OUR DEMOCRATIC FORM of government gives every citizen, if properly registered, the privilege of going to the polls on election day and voting for their choice of candidates for official positions in Federal, State and County management. It also gives every man or woman the privilege to seek any office, provided they can qualify for that position. The two recognized Democratic factions in the county have combined and made a harmony ticket, which appears at the head of this column, and includes a representative group of men from all parts of the County. Now the question arises, who to vote for and why. If we consider Kent County as a large business firm with the residents as stockholders and the office holders as officials of that firm, we know that a large part of the efficiency depends upon the ability and particularly the cooperation among the officials. The so-called harmony ticket includes every office in the county with one exception and the election of this full ticket assures the cooperation of all officials toward efficient management. The stock holders of many firms have suffered from dissention among the officials, and regardless of their ability the results are very often disastrous if they are not one unit. As for the State ticket we are again faced with a problem that materially effects every tax payer in the county. Within the past two years the tax rate of Kent County has been reduced from $1.48 to 84 cents, the majority of which reduction has been possible through State Legislative action, although the present Board of County Commissioners were responsible for their share of the reduction. It is therefore to the advantage of the tax payers to send men to Annapolis who are harmonious in their efforts to look to the best interests of this county.

IN OUR ISSUE of last week appeared an appeal for funds for the Kent County Ambulance. The appeal was made by the Board of Control of the ambulance and in the appeal the question of whether the valuable service rendered by the ambulance would be continued was left to the people of the county. The appeal asked for donations from those who have used the ambulance and also from the public at large who appreciate the valuable service the ambulance has rendered. The response so far has been small and the ambulance will continue to be out of service until sufficient available funds prove that the people of the county wish the service continued. The Board of Control has succeeded in financing the ambulance for four years without appealing for funds and now small donations by a large number of people will assure the continuation of this service to the sick and injured.
