NEXT WEEK

Acclaimed as a dramatic gem destined to achieve a lasting niche for itself in the film Hall of Fame, 'She Was a Lady,' the screen production of Elisabeth Cobb's widely discussed novel of the same name, comes to the New Lyceum on Monday and Tuesday, August 13 and 14. It is a Fox Film with Helen Twelvetrees in the principal role.

Without any mincing of words, advance reports have it that the production is a thoroughly enjoyable entertainment and will evoke as much discussion as did the publication in McCall's Magazine of the story on which it is based.

Supporting Miss Twelvetrees in the chief male role is Donald Woods, and their love scenes have been heralded as a new high in tenderness. Ralph Morgan plays Miss Twelvetress' father, and Monroe Owsley the menace to her happiness, while others in the cast include Paul Harvey, Doris Lloyd, Harold Goodwin, Barbara Weeks, Jackie Searl, Karol Kay and Ann Howard.

'She Was a Lady' was produced by Al Rockett and directed by Hamilton MacFadden from a script by Gertrude Purcell.

A small town scandal, with all of its gossip, malicious comment, and petty persecution is revealed in 'The Life of Vergie Winters,' starring Ann Harding, which shows at the New Lyceum on Wednesday and Thursday, August 15 and 16.

The cause of the scandal is the tremendous romance of Vergie Winters, played by Miss Harding, and John Shadwell, portrayed by John Boles.

Vergie is the town milliner. Shadwell is the community 'favorite son,' with a brilliant political future. Prevented from marrying Vergie, he carries on an affair with her in defiance of conventions after they discover, Shadwell has been wed to another girl, that they were tricked into their mating by Vergie's father.

The story covers an epochal span of twenty-two years to the present time—tracing the poignant romance through its many vicissitudes to what is sad to be an intensely dramatic climax.

Helen Vinson plays the cold and selfish wife of the story, and Betty Furness is seen as Miss Harding's daughter, a role which the child actress, Bonita Granville, carries in earlier scenes of the production. Others in the exceptionally imposing cast include Molly O'Day, Wesley Barry, Ben Alexander, Frank Albertson, Creighton Chaney, Donald Crisp, Edward Van Sloan, Josephine Whittell, Dorothy Sebastian, Maidel Turner and Cecil Cunningham. Alfred Santell directed.

Jack Holt again reveals what a strangehold he has on popular favor as evidenced by the enthusiastic response accorded his latest Columbia starring vehicle, 'The Defense Rests,' coming on Friday and Saturday, Aug. 17 and 18 to the Ney Lyceum. The film is a scathing, sensational dramatic revelation of the career of a brilliant, headline-seeking criminal lawyer. Ruthless in his efforts to confuse justice with startling manoeuvers before the bar, the "Matt Mitchell' of Jack Holt makes a shambles of the law, and an ironical farce of courtroom procedure.

At the height of his fame, however, he meets an idealistic young law student, a comely and intelligent girl, who sets out to convince him of the error of his ways. How she succeeds in her mission lends a thrilling, romantic twist to the story that makes it at once novel and exciting.

The young barrister is portrayed by Jean Arthur, with a strong stellar cast in support. Among them are Shirley Grey, Arthur Hohl, Nat Pendleton, Raymond Walburn, Ward Bond, Donald Meek and Raymond Hatton. Jo Swerling is responsible for the original story and screen play, with direction credited to Lambert Hillyer.

STEPHEN R. COLLINS. Attorney.

TELLING THE WORLD

Sydney . . . Overseas telephone service certainly creates some amusing situations. A child was born in Australia on March 13. The grandparents in California heard the news—by telephone—on March 12, according to Telephone News. This apparent mixup can be blamed on the fact that the sun travels more slowly than does a telephone message.

London . . . Telephone installations in the Cape Peninsula section of South Africa have increased greatly since the beginning of the year when the dial telephone system was first installed in this area. For the first three months of the year 1,100 telephones were added to the system. On April 15 the Cape Peninsula was served by 19,377 telephones as compared with 16,055 five years ago, according to Foreign Communications News.

Danville . . . Gomes Gourfourth, 12, was saved from drowning by four linemen of the Chesapeake and Potomac Telephone Company of Virginia while they were at work removing cables from a bridge about to be remodeled, according to the Richmond Times Dispatch. The boy was in a boat in the canal race when the frail craft upset.

The linemen, aloft on poles, saw the accident. They descended, ran in their climbers to a flood gate where the struggling boy was being drifted and eight willing hands grabbed the young body as it swept by.

The linemen, having studied restoration in first aid classes maintained by the company, applied their knowledge and brought the boy back to consciousness, after which he was taken home.

Jerusalem . . . Telephone users here are credited with making more calls per day than in any other part of the world. The average number of calls for each person in Jerusalem is 37.8 daily. In industrial and commercial centers of America the average is 12 telephone calls and in the United Kingdom of Great Britain 7 calls per day. Telephone service between the United States, Canada, Cuba and Mexico and Jerusalem was established April 7, 1933.

"Charles, do you think my lip rouge is in good taste?"

"How can I say, little girl? I haven't tasted it."

The NEW McCormick-Deering Spreader Features an ALL-STEEL Box

THE new McCormick-Deering No. 4-A *all-steel* spreader is convenient, low to the ground, simple, and compact. It features a galvanized, rust-resisting, copperized, non-warping, heavy-gauge steel box of 60 to 70-bushel capacity. Eight roller bearings and Zerk lubrication, combined with perfect alignment of all parts, make this new *all-steel* spreader unusually light in draft. Two horses can haul capacity loads in it all day long.

Five spreading speeds are provided, permitting the use of just the right amount of manure at all times. The manure is torn and shredded by a saw-tooth upper beater, a spike-tooth lower beater, and a wide-spread spiral before it is spread in an even layer over the soil. A special endgate can be provided for use when liquid manure is to be hauled. A brake is available as special equipment. Also, there is a lime-spreading attachment which changes the No. 4-A into an efficient lime spreader.

See this new *all-steel* spreader at our store at your first opportunity.
