NRA MEMBER U.S. WE DO OUR PART

CHAMBER OF COMMERCE CUTS DUES

A membership meeting of the Kent County Chamber of Commerce was held at headquarters on Monday evening, July 23. Letters notifying each member of a proposed change in the constitution and bylaws were sent out to and received by the members two weeks before the meeting in keeping with regulations governing a possible change in the constitution.

The matter of reduction of dues was discussed from all angles and met with a unanimous vote when it was moved and seconded that dues be changed from $12.00 to $6.00 annually; the change to go into effect as of July 1, 1934, when the fiscal year begins.

It was further agreed to cancel all dues in arrears up to January 1, 1934; to send out bills for the first half of the year under the old scale of dues and for the present half under the new scale. In other words, if a member was in arrears for a year or more all he would now be asked to pay would be $6.00 from January 1 to June 30 and $3.00 beginning July 1 and completing the year to December 31, 1934. Those who paid dues in full for 1934 under the former ruling will be carried through into half of next year.

The statements for July are now being sent out having been held up waiting for the meeting to decide the new program.

Richard H. Collins and Wroth Stavely were appointed as a Membership Committee.

A cordial invitation is extended to all county people and particularly to the newcomers in Kent to join the organization and bring to it their ideas and energy to help Chestertown and Kent progress along substantial lines.

MAN HUNT IN CHESTERTOWN

ESCAPED PRISONER STILL AT LARGE

James Johnson, colored, of Queen Annes County, stole a watch and was arrested in Caroline. He told the Caroline Sheriff that he sold the watch to a man in Chestertown named Jim who he could identify if they took him to Chestertown.

Two Deputies brought him here and after making an excuse to get out of the car, he ran across the jail yard down Queen Street and across Barroll's marsh and that was the last seen of him. Sheriff Vickers and his Deputies assisted the Caroline officers in the man hunt but the theif is still at large. This all happened Thursday afternoon and the entire community was looking for a colored man with his hands handruffed together.

Friday morning it was found that he returned to the home of his parents about midnight without the handcuffs but left right away for parts unknown.

THE CHESTERTOWN ICE PLANT INVITES EVERYBODY TO SEE

THE NEW COOLERATOR

Patented Air Circulation insures cold temperatures in entire food compartment.

As the AIR circulates only UNDER the ice, it comes in contact with melting ice, washing out all food odors and returns to the food compartment SWEET and PURE.

It is unnecessary to wrap or cover foods placed in the COOLERATOR—there is no DRYING-OUT of Foods, because the air is re-conditioned constantly.

Crystal—clear, pure ICE CUBES can be made in five minutes!

DEMOCRATS AGREE ON COMPROMISE TICKET

Factional Division Similar to 1930

CANDIDATES FOR SHERIFF TO RUN AT LARGE

The two factions of the Democratic party arrived at an agreement this week on a compromise ticket, to be divided with two exceptions, the same as the ticket in 1930.

According to the agreement which was signed by leaders of the two factons and later endorsed by party leaders throughout the county, the Organization faction is to name the candidates for Senate, Legislature, Register of Wills, States Attorney, two judges of the Orphans' Court and the State Central Committee.

The Anti-Organization faction is to name the County Commissioners, Treasurer, Clerk of the Court and one member of the Orphans' Court.

Each faction is to have three delegates to the State Convention and the candidates for Sheriff are to run at large, neither faction endorsing any one candidate.

The forming of a compromise ticket has been advocated in all sections of the county so as to avoid the expense of a big primary and also for the benefit of the Democratic party in the General Election.

The personel of the ticket has not been definitely settled on although both factions are busy determining the candidates for their respective offices.

Present indications of the names which will represent the new ticket as far as it can be learned from leaders of the two factions are as follows: (These names have not been determined upon definitely and only represent those whose names are receiving most consideration as far as could be learned at the time of going to press.

It is understood that at a meeting of Organization leaders, that faction endorsed Albert C. Ritchie for Governor, George T. Radcliffe for U. S. Senator, Wm. S. Gordy for Comptroller, Herbert O'Connor for Attorney General.

Anti-Organization Candidates

The Anti-Organization faction are considering the following names, although no general meeting has been held:

County Commissioners—Samuel C. Loller, Ellsworth C. Leary and Andrew W. Wilson.

Treasurer—Walter T. Morris, Jr.

Clerk of The Court—Leonard C. Wilson.

Orphans Court—Joseph Everett.

Organization Candidates

Legislaturemen—Roy Strong and Wilbur R. Hubbard.

The Curbtone Diplomat

WILLIAM S. COLLINS

"If You Love Me Show It"

In the past month or so it has come to light, that the town, almost to the man, woman and child are great lovers of trees. The yell has been "O Woodsman Spare That Tree." And the woodsman heeded them not when it was necessary to fell a tree to widen the road. Ruthless, no, every tree he cut down he wept and said, "This hurts me more than it does you." A general hysteria has prevailed.

