THE RECTORY,
Denton, Maryland,
July 21st, 1934.

To the Editor of the Transcript:—

As a "former resident" and all-time friends of Kent County where I spent some very happy years, I have been very much interested in the discussion that has been taking place in regard to the widening of Maple Avenue in Chestertown and the consequent loss of some of its shade trees. It is easy to understand the feeling of the property owners along that street for one certainly regrets the cutting down of a tree that has taken so many years to grow. However, what may be a temporary loss to some of the property owners on Maple Avenue may prove in the end to be of very great benefit to the entire commuity. Whether the destruction of these trees is either justified or necessary I do not attempt to say.

I think there is something vastly more important to the citizens of Chestertown than this which to some seems a very unfortunate procedure. What I mean is this. What Chestertown needs, and the present discussion brings it to the fore, is a well thought out plan for the beautifying of the town. A very important part of that plan would be a tree planting program. The people of Chestertown, as a matter of civic pride and as a duty which they owe to the coming generations should be willing to assume some responsibility in this matter.

It is inevitable, in the ordinary course of things that some shade trees will have to go in order to make room for necessary public improvements. Some trees will die and disfigure the landscape until they are removed. The wise and sensible thing, therefore, would seem to be to give definite attention to the planting of trees. As an old and interested friend, I should say to the food citizens of Chestertown, "Plant trees."

Sincerely yours,
JOHN WHITE.
