delighted children playing with their box of toys when Mrs. Brown ,looking out the window, exclaimed, "Oh my Soul, here comes Mr. Smith with a Christmas present, and we have not sent them a thing. Mr. Brown, there is a box of candy that has not been touched, wrap it up and go out the back way and carry it to Mrs. Smith in a hurry."

Mrs. Miller, looking out the window and seeing Mr. Brown coming down the street, carrying the candy, exclaimed, "Mr. Miller, here comes Mr. Brown with a package, get something for him quick. So Mr. Miller was dispatched to Mr. Brown's house with a needless present for Mr. Brown was only passing on his way to Mrs. Smiths. When he returned his wife met him with an anxious face." Mr. Miller has just brought us a present, what shall we give him? So wrapping up one of the presents they had just received, Mr. Brown again went out and knocked at the Miller's door just in time to hear Mrs. Miller call to her husband that after all there was no need in taking the Brown's a present as Mr. Brown had not stopped there after all.

Whether goest thou?

"Art thou so strong that thou canst safely scorn
The good old pathways countless feet have worn,
It may be so. Yet if through following in thy newer way
Some weaker brother fall or go, astray."

Smilin' Charlie Says

"Every plant has it's parasites - and the family tree is no exception."

WILLING TO BE RUN DOWN

Mrs. Freshwed: Dear, the doctor has ordered me to the seashore.

Him: Why, youre not run down or tired out are you?

Her: No, but I shall be by the time I get my trunks packed.

CIVIL WORKS MAY CONTINUE

KENNEDYVILLE AND LYNCH APPLY FOR FIRE PROTECTION

WEEKLY PAY ROLL APPROXIMATELY $2900

If the appropriation to be asked from Congress by President Roosevelt for Civil Works projects is approved the civil works will continue for an indefinite period.

The pay roll on Saturday last in the county was $2,854.80 which is a little below the average weekly pay. Of this amount $2617.91 was for labor and $236.89 was for truck hire.

Among the projects underway at Galena is the relaying of the pavement from the home of Mr. Frank Ruth to the Methodist Episcopal church and the cleaning up of the gun club road on the southern end of the town a part of which has been used as a dumping ground. Application has also been made for curb and gutter, streets, etc.

Fire Protection At Kennedyville, Lynch and Betterton

Application for fire protection has been made for Kennedyville and Lynch and it is understood that it will be approved. This project includes the building of large sunken concrete tanks to hold a supply of water from which the three fire companies in the county can pump. At the present time fire companies responding to calls from these towns are handicapped due to lack of water. Other towns in the which have not applied for these projects and are without fire protection are Galena and Fairlee.

Included in the Betterton projects in a sewerage system and a pipe line from the bay to the school house.

This pipe line will be used for fire protection and a fire truck pumping from the bay will pump through this line and furnish fire protection to practically all parts of the town. At Rock Hall work is going forward on ditching and draining and an application has been made for an extension of the water system. At Chestertown the projects underway are the completion of Philosopher's Terrace, the grading of Washington College athletic field and the ditching for the sewerage for the new hospital.