Residents of other streets are fearing that they are going to lose their trees. With the exception of one more block it might be safe to say, "Most of our troubles never happen." In a lot of cases the tree cutters are claiming that they are hastening the end of trees by only a very few years as many of them are diseased and have been neglected.

Now our town seems to be made up of people with a lot of natural ability. It seems that almost every citizen, man and woman, is just a natural born civil engineer, health doctor, etc. It is extremely wonderful when you consider that the whole life experience of most of them has been their home or particular business, church, Sunday School picnic to Tolchester every year and one day shopping trips to the city once or twice a year instead of dealing at home. This must take in most of us because it is awful hard to put anything over in town in the way of sports or amusements. We have a regular civil engineer that is trying to fix up the town but of course he does not know anything about how streets should be graded, surveying done or anything else.

Now, what I am trying to get at is this: Do you think this natural ability with which our people are blessed extends to forestry? If it does, there is nothing more to say, but if it does not I very timidly say that a forester says a lot of our trees here in town are diseased and that if they are treated it would probably prolong their lives. So for the trees I speak, "If you love me, show it, get somebody to doctor your tree," and to the town, "have the trees doctored which belong to the town."

Girl Of My Dreams Come True

According to Mr. Marion deK. Smith and one other very influential gentleman, the Chesapeake Bay Bridge is going to be built. They seem to be very positive of the fact.

Parallel Cases

When the duPonts went to put their famous highways into their back yard, all that part of Delaware from Wilmington south, they met many protests. One big protest was the cutting down of trees to build the highways. The highways were built. Now when people from the Eastern Shore have any travelling to do they head for the Delaware highways and use them as much as possible. The big reason for this is they are better roads than the Maryland roads which were built long before the Delaware roads and which many years ago gave Maryland the reputation of the "Good Road State."

Already rumbles can be heard for an Eastern Shore Boulevard and before long it will be a roar. A meeting has been held and there is a group of people who are determined to have an Eastern Shore Boulevard which will entice tourists to use the Maryland roads.

Now I believe we have a man among us, who is determined to have the Eastern Shore Boulevard pass through Chestertown. If this did go down Maple Avenue every business place on the street would be benefited.

The Question Is Still Wet Or Dry?

Though most people look upon the prohibition question as being settled it is far from being settled locally. Electing a dry Senator and Represenatives from the county might result in the sale of beer, wines and liquors being stopped in the county. If enough Drys were elected from the other counties it might result in a State law. Anyhow I am predicting that future sessions of the legislature will see efforts to dry up certain sections of the State.

Yes Sir, Dogs Are Real Friends And Deserve Proper Treatment

Chestertown, Md., July 25, 1934.
Mr. William S. Collins,
Chestertown, Maryland.
Dear Mr. Collins:

I am enclosing a clipping from the Baltimore "Evening Sun" of July 24, 1934, I trust you may find room for it in your column "The Curbstone Diplomat." It will maybe help to save some of our dumb friends. So many times I have seen a hit and run driver run over a dog in Chestertown and leave the poor animal to crawl up to the curb, and lie there nearly all day until at last death would relieve it of its torture. They don't seem to think that the cat or dog that they strike may be the playmate of some little boy or girl who is going to miss his companionship very much. Please give our dogs and cats a chance, and if you do hit them then don't run and let them lie there and suffer, try to help them in some way. Thanks.

Reader.

The clipping deals with a hit and run driver killing a dog. He was caught and fined $25 and the magistrate called attention to the fact that the law is very definite upon this offense, with fines running from $25 to $100.

UNION SERVICE IN PARK SUNDAY

The 7 p. m. Union Service in the Park this Sunday, July 29, will be under the direction of the Rev. Dr. Litsinger, of the Methodist Protestant Church. Music will be furnished as usual by the Chestertown Freman's Band, under the direction of Mr. Van-Patten, the leader. The singing will be congregational, leaflets with the hymns selected being distributed among the people.

At the last service Rev. C. L. Atwater spoke on the text, "Upon this Rock will I build My Church, and the gates of hell shall not prevail against it." (S, Matt. 16:18). He spoke of The Church as being generally understood to be the great body of Christion believers, and not any one special denomination, and that how her people need to have and keep Faith in Her, in spite of human defects of her members, human disruption on Theological points which are actually aside from the real work of the Church, and also in the face of hostility, indifference, and temporary falling away of some. The essential principles of Christ are eternal and now practically undisputed. Christian standards of righteousness are the highest ever conceived. Also the Christian program. Universal Brotherhood, unselfish love of all, and the Eternal Salvation of all people, is a program unequalled by any merely human society. Finally the Church is the only organization transcending man, for Christ is its originator, leader and God. Whose promise can be believed, that "The Gates of Hell shall not prevail against it".
