NEXT WEEK

REUNITED in their most enthralling love story—Charles Farrell and Janet Gaynor as they appear in "Change of Heart".

Hitch-hiking to Heaven on the royal road of Romance! A poor, little rich girl, with a million dollars—but she had to beg for Love! Sparkling comedy! Exciting surprises! Thrilling romance!

That's the story of "It Happened One Night," the Clark Gable-Claudette Colbert co-starring comedy-drama showing on Monday and Tuesday, June 11 and 12 at the New Lyceum Theatre. Claudette runs away from her father's palatial Miami home to go to New York. She meets the gallant Clark on a night bus and ere long is safely ensconced under his protective wing. A rainstorm halts the bus; they spend the dags hitch-hiking, the nights in auto-camps. After a series of thrilling and romantic adventures they reach New York with the prospect of a wedding in the offing.

Walter Connolly, Jameson Thomas, Roscoe Karns and Ward Bond are featured in the all-important supporting roles under the direction of Frank Capra.

Judging from the number of protests against the professional separation of Janet Gaynor and Charles Farrell received at the Fox Film studios during the past year and a half, most of the screen fans of the country are suffering from writer's cramp.

Ever since the world-famous team disbanded after making "Tess of the Storm Country," the studio mail boys have staggered under daily avalanches of letters clamoring for the reuniting of the noted duo. So it was with real belief these youngsters learned of the forthcoming feature, "Change of Heart," which brings these unrivaled favorites to the screen of the New Lyceum on Wednesday and Thursday, June 13 and 14.

"Change of Heart" is the twelfth vehicle in which Janet and Charlie have starred during the past six years.

Since "Tess," Janet has had four leading men: Warner Baxter, Lew Ayres, Henry Garat and Robert Young. Despite the excellence of this quartette, the nation's fans continued to demand a reunion—and got it.

James Dunn, Ginger Rogers, Beryl Fercer, and a host of luminaries are in the cast of "Change of Heart," taken from Kathleen Norris' stirring novel of romance during the late depression, "Manhatten Love Song."

What would happen if "Frankenstein" and "Dracula" met?

Well, they did, and shook hands!

Karloff, the star of "Frankenstein" and Bela Lugosi the creator of "Dracula," met for the frst time, actually, on the set of "The Black Cat," at Universal City. They smiled at each other, bowed and shook hands. "The Black Cat," bringing together Karloff and Lugosi for the first time on the screen, comes to the New Lyceum on Friday and Saturday, June 15 and 16 as part of a Double Feature program.

The second feature on this program will be the action hit "Thrill Hunter" starring Buck Jones.

NO FOOLIN'

"Is your wife a philanthropist?"
"Must be, the way she distributes my money among her friends at her bridge club."

TIME'S PRECIOUS

"Mother, Bob has asked me to be his wife. What shall I do."
"Consult Bradstreet and Dun, my dear; also a competent lawyer and your heart."

SURE SHOT

"How do you know that he is a great artist?"
"Why he admits it."

FAR-REACHING

"What a pessimist he is!"
"Yes, indeed. Even misery shuns his company."

CAN'T TAKE IT

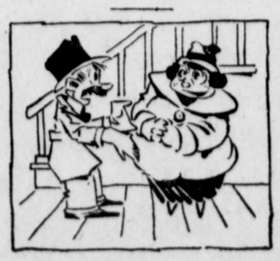

"Imitation is the sincerest flattery."
"Maybe; but I don't like to have a stenographer copy my mistakes in grammar."

WORTH SOMETHING

"Y' can't loan me $10, can you?"
"Right y' are, but I ought t' give you a dollar, I s'pose, for readin' my mind so well."

HONORED AT LAST

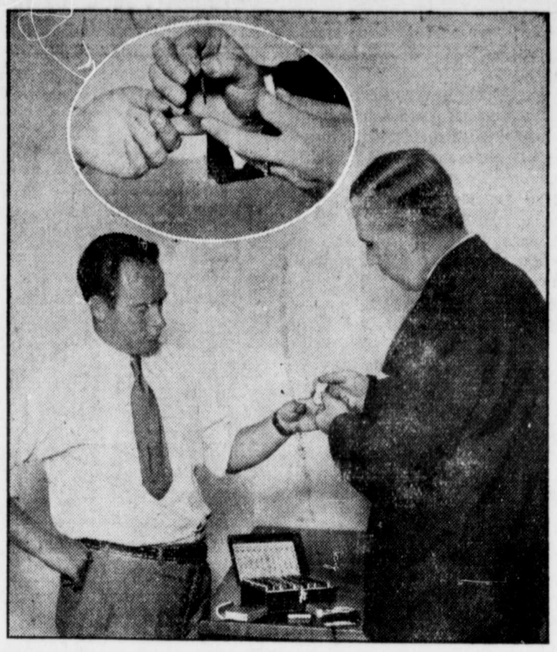

Wifey—You have lied to me consistently ever since I married you.
Hubby—You're the first person ever gave me credit for being consistent.

River's Phenomenal Leap

In British Guiana there is a mighty river called the Petara. At one place, Kaieteur, the river makes a clear drop of 822 feet, and at the foot of the cataract the waters of the Petara branch off in various directions. The Kaieteur cataract is the show place of British Guiana. Twenty-eight thousand cubic feet of water pass over the edge of the cataract every second. This vast volume of water, properly applied, would be capable of furnishing four times as much power as is derived today by the harnessing of Niagara falls.

FIRST AID - AND HOW

Bell Telephone System Reduces Accidents

Telephone wireman receives first aid treatment from the company's medical director, utilizing contents of kit developed for the System companies by the Bell Telephone Laboratories. Using an iodine swab such as is shown in the insert has saved many serious lost time accidents, officials of the Chesapeake and Potomac Telephone Companies say.

Safety measures such as improved supervision, better trained personnel, safer tools and equipment, and safety practice instructions have reduced lost time accidents among telephone plant employees of the Bell System companies during the past ten years very materially. On the average employees only lose about one day each year. Lost time accidents for each 1,000 employees annually are now about 5.46 per cent as compared with 60.1 per cent ten years ago.
