KENT FARMERS BORROW $282,500

FEDERAL MORTGAGE LOANS

A total of $282,500 of Federal land bank and Land Bank Commissioner's farm mortgage loans was made in Kent County, Maryland, from June 1, 1933, to May 1, 1934, according to the Farm Credit Administration.

Of this total, farmers in Kent County used approximately $265,800, or 94.1 per cent to refinance their indebtedness. By refinancing, farmers obtained new mortgage loans which they used to repay their old debts. They generally reduced their annual interest charges in doing so. In a number of cases, scale-downs of indebtedness occured in connection with the new loans. These and other advantages benefited farmers primarily. Secondarily, creditors benefited from the receipt of cash or bonds in exchange for obligations they held.

Of the loan money used by farmers in Kent County for refinancing their debts, about $158,200, it was estimated, repaid their debts to banks; $2,800, their taxes; $2,000, their debts to merchants; $102,800, their debts to "others," or creditors not separately classified, including private mortgage lenders, mortgage loan companies, retired farmers and many others to whom farmers were in debt.

A total of about $16,700 of loans in the county was used for purposes other than the refinancing of borrowers' debts. Of this sum, $4,800 was used for the purchase of land and equipment, the construction or improvement of buildings, and for general agricultural uses, including the provision of capital, while $11,900, the balance, was used for the purchase of stock in national farm loan associations, for loan fees, etc.

Since May 1st this loan to Kent farmers has materially increased.

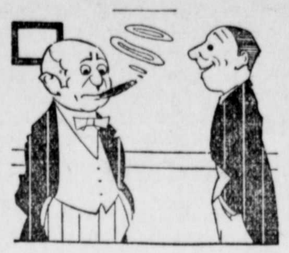

Throughout the United States approximately $675,000,000 of land bank and Commissioner's loans were made from June 1, 1933, to May 1, 1934. Most of these loans were made to refinance debts resulting from the long period of lw farm income.

Until March 26 the land bank and Commissioner's loans were made in cash. Commencing on that date they were made mainly in the government-guaranteed bonds of the Federal Farm Mortgage Corporation. These bonds are exempt from all Federal, state, municipal and local taxation, except surtaxes, estate, inheritance and gift taxes. They are guaranteed fully as to principal and interest by the United States government.

Cork Used in Fabrics

One of the most unusual uses of cork is in the manufacture of certain fabrics in France. By using a specially constructed machine, thin pieces of cork are placed in chemical baths to remove the resinous parts which make the substance more or less brittle. After this has been removed the sheets may be folded and bent without breaking. By combining the cork sheets with any suitable cloth an excellent waterproof material may be obtained. The usual method is to glue the cork to the cloth.—Pathfinder Magazine.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.
